Rowan College of South Jersey and Rowan University have formed an innovative partnership to make higher education more affordable to South Jersey residents by providing a direct, cohesive route to a bachelor’s degree with easy transfer credits. The Rowan University Center (RUC) assists students on their pathway from Rowan College to Rowan University by providing a variety of services, such as advisement and application assistance, to students and alumni.

From their very first day of classes, Rowan College students are conditionally admitted to Rowan University with the understanding that all program prerequisite coursework and GPA requirements must be satisfied. Students pay the community college tuition and fee rates while attending RCSJ, saving them substantial time and money.

STUDENTS CAN CHOOSE FROM THE FOLLOWING PATHWAYS:

**3+1 PROGRAM**
Earn a four-year degree at a reduced price: less than $30,000 for a bachelor’s degree. Students remain at Rowan College for an additional year to complete their junior level courses while paying RCSJ tuition and fees. Only available to select majors.

**ROWAN CHOICE**
Live on Rowan University’s campus and earn up to 60 credits through RCSJ. Courses are taught by RCSJ professors at both RCSJ and Rowan University. Available to all majors.

**2+2 PROGRAM**
The 2+2 pathway is a new initiative slightly different from a traditional transfer. Students interested in earning their bachelor’s degree in one of these programs must start at RCSJ for the first two years. The last two years are taught by Rowan University faculty, but some classes will be held at RCSJ.

**TRADITIONAL TRANSFER**
Complete your associate degree at RCSJ and transfer to Rowan University for your bachelor’s degree. Available to all majors. Select majors may complete their final two years online via Rowan Global.

### Welcome to Rowan College of South Jersey

Rowan College of South Jersey (RCSJ) is a student-centered, student success-driven college ready to help you take the next step in your education and forge a unique path to the future of your choice. The College provides many opportunities for degree seeking students as well as professionals wanting to earn an industry-valued credential or pursue workforce training.

With one of the lowest tuition rates in New Jersey, RCSJ offers more than 100 in-demand and industry-informed degree, certificate, and workforce programs in two convenient locations - Gloucester and Cumberland counties. On both campuses, the College provides access to quality education, marketable credentials, experiential learning, and enhanced student experiences.

RCSJ provides a quality education at your convenience. Flexible sessions are offered as 5-, 7-, 10- and 15-week courses throughout the semester, on campus or online, to plan around your work and family obligations. RCSJ also supports you through free tutoring, advising, mental health services, and academic cohorts in addition to providing $1 million in scholarship opportunities, financial aid assistance, and convenient payment plans.

Embrace college life with athletics, clubs, organizations, honor societies, internships, creative activities, and networking opportunities all designed to help you find your fit in RCSJ's college community. With over 50 student organizations, the 5-star ranked Phi Theta Kappa honor societies on both campuses, and 16 sports programs across two nationally and regionally ranked athletic teams, there is something for everyone.

RCSJ's strong academic, industry, and community partnerships provide students exclusive benefits, support, and savings that other colleges can't match. Our Flagship Partner, Rowan University, elevates the RCSJ experience to another level through the residential opportunity, Rowan Choice. Students pursuing a bachelor's degree can take advantage of unique academic and tuition-saving programs like 3+1, 2+2 and Traditional Transfer. The Gloucester campus is proud to house the Rowan-Virtua School of Osteopathic Medicine and offers a new Pathway to Medicine program guaranteeing five seats in the medical program to RCSJ Biological Science students.

Our Premier partners, Inspira Health, Acenda Integrated Health, and Rastelli Foods, offer unique opportunities in healthcare, mental health and behavioral science, as well as entrepreneurship and food science. These partnerships benefit the South Jersey community through tuition employee discounts, scholarship opportunities, and employment pathway and retention.

I'm glad you joined us. We promise to provide unique pathways for you to transform knowledge into action, build a foundation for a successful career, and a life that is meaningful to you.

You've found your fit, now launch your future.

Frederick Keating, Ed.D.
President

College Overview

Rowan College of South Jersey was established on July, 1, 2019, with the merger of Cumberland County College and Rowan College at Gloucester County. It is a comprehensive, two-year, dual-campus regional institution sponsored by the residents of Cumberland and Gloucester Counties through their respective Boards of Chosen Freeholders. The College is accredited by the Middle States Commission on Higher Education.

Rowan College seeks to assist each person in the development of a career, while at the same time developing humanistic values and encouraging personal enrichment. The College is dedicated to its community and accepts the responsibility of providing post-secondary educational opportunities to all who seek them. It provides college and university transfer programs, career education, community services and special assistance programs.

Rowan College seeks to bring higher education within the geographic and financial reach of all residents.

State of New Jersey Vision for Higher Education

New Jersey and its colleges and universities embrace their shared responsibility to create and sustain a higher education system that is among the best in the world, enabling all people to achieve their maximum potential, fostering democratic principles, improving the quality of life and supporting the state's success in a global economy.

Rowan College of South Jersey Mission

Rowan College of South Jersey is a center for learning that strives for academic excellence, supports the economic development of the community and seeks to enhance the community’s quality of life through affordable, accessible programs and services in a safe and caring environment.

COLLEGE OVERVIEW

Core Values
Rowan College of South Jersey respects the diversity of its student body and recognizes the worth and potential of each student. Therefore, the College affirms the following values:

Commitment to Students
Belief in the priority of providing the highest levels of learning, resources and support services to enhance intellectual, personal and social growth while focusing on the professional development of students.

Commitment to Excellence in Education
Belief in providing educational programs and student support services that combine academic rigor, up-to-date information, incorporation of the most effective strategies and close assessment of learning outcomes to achieve excellence in learning.

Contribution to Community
Recognition of the importance of enhancing the economic vitality and quality of life for all citizens in our community.

Commitment to Access and Diversity
Belief that the College will actively seek to create the highest levels of access to programs and services for all students who may benefit and that the College’s employees and students represent diversity of the community.

Quality Campus Environment
Recognition of the importance of providing a safe and pleasant work and learning environment characterized by integrity, clear communications, open exchange of ideas, involvement in decision making and respect for individuals.

Social Responsibility
Belief in providing educational, experiential and training opportunities for students and residents of the community that fosters an inclusive atmosphere of support and care for one another and other members of the community at large.

Civic Duty/Commitment
Recognition of the important roles that students, faculty and staff have in providing service to all citizens in our community.

Core Competencies
This comprehensive list reflects the core competencies that are essential for all RCSJ graduates; however, each program varies regarding competencies required for a specific degree.

Critical thinking is embedded in all courses, while teamwork and personal skills are embedded in many courses.

• Written and Oral Communication
  Students will communicate effectively in both speech and writing.

• Quantitative Knowledge and Skills
  Students will use appropriate mathematical and statistical concepts and operations to interpret data and to solve problems

• Scientific Knowledge and Reasoning
  Students will use the scientific method of inquiry, through the acquisition of scientific knowledge.

• Technological Competency
  Students will use computer systems or other appropriate forms of technology to achieve educational and personal goals

• Society and Human Behavior
  Students will use social science theories and concepts to analyze human behavior and social and political institutions and to act as responsible citizens.

• Humanistic Perspective
  Students will analyze works in the fields of art, history, music, or theater; literature; philosophy and/or religious studies; and/or will gain competence in the use of a foreign language

• Historical Perspective
  Students will understand historical events and movements in World, Western, non-Western or American societies and assess their subsequent significance.

• Global and Cultural Awareness
  Students will understand the importance of a global perspective and culturally diverse peoples.

• Ethical Reasoning and Action
  Students will understand ethical issues and situations.

• Information Literacy
  Students will address an information need by locating, evaluating, and effectively using information.

— Fall 2018

— June 2020
Accreditation

Rowan College of South Jersey is accredited by the Middle States Commission on Higher Education. The Commission may be contacted at 3624 Market Street, Philadelphia, PA 19104 or by calling 267-284-5000. Accreditation is a formal expression of confidence in an institution's performance. Institutional accreditation reflects clearly defined goals and objectives.

All associate degrees and certificate programs are approved by the New Jersey President's Council and the College's Board of Trustees. Specialized accreditation or licensure in Nursing and Health Professions and technical programs include:

- The Diagnostic Medical Sonography program is accredited by the Commission on Accreditation of Allied Health Education Programs, 9355 – 113th St. N., #7709, Seminole, FL 33775, phone: 727-210-2350, email: mail@caahep.org, in collaboration with Joint Review Committee on Education in Diagnostic Medical Sonography, 6021 University Boulevard, Suite 500, Ellicott City, MD 21043, phone: 443-973-3251, email: mail@rjcdms.org.

- The Nuclear Medicine Technology program is accredited by Joint Review Committee on Educational Programs in Nuclear Medicine Technology, 2000 W. Danforth Road, Suite 130 #203, Edmond, OK 73003, phone: 405-285-0546 and the State of New Jersey Department of Environmental Protection, Radiation Protection and Release Prevention Bureau of X-Ray Compliance, Ramona Chambus, Acting Chief, 25 Arctic Parkway, P.O. Box 420 (Mail Code 25-01).

