Associate in Science (A.S.) – Transfer

This program is designed to meet the demands of an increasing number of people in the community who are interested in preparing for a career in the engineering field.

When You Graduate

AS programs are primarily designed for students who plan to transfer as juniors at four-year colleges and universities. RCSJ graduates have obtained bachelor's degrees and beyond from every college in New Jersey and scores of colleges and universities throughout America. RCSJ has transfer agreements with a number of four-year colleges and universities.

This program prepares students for a career in the engineering field. Engineering uses the physical science and mathematics to design and develop products and systems. It uses advanced techniques to find solutions to technical problems and other complex issues.
