DESCRIPTION OF WORK

In-class Quizzes

There will be quizzes throughout the course of the semester; the quizzes are designed to test your knowledge of concepts and terminology based on the required texts and class notes and discussion. They will consist of a mixture of multiple choice, true/false and short answer questions. If you miss a quiz, you will receive a grade of zero.

Blog

Film Blog (must be a new account): Respond to your choices made from films screened in class to post 5 individual entries to your original blog. Five entries must be 500 words each (minimum) citing (annotating) an interview with a crew member.

You may use any of the following crew/departments: Production, Direction, Writing, Cinematography, Editing, Costume Design, Set Design, Sound Design, Musical Scoring, Marketing, or Publicity. You may only use each department for one blog entry. Use the quotation from this selected film crew member to generate a discussion and analysis of the selected film's aesthetics in the context of this crew member's contribution.

You are strongly encouraged to make your blog visual and interactive, that is, include film stills and video to support your arguments.

Participation & Assignments

Student participation and discussion are essential to a beneficial course experience. You will be graded for your participation in production-related projects, your preparation for the class (i.e. reading chapters of text prior to the class discussed, completion of required assignments, etc.) and your attendance (frequent absences or classroom disruptions will greatly affect your participation grade).

Movie Trailer Project (DATE to be announced): Link 3 Movie Trailers to your electronic essay identifying how these three trailers illustrate a specific convention or change in a specific genre or a specific change in Hollywood industry practices.

Final Exam

Will be taken online with our Blackboard eLearning system and will be available during the final week of class.

(Please check with individual instructors for their class policies and expectations)

GIVING AND RECEIVING PROJECT CRITICISM

One of the most difficult aspects of the course for many students is the critical nature of project evaluation. The real-world media production environment—including RTF, journalism, and advertising—requires a thick skin and keen evaluative skills to sustain success. My goal as an instructor is to emulate that climate in a safe environment (i.e. an environment where you won't be fired for your mistake) and encourage development of the critical skills needed in practically any field. Use the points below for a starting place on developing those skills.

Receiving Criticism:

Double (and triple) check your work. After you've finished, and before you submit it as a polished project, make sure that you've watched it multiple times with a critical eye – and corrected anything that you and your teammates can find. If you haven't watched it until you're sick of it, you haven't watched it enough times. Going over everything beforehand can help you avoid careless mistakes that needlessly lower your grade, and allow the feedback to focus on real learning.

Accept that you are not perfect. No project that you submit will be flawless, and I don't expect perfection from your projects (although it may seem to you like I do at times). The most important thing is that you recognize you will make mistakes, give a lot of effort to try to avoid them, and then learn from them so you don't make them again in the future.

Don't take it personally. If your instructor or fellow students have feedback for you, remind yourself that it is your work being criticized, not you. Remember that they aren't criticizing your work out of spite, but in order to ensure you do the best work possible.

Listen carefully. If you ignore criticism, you're likely to repeat the same mistakes. Be sure to take notes on your feedback, and think of how to correct the problems specified. Ask for suggestions on how you can improve that aspect of your project. Admittedly, this is a difficult task as it requires you to take responsibility for your own errors. Don't interrupt or digress; this is an opportunity to learn about your progress.

Don't be defensive. Try not to be defensive about what you are hearing, or to justify your actions or reject the information. You don't have to agree with what you hear, but it is important to hear it.

Don't hold a grudge. Staying angry/upset about criticism can affect your future work. Put the mistakes out of your mind and focus on doing the best job possible on the next task.

Clear the air. If you are upset or believe the criticism is unfair, come see me to discuss it outside of class. We can clear up any lingering bad feelings and discuss ways to improve your work in subsequent projects. If you're not sure about certain points, ask for clarification. Don't get discouraged; constructive criticism is a key part of any job.

Giving Criticism:

Participate fully. Nothing is more troubling than a lack of participation, or superficial participation. Remember that the learning you can get from this class is directly tied to your participation. The more you watch other projects with a critical eye, the better your own projects will be.

Pay objective attention. Try to look at each project for its merits/flaws. Don't compare it to your own project. Pay attention to all aspects of the project, including technical, aesthetic, and thematic.

Be specific rather than general. Providing specific examples helps the recipient understand exactly what the issue is. Take notes as you view each project to refer back to.

Describe, don't accuse. Use active listening to defuse the emotion in the situation. Make sure you are communicating a specific point rather than assigning blame.

Don't just offer opinions, offer solutions. Point out flaws in the project when coupled with a possible solution. Merely pointing out audio problems (for example) in a project is of limited utility; sharing techniques for correcting/avoiding those audio problems in the future will be of much greater benefit to the entire class.

The Department of Special Services, located in the Instructional Center, room 425A, welcomes students of all abilities. The staff members in Special Services are committed to providing support services and ensuring equal access to eligible students with documented disabilities as outlined by the Americans with Disabilities Act (ADA) and the Americans with Disabilities Act with Amendments Act (ADAAA).

To maximize the potential of eligible students who self-identify, the Special Services staff provides an array of support services which may include extra time for tests and quizzes, testing in a separate location, advisement, interpreters, scribes, tutors, assistive technology (such as magnification devices and audio amplification), touch screen computers, audio books and note-taking assistance.

As students embark on their academic journey, they are encouraged to meet with staff members to identify, develop and implement support services that are in accord with their individual academic needs. Students are also encouraged to make use of other college support services that are available to all RCGC students currently enrolled in credited academic courses, such as tutoring services and the college library, which offer online information research and other materials needed to complement their studies.

Students registered with the Department of Special Services and who plan to earn an associate degree, further their education and transfer to a four-year institution, or enter the workforce, are encouraged to choose a corresponding program of study (college major) as soon as possible. The Special Services staff assists enrolled students with additional support that focuses on advancing students through their selected programs of study towards a goal of graduating.

Students who request academic support from the Department of Special Services can be assured that confidentiality will always be maintained. Accommodations are provided to address the special needs of individuals with disabilities under Section 504 of the 1973 Rehabilitation Act and the Americans with Disabilities Act (ADA) of 1990 together with the ADA Amendments Act of 2008 (ADAAA).