- The Nursing program is accredited by the Accreditation Commission for Education in Nursing (ACEN), 3390 Peachtree Road NE, Suite 1400, Atlanta, GA 30326, phone: 404-975-5000, acenursing.org and the New Jersey Board of Nursing, 124 Halsey Street, P.O. Box 45010, Newark, NJ 07101, phone: 973-504-6430, https://www.njconsumeraffairs.gov/nur. Questions may be addressed to the Board of Nursing and the ACEN at their respective address.

- The Paralegal (Gloucester campus) degree and certificate programs are approved by the American Bar Association (ABA) – ABA Standing Committee on Paralegals, 321 N. Clark Street, Chicago, IL 60654-7598, americanbar.org/groups/paralegals.

- The Physical Therapist Assistant program at Rowan College of South Jersey is accredited by the Commission on Accreditation in Physical Therapy Education (CAPTE), 3030 Potomac Avenue, Suite 100, Alexandria, VA 22305-3085, phone: 703-706-3245, email: accreditation@apta.org, website: http://www.capteonline.org. If needing to contact the program directly, please call 856-415-2188 or email edoyle@rcsj.edu.

- The Practical Nursing (Cumberland campus) certificate program is accredited by the New Jersey Division of Consumer Affairs, New Jersey Board of Nursing, 124 Halsey Street, P.O. Box 45010, Newark, NJ 07101, phone: 973-504-6430, https://www.njconsumeraffairs.gov/nur.

- The Radiography program is accredited by the Joint Review Committee on Education in Radiologic Technology, 20 N. Wacker Drive, Suite 2850, Chicago, IL 60606, phone: 312-704-5300, jcert.org and the State of New Jersey Department of Environmental Protection Bureau of X-ray Compliance, P.O. Box 420, Trenton, NJ 08625, phone: 609-984-5890, state.nj.us/dep/rpp.

- The Associate degree programs Business Administration, Accounting, Digital Marketing, and Human Resource Management, as well as the Certificate of Achievement programs Accounting, Business Software Tools, Digital Marketing, and Management are accredited by the Accreditation Council for Business Schools and Programs (ACBSP), 11520 West 119th Street, Overland Park, KS 66213, phone: (913) 339-9356, acbsp.org.

Affirmative Action Statement:

The Board of Trustees is committed to providing a work and academic environment that maintains and promotes affirmative action and equal opportunity for all employees and students without discrimination on the basis of certain enumerated and protected categories. These categories are race, creed (religion), color, national origin, nationality, ancestry, age, sex (including pregnancy and sexual harassment), marital status, domestic partnership or civil union status, affectional or sexual orientation, gender identity or expression, atypical hereditary cellular or blood trait, genetic information, liability for military service, or mental or physical disability, including AIDS and HIV-related illnesses. For questions concerning discrimination, contact Almarie J. Jones-Gloucester Campus, Special Assistant to the President, Diversity and Equity, Title IX and Compliance at 856-415-2154 ajones@rcsj.edu; Nathaniel Alridge, Jr., J.D., Director, Diversity and Equity, Title IX, and Judicial Affairs-Cumberland Campus at 856-498-9948 or nalridge@rcsj.edu. For disabilities, contact Carol Weinhardt-Gloucester Campus, Director Department of Special Services, ADAAA/504 Officer at 856-415-2247 or cweinhar@rcsj.edu Meredith Vicente-Cumberland Campus, Senior Director, Disability Support Services 856-200-4688 mvicent1@rcsj.edu.
FINANCIAL SERVICES INFORMATION

Financial Services Information

Tuition and fees are established by the Rowan College of South Jersey Board of Trustees, which reserves the right to change any and all fees and tuition in accordance with the Higher Education Restructuring Act. Tuition and fees must be paid in accordance with the payment schedules established for each semester. Information is effective as of Fall 2023.

³ Fee subject to change
× Cost pass through
§ Cost pass through plus $25 administration
¹ Out-of-county students must apply for a Certificate of Residence (charge-back) from their home county as required by State Statute 18A:64A-23; 18A:64B-4.
² The NJVCC Online course fee is an estimate for informational purposes only. The actual rate is set by the Council of County Colleges.
³ Processing and administering of all standardized tests are charged for the actual cost to purchase the test (approximately $30 to $50 per test) plus $25 fee to administer the test.
⁺ The NET is NOT required for applicants to Rowan College's Nursing program. Rowan College is a NET testing site for other Nursing programs.
** County borrowers from communities not participating in the GOLD System.
× These course fees are in accordance with programs listed in the Academic Catalog.

(Reference Board Policy 6011)
PAYMENT POLICY

Tuition and fees are payable at the time of registration, or by the payment deadline if the student is enrolled prior to open registration. It is the student’s responsibility to make any arrangements for alternate payment solutions, such as a payment plan, financial aid, scholarships, student loans or a third party payment arrangement.

A student is expected to meet or to make arrangements to meet all financial obligations as they occur at the College. Any student with outstanding financial obligations to the College will not be permitted to register for courses, receive transcripts or a diploma, or have transcripts sent on his/her behalf until any financial obligation is satisfied. The College also reserves the right to cancel previously-registered courses of students who do not meet the payment deadline.

Please note that non-refundable tuition deposits, e.g. Nursing and Health Professions and Rowan Choice, will be maintained by the College under the student’s account until the end of the academic year in which the deposit was required, after which a new, non-refundable tuition deposit will be required.

While the College will exhaust all means to collect on unpaid student accounts prior to the use of collection agencies, attorneys and/or credit bureau reporting, the College reserves the right to take legal action to collect payments that are owed.

Understanding that there are circumstances where balances cannot be collected, the College will have the ability to write off in full any account that has had an account balance for at least three years and is deemed uncollectible.

Any exceptions to this policy must be approved by the President or his/her designee.

(Reference Board policy and Administrative procedure 6022)

PAYMENT OPTIONS

RCSJ offers many ways to make financing one’s college career convenient and attainable. Payments can be made in person, online or over the phone.

There is a payment plan available for the fall, spring and summer semesters. A non-refundable $40 fee is due at the time of enrollment along with the first payment. All payments must be made electronically through a credit card, debit card, checking account or savings account. There is no monthly billing.

Payment plan students who drop classes or withdraw are not exempt from the normal refund calculation. Considering the timing of the drop and payments received, a balance may still be due.

For more information on payment options, please visit RCSJ.edu/BusinessOffice.

- INSTRUCTOR AND ROOM ASSIGNMENTS are subject to change. Rowan College reserves the right to cancel a scheduled class when registration is insufficient. Students should review their schedules the day prior to term start for any changes.
Internship Career Connections

The Internship Career Connections Program at Rowan College of South Jersey exists because of the partnership between RCSJ and the Business community. This unique, hands-on career awareness and exploration experience enhances the academic portion of a student's degree. The Internship Career Connections Program requires a student to take a 3-credit course, which provides academic instruction and preparation and includes 150 hours of work experience on the job with a participating employer. Selection for participation in the program is a competitive process; therefore, students should register for the experience only after they have been selected.

The Internship Career Connections program enables students to:
- Earn three college credits while working in a job related to their career or educational goals
- Acquire experience in their career prior to graduation
- Enhance their potential to advance within their career
- Position themselves for future career opportunities with participating employers

The Internship Career Connections program enables employers to:
- Partner with Rowan College to implement a workforce development program that will speak to their human resource needs
- Develop a pool of highly skilled, well-trained applicants for future job openings
- Hire highly-motivated students whose career objectives are directly related to the job

To qualify for the program students must:
- Complete at least 24 credits
- Earn a minimum of a 2.000 cumulative grade point average (GPA)
- Be available to work a minimum of 10 hours per week
- Complete an application by the posted due dates and register for the 3-credit course when selected
- Be 18 years of age or older
- Please note that selection for the Internship Career Connections Program is a competitive process. Application does not guarantee a position in the program.

Application Procedures
Applications for students and employers may be found on the RCSJ website at RCSJ.edu/ICC, at the Internship Career Connections Program Office, located on the Gloucester Campus, College Center 212 (856-415-2168), or by request by emailing icc@rcsj.edu.
Prior Learning Assessment

Where Experience and What YOU Know Earn College Credit

Save time and money by applying your prior learning towards a college degree. RCSJ offers more than 100 degree and certificate programs.

Earn college credit for

Non-credit coursework | Hands-on work knowledge
Corporative experience | Military training

“It was always a thought in my mind — a dream — that one day I’d be able to go to college and earn my degree. The fact that I’m doing it now, well, I kind of pinch myself sometimes. I have a goal that I’m working towards and RCSJ is making it possible.”

Brian Britton, 2022 RCSJ graduate, Surveying Engineering Technologies

For more information, contact
Danielle Zimecki-Fennimore, Ed.D.
dzimecki@rcsj.edu.
EXPLORE YOUR LEARNING ALTERNATIVES

Many of today's learners use a variety of methods to meet their educational objectives. eLearning, also called distance learning, provides an alternative to traditional classroom instruction by offering convenient educational opportunities without the normal constraints of time or place. eLearning courses are part of the College's regular course offerings and are fully equivalent to courses taught on campus. eLearning courses may be applied to a RCSJ degree or certificate or taken as electives for general interest or for professional development.

RCSJ offers several types of eLearning opportunities, including online, live online, hybrid and web-enhanced courses. Students in any type of eLearning course must have easy, frequent access to a computer with broadband internet access.

