

Degree Offered

Associate in Science
Justice Studies/Corrections

Curriculum Code: JS.CORR.AS

Program Information

Law enforcement and corrections are among the fastest growing career fields in America, according to the U.S. Department of Labor. A range of job opportunities awaits graduates as America becomes a more security-conscious society.

This program encourages comprehensive understanding of the nature of crime and the goals of the criminal justice system. Students are introduced to organizations, occupations and regulations that govern the criminal justice system. The program prepares students to enter a specific criminal justice field or continue their studies at a four-year college/university. Two themes are critical throughout the program: leadership and ethics.

When You Graduate

You'll be ready for immediate employment or you can transfer to a four-year college. Cumberland has transfer agreements in criminal justice with several colleges, and graduates have transferred to scores of colleges and universities throughout the years.

Some career possibilities include employment with the federal, state and county institutions. Those with a bachelor's degree may hold a variety of administrative positions.

As a graduate of a fully accredited community college, your coursework will be received with full credit transfer at most state colleges, public and private universities across the country. The NJ Lampitt bill passed in 2008 by the NJ State legislature assures seamless transfer of credits toward junior standing at NJ state colleges and universities.

This program is designed for students who are interested in law enforcement and corrections or want to continue their studies at a four-year college/university. Students are introduced to organizations, occupations and regulations that govern the criminal justice system and a range of job opportunities that awaits graduates as America becomes a more security-conscious society.
