

## **Rowan College of South Jersey**

Policy: 4005  
Title: **ONLINE PROCTORING**  
Area: Innovation and Technology  
Approved: 07/14/20  
Revised: 04/21/26

To support the academic integrity of online assessments, and to be prepared for emergency closures of the College's physical campuses, the College has adopted an online proctoring solution.

Students in all courses, regardless of modality, must be able to make use of the College's licensed online proctoring software platform. Because online proctoring software has specific technical and hardware requirements, all students will be made aware of these requirements prior to, or at the time of registration.

It is not required that faculty make use of online proctoring; it is only mandatory that students in all courses are prepared technologically to use it, should it be required.

Administrative procedure will be developed to provide additional information regarding online proctoring.