Online Courses — Online courses are held entirely online and students will never meet in a physical classroom. Students are required to complete all course work, including tests and exams, online.

Live Online — Live Online courses will never meet on campus but have regularly scheduled class times during which students and their instructor will meet in real-time via Zoom and students are provided with multiple options for class participation.

Hybrid Courses — In Hybrid courses, 50–75% of all class meetings are held on the RCSJ campus, while the remaining class meetings and course work is conducted online. Students will be required to complete no more than 50% of the course work online.

Web-Enhanced Courses — Web-enhanced courses are the most common type of course at RCSJ, and are very similar to traditional, face-to-face courses. Web-enhanced courses meet on campus and utilize eLearning for up to 25% of the course work.

For more information about these programs, contact the respective Academic Division.

Successful eLearning students are highly motivated, independent, and have strong reading and writing skills. To learn if this option is right for you, please call 856-415-2298, email us at eLearning@rcsj.edu or visit RCSJ.edu/eLearning and click on “Is eLearning Right for You?”

COMPUTERS ON CAMPUS

Resources to Enhance Your Education

The College is committed to providing open access to cutting-edge technology through well-equipped computer facilities, including research databases and software applications. RCSJ has a high-speed Internet connection, and computers are linked in a local area network. Each lab is geared to accommodate varying needs of students, such as:

| Homework Assignments | • Open Computer Labs in Library
| Academic Support Center in the Learning Commons (LC) |
| Internet Access | • Open Computer Labs in Library
| • LC |
| Placement/Makeup Testing | • LC
| • Academic Testing Center |
| Internship and Career Planning | • College Center, second floor Room 212 |
| eLearning/Distance Education | • Open Computer Labs in Library
| • LC |
| Report Writing | • Open Computer Labs in Library
| • LC |
| Research | • Library |
| Academic Support Center | • LC (Room 603) |
| Computer Graphic Arts | • Open Computer Labs in Library |

Continual upgrades are made to keep RCSJ’s campus current with new technologies. Users should check the campus technology website at RCSJ.edu/gc/TechSupport to see what new services and software are available.
Programs of Study

Associate in Arts Degree, Associate in Science Degree — Transfer Programs

The Associate in Arts (A.A.) and Associate in Science (A.S.) degrees are similar to the first two years of academic work at four-year colleges and universities. These degree programs are transfer-oriented and may directly assist students who subsequently choose to pursue a baccalaureate degree at a four-year institution. Generally associate degree programs require 60–66 semester hours of credit.

In selecting a program and corresponding courses, students should check requirements of the college or university that they intend to transfer to be sure the courses and credits will be accepted toward an advanced degree. All students should consult with advisors during their early semesters at the College to discuss occupational or transfer plans.

ASSOCIATE IN ARTS DEGREE (A.A.)
The Associate in Arts (A.A.) degree nomenclature is appropriate for programs in the liberal arts, humanities, social sciences or fine and performing arts; such programs are transfer-oriented. For A.A. degrees, general education courses should total no fewer than 45 semester credit hours or the equivalent.

ASSOCIATE IN SCIENCE DEGREE (A.S.)
The Associate in Science (A.S.) degree nomenclature is appropriate for programs in mathematics, sciences, business or in allied health fields if the program is intended as pre-baccalaureate work; such programs are transfer-oriented. General education courses for the A.S. degree should total no fewer than 30 semester credit hours or the equivalent.

ASSOCIATE IN APPLIED SCIENCE (A.A.S.)
The Associate in Applied Science (A.A.S.) degree nomenclature is appropriate for programs that emphasize career preparation in the applied arts and sciences, typically at the technical or semiprofessional level. Such programs are designed to prepare students for job entry at completion of the program, notwithstanding any articulation agreements with four-year programs that may be in effect for a particular A.A.S. program. General education courses shall total no fewer than 20 semester credit hours or the equivalent.

Certificates

CERTIFICATE PROGRAMS (CERT)
Certificate programs offer students a concentration of courses generally extracted from parallel degree programs. These concentrated programs give students knowledge and skills needed for employment in related fields. Certificate programs typically require a maximum of 36 semester hours of instruction.

CERTIFICATE OF ACHIEVEMENT PROGRAMS (COA)
Certificates of Achievement are concentrated programs offered in specialized skill areas. They are designed for professionals who seek to develop or enhance workplace skills. Certificates of Achievement total between 12-29 credits.

Degree Requirements

In order to graduate from RCSJ with an associate degree, a student must:

1. Earn a GPA of 2.000 or higher;
2. Complete all courses required for his/her major; and
3. Earn at least 24 credits from courses taken at RCSJ.

Each student is ultimately responsible for completing all of the requirements satisfactorily. Students must also complete a graduation petition from available in the Advisement Office.

Alcohol and Drug Counseling, CERT

BEHAVIORAL SCIENCES AND LAW & SOCIAL JUSTICE DIVISION

Certificate Program
In today's society there is a growing vital need for compassionate counselors specializing in the field of alcohol and drugs. This program enhances the student's natural ability to interact with others, and that capacity is refined into a valuable skill with rewarding professional opportunities. Students will receive the practical and theoretical education necessary for success professionally or at a four-year college. The New Jersey Department of Labor Workforce Development, Labor Market Demand Occupation list on Substance Abuse Counseling indicates a growing employment demand in the field of alcohol and drug counseling. The future trend indicates an increase in this field of counseling.

Program Learning Outcomes
Students who complete the program will be able to:
• Identify and analyze the chronic effects of abuses and addiction associated with alcohol and drugs.
• Describe the principles of accepted practices for alcohol and drug awareness counseling.
• Illustrate preventive methods and interventions for alcohol and drug addictions.
• Discuss the role of the counselor for alcohol and drug counseling.
• Locate, retrieve and critically evaluate information and information sources related to the profession.

FIRST YEAR — Fall Semester

- PSY 206 Psychopharmacology 3
- SOC 241 Human Behavior in the Social Environment II 3
- SOC 222 Alcohol & Drug Field Work 3

12

TOTAL MINIMUM CREDITS: 30

Program Notes
Fieldwork I is designed to give the student a veridical understanding of alcohol and drug practice. Students volunteer at various local drug and alcohol agencies*. The focus is on addiction as a disease as well as environmental contributions to the addiction. The effects on the individual and family will be covered in addition to other support systems for those affected by addictions. A LCADC (License Certified Alcohol and Drug Counselor) at the agency directs and monitors the students’ activities 90 hours during the semester.
• 90 hours of field experience required.
Arts and Sciences: Pre-Law Option, A.A.

[AA-ASC-LAW; CIP Code 24.0101]

**Associate in Arts (A.A.) — Transfer**

This program provides the general education foundation necessary for students who are planning to transfer to a baccalaureate degree program. Using available elective credits, students will focus on legal systems as a specific field of study.

**Program Learning Outcomes**

Students who have completed the program will be able to:
- Communicate effectively in writing and orally
- Demonstrate an understanding of various scientific, artistic, social and historical ideas and perspectives
- Analyze information and use critical thinking to make decisions and solve problems
- Demonstrate a basic understanding of legal principles and systems

Criminal Justice, A.S.

This is a 3+1 option program with Rowan University.

[AS-CRJ; CIP Code 43.0103]

Associate in Science (A.S.) — Transfer

This program provides an excellent foundation for transfer to four-year colleges and universities. The program is structured to provide the student with exploratory academic experiences in criminal justice.

Program Learning Outcomes

Students who have completed the program will be able to:

- Describe the criminal justice system
- Explain crime and criminological theories
- Explain crime sources, trends and outcomes
- Articulate criminological theories
- Demonstrate current methods used for evidence collection and analysis

Graduates of Gloucester County Police Academy may be eligible for 13 college credits toward this degree.

FIRST YEAR — Fall Semester

- ENG 101 English Composition I 3
- MAT 101 Concepts of Mathematics 3
- PSY 101 General Psychology 3

TOTAL MINIMUM CREDITS: 66

Program Notes
Internship – This Program includes a practicum (internship) of 210 hours served under the supervision of a practicing attorney, designed to provide training to reinforce concepts and practical skills learned in the classroom.

Transfer Credit for Legal Specialty Courses is limited to a maximum of five, 3-credit courses completed at another ABA-approved institution. Prior to acceptance of these transfer credits, a course description comparison and syllabus evaluation is made by the Program Coordinator to assure that the courses are comparable. If comparability is found, a recommendation is made to the Dean of Law and Justice for approval. Any legal Specialty (PLG) course taken prior to ABA approval (August 1998) must be taken again to qualify for the issuance of a Paralegal Program degree or certificate.

1 POL 101 American Federal Government or POL 103 Introduction to Political Science may be substituted
2 PLG electives include: PLG 110 Contemporary Issues in Paralegal Studies; PLG 203 Bankruptcy; PLG 207 Family/Domestic Law; PLG 210 Property Transactions
3 SPE 101 Oral Communications recommended
Certificate Program

The goal of this certificate program is to provide students, who already have earned bachelor's or associate degrees (which include a minimum of 18 hours of general education credits), with the skills necessary to begin a career as a paralegal. In addition to requiring a computer course, the program includes a practicum (internship) of 210 hours served under the supervision of a practicing attorney, designed to provide training to reinforce concepts and practical skills learned in the classroom. Paralegals may not practice law. They may not provide legal services directly to the public except as permitted by law.

