Syllabus

Lecture Hours/Credits: 3/3

### **Catalog Description**

This course will explore the styles of the various musical theatre composers and lyricists of this century. The class will be performance oriented and will require that students learn and perform music of the era being studied. Students will be required to memorize all assigned material. Repertoire studied will include text leading into the musical numbers. In this class, students will learn and perform solos, duets, and ensembles from the musical theatre repertoire. Students will be taught vocal technique as it applies to singers. Vocalizing exercises will be recorded for practice outside of class. In the second semester, time will be devoted to audition techniques. This course is intended to strengthen the actor's confidence in performing a song, while introducing him/her to the wealth of musical theatre material available, so as to build a repertoire of suitable audition and performance material.