Program Learning Outcomes

Students who have completed the program will be able to:

- Recognize ethical issues that arise in a legal work environment and apply rules of professional conduct to resolve them
- Apply specialized legal training to enable them to gather and analyze facts relevant to legal disputes
- Demonstrate oral and written skills, including drafting legal documents for attorney review
- Apply basic principles of legal research and analysis
- Utilize time-management skills, including prioritizing various tasks, in order to meet deadlines
- Demonstrate sensitivity through adaptability and flexibility in working with a diverse group of people
- Utilize computer systems and other appropriate forms of technology for legal research and to enhance paralegal skills

Program Notes

Internship — This Program includes a practicum (internship) of 210 hours served under the supervision of a practicing attorney, designed to provide training to reinforce concepts and practical skills learned in the classroom.

Transfer Credit for Legal Specialty Courses is limited to a maximum of five, 3-credit courses completed at another ABA-approved institution. Prior to acceptance of these transfer credits, a course description comparison and syllabus evaluation is made by the Program Coordinator to assure that the courses are comparable. If comparability is found, a recommendation is made to the Dean of Law and Justice for approval.

1 PLG electives include:

- PLG 104 Torts
- PLG 110 Contemporary Issues in Paralegal Studies
- PLG 203 Bankruptcy
- PLG 205 Wills, Trusts and Estate Planning
- PLG 207 Family/Domestic Law
- PLG 210 Property Transactions

TOTAL CREDITS: 34

Business Administration, A.S.

This is a 3+1 option program with Rowan University.

[AS-BUS; CIP Code 52.0201]

Associate in Science (A.S.) — Transfer

The Business Administration program gives students a broad introduction to business while preparing them for transfer to a four-year institution. The curriculum meets the requirements of the first two years of study at most colleges and universities. This program has additional globally recognized accreditation through the Accreditation Council for Business Schools and Programs (ACBSP).

Program Learning Outcomes

Students who have completed the program will be able to:

- Apply and integrate functional business knowledge to interpret financial information and other business related situations
- Utilize technology to capture, analyze and communicate information that supports business processes and decision-making
- Explain economic, legal and social frameworks in which business operates
- Analyze ethical conduct and diversity in a global business environment

1 3+1 students should take PSY101. If transferring to Rowan University, choose PSY 101 or SOC 201. If transferring to Rutgers–Camden, choose BUS 106.

2 3+1 students and those planning to major in Management Information Systems at Rowan should choose CIS 110.

Are you ready to get started at RCSJ? Visit RCSJ.edu/Enroll and complete the interest form.

Offered Online

This program is also offered fully online. Participants in this program will be enrolled as a cohort to encourage support and collaboration. This means that all students in the cohort will be scheduled together in 5- or 7-week courses for the duration of the program. Typically, students will take two courses within each 7-week block. In an average semester, all students will have completed at least 12 credits. Courses in the Fall and Spring Semester will be taught in 7-week blocks. Courses in the Winter and Summer Semesters will be taught in 5-week blocks.
After completing the Business Administration A. S., students may choose to continue with the bachelor’s degree pathway at RCSJ.

The 3+1 pathway enables students to complete three years of coursework at RCSJ and one year at Rowan University to earn a bachelor’s degree. The 3+1 pathway follows Rowan’s course curriculum, with junior year classes taught by RCSJ advanced-degree faculty.

After completing the Computer Information Systems, A.S., students may choose to continue with the bachelor’s degree pathway at RCSJ.

The 3+1 pathway enables students to complete three years of coursework at RCSJ and one year at Rowan University to earn a bachelor’s degree. The 3+1 pathway follows Rowan’s course curriculum, with junior year classes taught by RCSJ advanced-degree faculty.

Data Analytics 3+

THIRD YEAR — Fall Semester
- CSC 106 Introduction to Data Science 3
- CIS 300 Applied Database Technologies 3
- CSC 205 Programming in C++ 4
- ___ ___ Elective Artistic Literacy 3
- CIS 200 Principles of Information Security 3

Spring Semester
- SPE 101 Oral Communications 2
- CSC 225 Programming in R 2
- MAT 203 Statistics II 3
- ___ ___ Elective Global Literacy 3
- DATA 301 Research Methods & Ethical Issues in Data Analysis 3

FOURTH YEAR — After completing the third year at RCSJ, students will seamlessly transfer to Rowan University for their senior year. 3+1 team members at both institutions work closely with students to guide them through the process.

Digital Marketing, A.A.S.

[Associate in Applied Science (A.A.S.) — Career]

The goal of this career program is to provide the basic knowledge and skills necessary for success in the fields of marketing in our digital world. This program prepares students with tools to develop and implement contemporary marketing initiatives within any type of organization. This program has additional globally recognized accreditation through the Accreditation Council for Business Schools and Programs (ACBSP).

Program Learning Outcomes

Students who have completed the program will be able to:

- Understand, apply and integrate digital marketing strategies
- Communicate effectively and professionally with a variety of audiences
- Utilize technology to capture, present and analyze information that supports general business, and especially marketing, processes

Human Resource Management, A.S.

[AS-HRM; CIP Code 52.1005]

**Associate in Science (A.S.) – Transfer**

The goal of this program is to provide students with a broad introduction to human resources and the business context within which the function will operate, while preparing them for transfer to a four-year institution. The curriculum meets the requirements of the first two years of study for many colleges and universities. This program has additional globally recognized accreditation through the Accreditation Council for Business Schools and Programs (ACBSP).

**Program Learning Outcomes**

Students who have completed the program will be able to:
- Identify human behavior and how organizations can develop a culture built on the principles of cooperation, support and respect
- Utilize technology to capture, analyze and communicate information that supports business processes and decision-making
- Evaluate corporate responsibility, the implications of managers’ and employees’ actions and laws that apply to people and organizations
- Analyze how organizations can better adapt to their external environments by applying different methods to influence change

Automotive Technology, A.A.S.

[AAS-AUT; CIP Code 470604]

Associate in Applied Science (A.A.S.) — Career

The goal of this program is to provide graduates with theory and practice through classroom study and internships, to qualify for immediate employment in the automotive industry or to transfer to a four-year automotive management program.

Program Learning Outcomes

Students who have completed the program will be able to:

- Safely and competently work in an automotive repair facility
- Understand all eight ASE areas of automotive technology regardless of manufacturer. These systems include but are not limited to: electrical, brakes, steering, power-train controls and automatic transmissions
- Diagnose and fix all major automotive systems
- Demonstrate social skills and a high level of professionalism

Special Program Admission Information

Students must be accepted into the program prior to registering for any AUT courses. Please contact the Office of Admissions for an Admission Packet.

Program Notes

The Automotive Technology Educational Training Program, is a cooperative agreement between the College and the Gloucester County Institute of Technology. Automotive Technology is a full-time, two-year curriculum composed of five, 20-week semesters. Alternating 10-week sessions of classroom instruction and paid dealership internships provide theory and practice that is necessary for a career in the automotive industry. Visit gloucesterasset.com for program and Internship Career Connections information and pct.edu for transfer information.

1 A 10-week internship with a dealership is required as a prerequisite to the subsequent semester.

Automotive Technology is a selective admission program with a customized admission schedule which accommodates alternating 10-week semesters and Internship Career Connections.
Process Technology, A.A.S.

[Associate in Applied Science (A.A.S.) – Career]

The Process Technology program is designed for students interested in a career working in industrial processing plants. Graduates of this program will be prepared for employment in the pharmaceutical, chemical and petroleum processing industries. The program curriculum will provide students exposure to a scientific background emphasizing hands-on work and critical thinking skills and opportunities for internships throughout the region.

Program Learning Outcomes

Students who have completed this program will be able to:

• Effectively communicate technical concepts in both written and oral form
• Identify process technology systems and troubleshoot abnormal processes
• Operate processing equipment effectively and safely

  9–10

Spring Semester
- Technical elective* 3–4
- Total Minimum Credits: 60

** Technical electives may be selected from any of the following areas: Business Studies - BUS; Computer Information Systems - CIS; Computer Graphic Arts - CGA; Computer Science - CSC; Civil Engineering Technology - CET; Drafting and Design - OFT; Engineering Science - ENR; Surveying Engineering Technologies **

** Technical Credits - College credit will be awarded for military or apprenticeship training programs in the building and construction trades, based upon the American Council on Education (ACE) review and evaluation of the program and their recommendations for awarding academic credit for successful completion of those programs. These credits will be placed on the students’ transcripts when documentation of satisfactory completion is presented by an official of the apprenticeship program and after the student matriculates into a degree program, and has completed 24 credits of course work at Rowan College of South Jersey. College credits for specialized certifications obtained in a corporate or industrial setting may also be awarded, based on the credentials obtained and the documentation provided. From 3 to 24 credits may be awarded, based on the ACE review and the recommendations provided by Student Services. Students with less than 24 credits may select credits from the Technical electives listed above.

[CER-WIND; CIP Code 150699]  

Certificate  
This program will provide students thorough knowledge and understanding of fluid hydraulic systems; electrical machinery; mechanical operations; computer and information technology skills; wind turbine operation, maintenance, installation and assembly; and safety, through a combination of classroom and/or online lecture and hands-on laboratory learning modules.

Program Learning Outcomes  
Students who have completed this program will be able to:  
• Understand the fundamental principles of wind turbine operation and apply these principles to wind turbine design, installation, repair, design, and maintenance.  
• Recognize operation, design, and maintenance issues for wind turbine installation, maintenance, and repair.  
• Utilize critical thinking to problem solve in wind turbine installation, maintenance, and repair.

avinci@rcsj.edu

Associate in Arts (A.A.) — Transfer
This program provides the general education foundation necessary for students who are planning to transfer to complete a baccalaureate degree. Using available elective credits, students will focus on Communications as a specific field of study. This degree can also be completed fully online.

Program Learning Outcomes
Students who have completed the program will be able to:
- Communicate effectively in writing and orally
- Demonstrate an understanding of various scientific, artistic, social and historical ideas and perspectives
- Analyze information and use critical thinking to make decisions and solve problems
- Demonstrate a basic proficiency in creative writing, journalism or media

RCSJ.edu/Enroll

After completing the Business Administration A.S., students may choose to continue with the bachelor’s degree pathway at RCSJ.

The 3+1 pathway enables students to complete three years of coursework at RCSJ and one year at Rowan University to earn a bachelor’s degree. The 3+1 pathway follows Rowan’s course curriculum, with junior year classes taught by RCSJ advanced-degree faculty.

### Applied Professional Communications 3+1

#### THIRD YEAR — Fall Semester
- COM 305 Writing, Research and Technology 3
- COM 324 Introduction to New Media 3
- Literature or Writing Elective 3
- Free Elective 3
- Free Elective 3

#### Spring Semester
- COM 300 Publication, Layout and Design 3
- COM 334 Digital Media Techniques 3
- CGA 120 Introduction to Electronic Publishing and Technology or Free Elective 3
- Free Elective 3
- Free Elective 3

### Suggested Year 3 Electives
BUS 224, BUS 221, BUS 225, PHI 150, SOC 130, COM 115, SOC 104, 3 credits in any language: ITA, SPA, GER, ASL

#### FOURTH YEAR — After completing the third year at RCSJ, students will seamlessly transfer to Rowan University for their senior year. 3+1 team members at both institutions work closely with students to guide them through the process.

Questions?

About 3+1: Alescia Kennon, akennon1@rcsj.edu

About the program.
David Coates, dcoates@rcsj.edu
Division of Education & Humanities

Prepare to make an impact on future generations with analytical prowess, societal knowledge and a well-rounded education supported by critical thinking and problem-solving skills.

RCSJ.edu/Education

Choose from 4 academic delivery styles:

- In-Person
- Live Online
- Hybrid
- Traditional Online

Find Your Program

From History to Philosophy, Literature to Language, Early Childhood Education to a Professorial pathway — Rowan College of South Jersey offers the perfect blend of classroom instruction and hands-on experience that will prepare you to educate others. The Division of Education & Humanities is home to Teachers 2000 cohort program, which provides an immersive and supportive learning community.

Find Your Opportunity

RCSJ’s Division of Education & Humanities provides access to one-of-a-kind degree and certificate programs, internship experiences and personalized advisement to prepare students for meaningful careers in education and the humanities. Whether you attend classes on the Cumberland campus, the Gloucester campus or online, you are guaranteed a quality education at one of the lowest tuition rates in New Jersey.

Isabella Mevoli, Inclusive Education
EDUCATION AND HUMANITIES DIVISION

Arts and Sciences, A.A.

Associate in Arts (A.A.) — Transfer

This program provides the general education foundation necessary for a variety of disciplines and is designed for students who are planning to transfer to complete a baccalaureate degree. Using available elective credits, students may focus on a specific field of study or explore a variety of academic areas. This degree can also be completed fully online.

Program Learning Outcomes

Students who have completed the program will be able to:

- Communicate effectively in writing and orally
- Demonstrate an understanding of various scientific, artistic, social and historical ideas and perspectives
- Analyze information and use critical thinking to make decisions and solve problems

4. Students intending to transfer to Rowan University should take ENG 103
5. Students intending to transfer to Rowan University should take MAT 120 and MAT 121
6. Students who intend to continue in the RCSJ 3+1 Inclusive Education Program or transfer to Rowan University as an Inclusive Education major should register for EDU 220. If students intend to transfer to Rowan University into either Elementary Education or Early Childhood Education programs, they should register for both EDU 215 & 216.
7. Students transferring to Rowan University Inclusive, Elementary, Early Childhood Education, or follow the 3+1 MUST take PSY 213.

---

**Program Learning Outcomes**
Students who have completed the program will be able to:
- Communicate effectively in writing and orally
- Demonstrate an understanding of various scientific, artistic, social and historical ideas and perspectives
- Analyze information and use critical thinking to make decisions and solve problems
- Demonstrate a basic understanding of educational systems and theories and the teaching profession

**Program Contact**
Kevin Kitchenman, Assistant Dean Education and Humanities

Are you ready to get started at RCSJ? Visit [RCSJ.edu/Enroll](http://RCSJ.edu/Enroll) and complete the interest form.
After completing the Education A.S., students may choose to continue with the bachelor’s degree pathway at RCSJ.

The 3+1 pathway enables students to complete three years of coursework at RCSJ and one year at Rowan University to earn a bachelor’s degree. The 3+1 pathway follows Rowan’s course curriculum, with junior year classes taught by RCSJ advanced-degree faculty.

### Inclusive Education 3+1

#### THIRD YEAR – Fall Semester
- EDU 301 Literacy Pedagogy I 3
- EDU 320 Clinical Experience I in Inclusive Education 1
- EDU 315 Working with Families & Communities 3
- EDU 310 Differentiating Instruction in the Inclusive Classroom 2
- EDU 330 Trauma Informed Instruction 3
- EDU 305 Current Policy & Practice in ESL & Bilingual Edu 3

Total: 15 credits

#### Spring Semester
- EDU 318 Positive Behavior Support Systems 3
- EDU 327 Clinical Experience II in Inclusive Education 1
- EDU 335 Social Studies Methods for the Inclusive Classroom 3
- EDU 323 Assessment in Special & Inclusive Education 3
- EDU 340 Science Inquiry & Methods for the Inclusive Classroom 3
- EDU 302 Literacy Pedagogy II 2
- EDU 345 Mathematics Strategies for the Inclusive Classroom 2

Total: 17 credits

#### FOURTH YEAR — After completing the third year at RCSJ, students will seamlessly transfer to Rowan University for their senior year. 3+1 team members at both institutions work closely with students to guide them through the process.

### Industry & Employment Opportunities

**Bachelor’s**
- Elementary School Teacher, Special Education Teacher, Secondary Teacher

**Master’s**
- College Professor, Principal, Childcare Administrator

**Health, Physical Education and Recreation (HPER), A.S.**

[AS-HPE; CIP Code 13.1314]

**Associate in Science (A.S.) – Transfer**

The goal of this program is to provide the first two years of a Health, Physical Education & Recreation baccalaureate degree program for students who wish to transfer to a four-year institution as a Health, Physical Education & Recreation major.

**First Year – Fall Semester**

- ENG 101 English Composition I 3
- MAT 101 Concepts of Mathematics 3
- PSY 101 General Psychology 3
- HPE 136 Nutrition 3
- HPE 214 Principles of Health and Physical Education 3

**First Year – Spring Semester**

- ENG 102 English Composition II 3
- ___ Lab Science Elective (CHM/BIO/PHY) 4
- SPE 101 Oral Communications 3
- HPE 211 Consumer Health Decisions 3
- HPE 252 Foundations of Fitness 3

**Second Year – Fall Semester**

- BIO 105 Anatomy and Physiology I or BIO 106 Anatomy and Physiology II 4
- EDU 205 History of American Education 3
- PSY 203 Educational Psychology 3
- ART 101 Art Appreciation or MUS 101 Music Appreciation 3
- HPE 233 Safety, First Aid, and Prevention of Athletic Injuries 3

**Second Year – Spring Semester**

- GEO 102 Cultural Geography 3
- PSY 212 Adolescent Psychology 3
- HPE 245 Motor Development and Motor Learning 3
- HPE 257 Pedagogy & Instructional Practices in Health & Physical Education 3
- HPE ___ elective 1-3

**TOTAL MINIMUM CREDITS: 60**

**Program Notes**

1 Chemistry, Biology or Physics recommended

Program Contact

Rob Valli, Instructor
rvalli@rcsj.edu

**Program Learning Outcomes**

Students who have completed the program will be able to:

- Demonstrate an understanding of pedagogy and core educational practices of physical education teachers.
- Demonstrate an understanding of pedagogy and core educational practices of health education professionals.
- Demonstrate a foundation of knowledge required to promote fitness, health, and recreational activities to sustain lifelong wellness.
- Analyze, evaluate and provide basic care in emergency situations.

**Program Notes**

HPE 205 Technology in Health & Physical Education is recommended for transfer to Rowan University.
Neurodiversity and Inclusion, COA

[COA-CADP; CIP Code 090702]
Certificate of Achievement
This certificate program is designed to provide foundational knowledge and skills to paraprofessionals and instructional aids who are currently employed in school districts and working with neurodiverse student populations.

Division of Nursing & Health Professions

Prepare to provide compassionate care as a licensed healthcare professional with an education focused on scholarly assessment, clinical judgement and patient needs.

RCSJ.edu/Nursing

Shane McDonald, Nursing

Choose from 4 academic delivery styles:  

- In-Person
- Live Online
- Hybrid
- Traditional Online

Find Your Program

From Nursing to Nutrition, Physical Therapy to Radiography, Sonography to Exercise Science — Rowan College of South Jersey offers the perfect blend of classroom instruction and hands-on clinical experience, preparing you to provide skilled and sympathetic patient care. The Division of Nursing & Health Professions offers exclusive benefits through its premier partnership with Inspira Health Network, along with the only Physical Therapist Assistant program in South Jersey.

Find Your Opportunity

RCSJ’s Division of Nursing & Health Professions provides access to one-of-a-kind degree and certificate programs, clinical experiences and personalized advisement to prepare students for in-demand careers in healthcare. Whether you attend classes on the Cumberland campus, the Gloucester campus or online, you are guaranteed a quality education at one of the lowest tuition rates in New Jersey.
[COA-CACC; CIP Code 510801]  
Certificate of Achievement  
The CCMA certificate program at RCSJ provides the requisite training for entry-level postsecondary medical assistant students through classroom, laboratory and supervised clinical instruction and practice. CCMA program graduates receive a Certificate of Achievement upon completion of all program components. Students in good academic standing are eligible to take the national credentialing exam at the completion of all program requirements.  
For more information visit RCSJ.edu/gc/CCMA.  
Please note:  
Beginning in fall of 2020, the CCMA program has a revised curriculum. Students may apply through the selective admission process located on the College web site. The program will require 29 credits and can be completed in two semesters. The program is eligible for Financial Aid for those who qualify. Additional information about the selective admissions process can be found at RCSJ.edu/gc/SelectiveAdmissions.  

Program Contact  
Samantha Wagner, Director of Selective Entry Programs, swagne12@rcsj.edu

Certified Clinical Medical Assistant (CCMA), COA

First Semester
- CMA 101 Foundations in Medical Assisting 3  
- CMA 107 Medical Assistants in Practice Lab I 1  
- CMA 103 Structure of the Human Body I 2  
- ALH 140 Biomedical Ethics 3  
- NTR 101 Nutrition for Healthcare Providers 3  
- HPE 105 Healthcare Provider Emergency Response with BLS Certification 1

Second Semester
Part A: Ten weeks
- CMA 104 Structure of the Human Body II 2  
- CMA 108 Medical Assistants in Practice Lab II 1  
- CMA 110 Pharmacology in Medical Assisting 1  
- CMA 114 Medical Assisting Front Office Procedures 2  
- CMA 118 Fundamentals of ECG/EKG 3  
- CMA 125 Fundamentals of Phlebotomy 3

Part B: Five weeks
- CMA 120 ECG/EKG Clinical 1  
- CMA 128 Phlebotomy Clinical 1  
- CMA 131 CCMA Capstone Experience 2

- DMS 210 OB/GYN Sonography II 3
- HPE ___ Health and Physical Education elective 1 13

Summer Semester
- DMS 221 Seminars in Ultrasound 1
- DMS 208 Small Parts Scanning 1
- DMS 205 Clinical Practicum III 1 3

Total Credits: 66

Program Notes
* Refer to the course description section of this catalog for prerequisite/co-requisite course requirements.

Special Program Admission Requirements
Diagnostic Medical Sonography is a selective admission program. Students must be accepted to the program prior to registering for any DMS courses. Please contact the Enrollment Services office for an admission packet.

Clinical agencies require criminal history background checks (CHBC) for all individuals engaged in patient care. All students must undergo a CHBC upon acceptance into the DMS Program. CHBC results are sent to the clinical agencies, who have the sole discretion to decide if the student may engage in patient care at the agency. If a student is denied the opportunity to participate in the clinical agency as a result of the findings of the CHBC, the student will be dismissed from the DMS Program.

A minimum grade of "C" is required in all DMS, BIO, ALH, and PHY courses. Students must maintain a Cumulative Grade Point Average (GPA) of 2.0 to progress in the DMS program. *Refer to the course description section of this catalog for prerequisite/co-requisite course requirements.
Diagnostic Medical Sonography continued

Program Goals
The DMS program will:
- To prepare entry-level sonographers in the cognitive (knowledge), psychomotor (skills), and affective (behavior) learning domains for the abdominal sonography-extended and obstetrics and gynecology sonography concentrations.
- Utilize support services provided by the College to assist in overall course/program retention rate.
- Provide a curriculum designed to meet requirements of professional bodies.
- Prepare students to take the ARDMS examinations appropriate for a general concentration program.
- Track success of graduates in obtaining employment as sonographers upon successful completion of program.
- Survey graduates and employers within six months of graduation for input on DMS program strengths and areas for improvement.
- Track success of graduates in obtaining employment as sonographers upon successful completion of program.
- Evaluate the appropriateness of the curriculum against the changing environment and assess progress towards achieving its goal.

Places of Employment and Outlook
More than half of all sonographers are employed by hospitals and most of the remainder work in physicians' offices and clinics, including diagnostic imaging centers. There may not be enough openings for all graduates in the Tri-State Delaware Valley area, so some may need to leave the area to gain employment. Please consult the U.S. Occupational Information included in the Handbook for further information.

Graduate Outcomes
Graduates of the program will:
- Utilize professional communication skills when interacting and collaborating with members of the interdisciplinary health care team and clients.
- Evaluate normal and abnormal measurements using evidence-based outcome.
- Demonstrate critical thinking when assessing situations, solving problems, and making decisions.
- Implement holistic care with diverse individuals across the lifespan.
- Integrate legal and ethical concepts into the practice of sonography.
- Engage in professional development and lifelong learning.

To learn more about the program or attend an information session, please visit RCSJ.edu/gc/SelectiveAdmissions.
NURSING AND HEALTH PROFESSIONS DIVISION

Exercise Science, A.S.

This is a 3+1 option program with Rowan University.

[AS-EXS; CIP Code 31.0505]

Associate in Science (A.S.) — Transfer

This program is designed for those students who have selected a major field of concentration and yet want more flexibility in course selection. The program is designed to meet transfer requirements for students pursuing a Bachelor of Science degree. It is suggested, however, that students seek advisement in course selection from the institutions to which they intend to transfer.

Program Learning Outcomes

Students who have completed the program will be able to:

• Analyze and explain how the human body responds to various types of physical activities.
• Develop health and fitness programs for individuals with diverse health backgrounds and needs that involve proper demonstration and instruction of a variety of exercises.
• Demonstrate basic CPR and first aid techniques.
• Identify general nutritional needs of individuals and how nutrition impacts exercise and athletic performance.

Nuclear Medicine Technology (NMT), A.A.S.

**FIRST YEAR – Fall Semester**
- ENG 101 English Composition I  
- BIO 105 Anatomy and Physiology I  
- CHM 111 General Chemistry I  
- PSY 101 General Psychology  
  **Total Credits:** 14

**Spring Semester**
- ENG 102 English Composition II  
- BIO 106 Anatomy and Physiology II  
- PHY 103 General Physics  
- ALH 107 Cross Sectional Anatomy  
  **Total Credits:** 13

**Summer Session I (first 7 weeks)**
- NMT 106 Radiation Safety and Biology  
- NMT 107 Radiation Physics  
  **Total Credits:** 3

**Summer Session (second 7 weeks)**
- NMT 114 Clinical Imaging Procedures I  
- NMT 116 Basic Nuclear Medicine Procedures  
  **Total Credits:** 4

**SECOND YEAR – Fall Semester**
- NMT 205 Clinical Internship I  
- NMT 210 Clinical Imaging Procedures II  
- NMT 215 Radiopharmacy  
  **Total Credits:** 13

**Spring Semester**
- NMT 227 Clinical Internship II  
- NMT 230 Nuclear Instrumentation and Statistics  
- NMT 233 Clinical Imaging Procedures III  
  **Total Credits:** 13

**TOTAL CREDITS: 60**

Program Learning Objectives

Students who complete this program will be able to:

1. Work effectively as a member of a healthcare team by respecting diversity, communicating effectively, and providing patient care in a competent, ethical, and compassionate manner.

2. Demonstrate knowledge by applying entry level competencies of clinical imaging procedures, instrumentation, radiopharmacy and radiation safety and biology in the clinical environment.

3. Recognize and articulate the importance of continued personal and professional growth to enhanced quality of life and maintain high professional standards, in the field of Nuclear Medicine Technology.

In order to progress through the NMT program, all students must maintain a Cumulative Grade Point Average (GPA) of 2.00 or higher and earn a grade of C or higher in all program required courses. All science courses must have been completed within the 5-year period prior to the beginning of the first NMT course. Refer to course description section of this catalog for prerequisite/co-requisite course requirements.
Nuclear Medicine Technology (NMT), A.A.S., continued

Program Information

Nuclear Medicine Technology (NMT) is a selective admission program. Students must be accepted to the program prior to registering for any NMT courses. Please contact the Enrollment Services office for an admission packet.

Clinical agencies require criminal history background checks (CHBC) for all individuals engaged in patient care. All students must undergo a CHBC upon acceptance into the NMT program. CHBC results are sent to the clinical agencies, who have the sole discretion to decide if the student may engage in patient care at the agency. If a student is denied the opportunity to participate in the clinical agency as a result of the findings of the CHBC, the student will be dismissed from the NMT program.

Students must satisfactorily complete all 100-level NMT courses to progress to 200-level NMT courses. Students who do not meet prerequisite and co-requisite course requirements, and/or grade requirements will not be able to progress in the NMT program.

Students must complete the NMT program in three years from the start of the first NMT course.

Students who do not complete the program within three years must wait five years before reapplying to the NMT program. A minimum grade of "C" is required in all courses in the NMT program of study including General Education and Science courses.

Are you ready to get started at RCSJ? Visit RCSJ.edu/Enroll and complete the interest form.
Associate in Applied Science (A.A.S.) — Transfer

The program combines general education with nursing courses to prepare currently Licensed Practical Nurses (LPN) for entry-level Registered Nursing (RN) practice. Upon successful completion of the Nursing program, students are eligible to apply for state licensure and take the National Council Licensure Examination for Registered Nurses (NCLEX-RN). The Nursing program is approved by The New Jersey Board of Nursing and accredited by the Accreditation Commission for Education in Nursing (ACEN).

Program Learning Outcomes

Graduates of the Nursing program will:
- Apply principles of evidence-based practice to patient care
- Value interprofessional and community partnerships collaboration
- Demonstrate ethical and professional nursing practice

THE FOLLOWING COURSES MUST BE COMPLETED PRIOR TO STARTING THE LPN TO RN PROGRAM:

Winter Semester

- NURS 115 LPN to RN Track: 3 credits
- Upon completion of NURS 115, students will be awarded 4 credits for LPN license: 4 credits

Spring Semester

- ENG 102 English Composition II: 3 credits
- BIO 106 Anatomy and Physiology II: 4 credits
- NURS 120 Nursing II: 9 credits
- NURS 121 Nursing II Lab: 1 credit
| **Total**                                   | **17**  |

SECOND YEAR — Fall Semester

- BIO 215 Microbiology: 4 credits
- NURS 230 Nursing III: 8 credits
- NURS 231 Nursing III Lab: 1 credit
| **Total**                                   | **13**  |

Spring Semester

- NURS 240 Nursing IV: 7 credits
- NURS 245 Transition to Practice: 4 credits
- NURS 210 Nursing Global Issues and Trends: 2 credits
| **Total**                                   | **12**  |

**TOTAL CREDITS: 60**

Program Information

The American Nurses Association defines nursing as "both an art and a science, a heart, and a mind. At its heart, lies a fundamental respect for human dignity and an intuition for a patient's needs. This is supported by the mind, in the form of rigorous care learning. Due to the vast range of specialisms and complex skills in the nursing profession, each nurse will have specific strengths, passions, and expertise." (ANA, 2021).

Nursing also encompasses autonomous and collaborative care of individuals of all ages, families, groups and communities, sick or well, and in all settings. Nursing includes the promotion of health, prevention of illness and the care of ill, disabled and dying people. Advocacy, promotion of a safe environment, research, participation in shaping health policy and in patient and health systems management and education are also key nursing roles.

Employment Opportunities

According to the Bureau of Labor Statistics, "Employment of registered nurses is projected to grow 6 percent from 2021 to 2031 about as fast as the average for all occupations." (https://www.bls.gov/ooh/healthcare/registered-nurses.htm)
Nursing LPN-RN, A.A.S., continued

Special Admission Requirements

Nursing is a selective admission program. Students who may qualify for the program must have graduated from an accredited LPN program and hold a valid unencumbered LPN license. Students must be accepted to the program prior to registering for any NURS classes.

Please contact the Enrollment Services Office for an admission packet.

Clinical agencies require criminal history background checks (CHBC) for all individuals engaged in patient care. All students must undergo a CHBC upon acceptance into the Nursing Program. CHBC results are sent to the clinical agencies, who have the sole discretion to decide if the student may engage in patient care at the agency. If a student is denied the opportunity to participate in the clinical agency as a result of the findings of the CHBC, the student will be dismissed from the Nursing Program.

Students must satisfactorily complete all 100-level nursing courses to progress to 200-level courses. Students who do not meet prerequisite and co-requisite course requirements, and/or grade requirements will not be able to progress in the Nursing program.

Students must complete the Nursing program in three years from the start of the first Nursing course.

Students who do not complete the program within three years must wait five years before reapplying to the Nursing program.

A minimum grade of “C+” is required in all courses in the Nursing Program of Study including General Education and Science courses.

Highlights

Since 2000, the NCLEX-RN pass rate has been greater than 90 percent. To learn more about the program or attend an information session, please visit RCSJ.edu/gc/SelectiveAdmissions.
Are you ready to get started at RCSJ? Visit RCSJ.edu/Enroll and complete the interest form.

The 3+1 pathway enables students to complete three years of coursework at RCSJ and one year at Rowan University to earn a bachelor’s degree. The 3+1 pathway follows Rowan’s course curriculum, with junior year classes taught by RCSJ advanced-degree faculty.

Nursing 3+1

THIRD YEAR — Fall Semester
- Fine Arts Elective 3
- SPE 101 Oral Communication 3
- NUR 303 Comprehensive Health Assessment 3
- Broad-based Literature 3
- General Elective Option 3

Spring Semester
- NUR 305 Nursing Informatics 3
- NUR 308 Topics in Healthcare Ethics 3
- Humanities/History/Language 3
- MAT 103 Statistics 3
- Free Elective 3

15

FOURTH YEAR — After completing the third year at RCSJ, students will seamlessly transfer to Rowan University for their senior year. 3+1 team members at both institutions work closely with students to guide them through the process.

Questions?
About 3+1: Alescia Kennon, akennon1@rcsj.edu
About the program.

Bachelor’s
Registered Nurse, Health Information Specialist, Community Health Worker

Master’s
Midwife, Healthcare Social Worker, Nurse Practitioner
Nutrition, A.S.

[AS-NTR; CIP Code 19.0501]

Associate in Science (A.S.) – Transfer

This program is designed for those students wishing to pursue a field of study leading to becoming a Registered Dietitian or nutrition professional. It is designed to meet the transfer requirements for students leading to a BS-Nutrition-Dietetics concentration or a BS Nutrition degree at a 4-year College or University.

Program Learning Outcomes

Students who complete the program will be able to:

- Identify professional characteristics of a Registered Dietitian/nutrition professional including education and training requirements.
- Summarize the roles and responsibilities of Registered Dietitians and nutrition professionals in a variety of practice settings.
- Apply nutrition, digestion and metabolic pathways concepts into practice.
- Demonstrate competency in math and the sciences to be able to handle the rigors of continued study to become a Registered Dietitian and/or nutrition professional.

FIRST YEAR — Fall Semester

- CHM 111 General Chemistry I 4
- BIO 105 Anatomy and Physiology I 4
- ENG 101 English Composition I 3
- NTR 105 Introduction to Nutrition Professions 3

14

Spring Semester

- CHM 112 General Chemistry II 4
- BIO 106 Anatomy and Physiology II 4
- PSY 101 General Psychology 3
- ENG 102 English Composition 3

14

SECOND YEAR – Fall Semester

- NTR 101 Nutrition for Health Professions 3
- CHM 201 Organic Chemistry I 4
- SPE 101 Oral Communication 3
- BIO 101 General Biology I 4
- __ __ Free Elective 3

17

Spring Semester

- SOC 110 Cultural Anthropology 3
- MAT 103 Statistics 3
- BIO 102 General Biology II 4
- Humanities Elective (ART 101 or MUS 101 recommended) 3
- HPE or ALH Elective 2-3

15-16

TOTAL MINIMUM CREDITS: 60

Program Notes

Students should contact their advisor to clarify four-year degree transfer requirements and refer to the College catalog for course prerequisites.

The 2+2 pathway is a new initiative slightly different from a traditional transfer. Students interested in earning their bachelor's degree in one of these programs must start at RCSJ for the first two years. The last two years are taught by Rowan University faculty, but some classes will be held at RCSJ.
Physical Therapist Assistant, A.A.S.

FIRST YEAR — Summer Semester
- ENG 101 English Composition I 3
- MAT 115 College Geometry 3

Fall Semester
- ENG 102 English Composition II 3
- PSY 101 General Psychology 3

Fall 1 - 7 weeks
- BIO 105 Anatomy and Physiology I* 4

Fall 2 - 7 weeks
- BIO 106 Anatomy and Physiology II 4

Spring Semester
- PTA 101 Introduction to Physical Therapist Assisting 1
- PTA 102 Kinesiology and Measurement 6
- HPE 106 Health and Wellness Promotion in PT** 1

Summer Semester
- PTA 105 Pathophysiology for the PTA 2
- PTA 107 Essential Skills I: Patient Care 4
- PTA 210 Orthopedics for the PTA 1

SECOND YEAR — Fall Semester
- PTA 207 Essential Skills II: Biophysical Agents 4
- PTA 208 Neurological d/o Across the Lifespan 4
- PTA 209 Clinical Experience I 2
- PTA 216 Cardiovascular and Pulmonary PT 2

Spring Semester
- PTA 229 Clinical Experience II 6
- PTA 239 Clinical Experience III 6
- PTA 240 Seminar in PTA Professionalism 1

TOTAL MINIMUM CREDITS: 60

Program Notes
* Refer to the course description section of this catalog for prerequisite and co-requisite course requirements.
** HPE 106 is only offered to students who are accepted into the PTA program.

Program Learning Outcomes
At the completion of the Physical Therapist Assistant program, a graduate will:
1. Qualify to take the National Physical Therapy Examination for Physical Therapist Assistants
2. Demonstrate behavior consistent with the PTA's established core values of accountability, altruism, compassion and caring, cultural competence, duty, integrity and social responsibility
3. Work within the scope of practice as defined by the physical therapy licensing act and all pertaining laws and regulations of the state of practice
4. Use sound judgment for evidence-informed decision making through critical thinking and problem solving
5. Identify career development and lifelong learning opportunities

Program Contact
Physical Therapy, 856-415-2188
edoyle@rcsj.edu

Are you ready to get started at RCSJ? Visit RCSJ.edu/Enroll and complete the interest form.
Program Goals

1. To provide a safe, nurturing environment for the enhancement of academic and clinical learning through provision of instruction from a qualified faculty of physical therapy educators and clinicians who are committed to experiences that translate into the safe, effective and ethical treatment of patients through the use of PT interventions which follow the principles of evidence-based practice.

2. To provide the effective resources and mentorship for program graduates to be successful takers of the NPTE for PTAs, then seek and obtain gainful employment after graduation.

3. To graduate knowledgeable entry-level professional physical therapist assistants who are well-versed in the PTA's point of entry into the patient/client management model and who continue to value life-long learning and commitment to the surrounding community far beyond graduation from the program.

Physical Therapist Assistant continued

In addition, as an entry-level physical therapist assistant, under the supervision of a licensed physical therapist, and within the patient’s established plan of care, a RCSJ graduate will be able to:

6. Exhibit professional behaviors in the role as a responsible physical therapist assistant by providing safe, ethical and legal care.

7. Demonstrate entry-level competency in all required intervention skills of a PTA including:
   b. Provision of transfer, gait, activities of daily living and functional training.
   c. Instruction of therapeutic exercise and of patient and care giver education, and
   d. Progression of therapy interventions to achieve long term and short term goals.

8. Communicate with patients/clients, caregivers and members of the health care team about the plan of care required in the rehabilitation process.

9. Identify characteristics of pathology, patient diseases and conditions and pharmacology that will affect patient’s therapy outcomes.

10. Complete and report patient data collection which communicates the need and rationale for continued physical therapy intervention.

11. Document a patient’s progress in the health record to comply with facility and payer regulations consistent with the health care delivery system.

12. Act in accordance with all emergency procedures related to the setting of practice.

Special Program Admission Requirements

Physical Therapist Assistant is a selective admission program. Students must be accepted into the program prior to registering for HPE 106 or any PTA courses. Please contact the Enrollment Services office for an admission packet.

Clinical agencies require criminal history background checks (CHBC) and urine drug screening (UDS) for all individuals engaged in patient care. All students must undergo a CHBC and UDS upon acceptance into the PTA Program. CHBC and UDS results may be sent to the clinical agencies, who have the sole discretion to decide if the student may engage in patient care at the agency. If a student is denied the opportunity to participate in the clinical agency as a result of the findings of the CHBC and UDS, the student will be dismissed from the PTA Program.

A minimum grade of “C+” is required in all BIO courses, and a minimum grade of “C” is required in all other courses. A minimum grade of 76% is required in all PTA designated courses, and in order to progress through the PTA program, students must maintain a cumulative GPA of 2.00 or higher.

* Refer to the course description section of this catalog for prerequisite and co-requisite course requirements.

** HPE 106 is only offered to students who are accepted into the PTA program.

Admission Requirements

Prospective applicants will be required to include with the admission packet documentation of observation in a physical therapy clinic or department. A minimum of 25 hours must be completed in no less than two different settings (outpatient and inpatient or hospital.) Documentation must contain the date of observation, the start and stop times, the supervising clinician’s signature and the clinician’s legibly written name and license number. Applicants must also pass the HESI exam with the minimum required scores. The most up-to-date application information is on the College’s website at RCSJ.edu/gc/SelectiveAdmissions.

The Physical Therapist Assistant Program at Rowan College of South Jersey is accredited by the Commission on Accreditation in Physical Therapy Education (CAPTE), 3030 Potomac Ave., Suite 100, Alexandria, VA 22305-3085, phone: 703-706-3245, email: accreditation@apta.org, website: http://www.capteonline.org.

Division of STEM
(Science, Technology, Engineering and Mathematics)

Develop a foundational understanding of scientific and mathematical principles based on experimentation, analytical thinking, assessment and problem solving.

RCSJ.edu/STEM

Find Your Program
From Engineering to Agribusiness, Mathematics to Physics, Biosciences and Technology to Cybersecurity — Rowan College of South Jersey offers the perfect solution for you. Save time and money with pre-professional degree programs, like Pre-Pharm.D. and Pre-Veterinary Science, which let you bypass a bachelor’s degree and proceed directly into a doctoral program; or take advantage of honors research programs in Biology or Chemistry, offered in cooperation with Rowan University and Cooper University Hospital.

Find Your Opportunity
RCSJ’s Division of STEM provides access to one-of-a-kind degree and certificate programs, research lab experiences, internship opportunities and personalized advisement to prepare students for success in the hard sciences. Whether you attend classes on the Cumberland campus, the Gloucester campus or online, you are guaranteed a quality education at one of the lowest tuition rates in New Jersey.

SCIENCE, TECHNOLOGY, ENGINEERING AND MATHEMATICS (STEM) DIVISION

Arts and Sciences, A.S.

[AS-ASC; CIP Code 24.0101]

Associate in Science (A.S.) — Transfer

This program is designed for those students who have selected a major field of concentration and yet want more flexibility in course selection. The program is designed to meet transfer requirements for students pursuing a Bachelor of Science degree. It is suggested, however, that students seek advisement in course selection from the institutions to which they intend to transfer.

Program Learning Outcomes

Students who have completed the program will be able to:

• Demonstrate application of theoretical concepts and fundamental principles utilized in the sciences, including use of the scientific method
• Conduct background research on scientific topics to make educated conclusions and demonstrate ability to access and assess information including understanding of basic concepts, processes and keywords necessary to explore topics
• Communicate with others in written and oral form and present scientific information effectively
• Operate basic laboratory equipment successfully
• Apply critical thinking and problem-solving skills to solving scientific research problems including utilizing statistics and graphical analyses

- ____ ____ 200-level Science elective ³ 4
- ____ ____ General Education elective 4
- ____ ____ Social Science General Education elective 3

15

TOTAL MINIMUM CREDITS: 60

Program Notes

Students must complete all Arts and Science (A.S.) required courses (41 credits) plus 24 credits selected from the Science Elective Pairs and designated courses.

¹ These are the Science elective Pairs. Two pairs of science electives may be selected from the following:

If you take this course . . . you must take this course
in the first semester . . . in the second semester

Bio 101 Bio 102
Bio 105 Bio 106
Bio 112 Bio 212
Bio 115 Bio 216
Chm 111 Chm 112
Chm 201 Chm 202
Phy 103 Phy 104
Phy 201 Phy 202

² One science courses must be selected from the following:

³ In addition to the two science elective pairs and a science elective a 200 level Science Elective course must be selected from the following: Bio 209, Bio 215, Bio 216, Bio 221, Chm 201, Chm 202, Phy 201, Phy 202.

- CHM 202 Organic Chemistry II  4
- PHY 202 Physics II (calculus-based)  4
- __ __ Social Science General Education Elective or __ __ Humanities General Education Elective³  3
- __ __ Social Science General Education elective  3

TOTAL MINIMUM CREDITS: 60

Program Notes
Students should consult the institutions to which they wish to transfer when selecting elective courses.

¹ It is highly recommended that students planning to transfer as pre-med or to any health science related program take BIO 102 General Biology II as their General Education elective in First Year Spring Semester.

² Program elective courses include: MAT 221 Calculus III, MAT 202 Linear Algebra, CSC 101 Introduction to Programming or CSC 111 Intermediate Programming.

³ Students planning to transfer to Rowan University should:
   a. Take a Social Science elective as social science or humanities elective.
   b. Take CHEM 09250, Quantitative Analysis on Rowan University’s campus in Spring semester of their second year if planning to major in Chemistry.
   c. Take BMS 01205, Introduction to Biomedical Science I and BMS 01210, Introduction to Biomedical Sciences II during their Fall and Spring semesters of their second year respectively, if planning to major in Translational Biomedical Sciences.
Chemistry: Pre-Pharm.D. Option, A.S.

FIRST YEAR — Fall Semester
- ENG 101 English Composition I 3
- CHM 111 General Chemistry I 4
- BIO 101 General Biology I 4
- ___ ___ General Education Elective¹ 3–4
- HPE ___ Health and Physical Education Elective² 1–3
  15-18

Spring Semester
- ENG 102 English Composition 3
- CHM 112 General Chemistry II 4
- BIO 102 General Biology II² 4
- MAT 108 Calculus I 4
- ___ ___ Social Science General Education Elective 3
  18

SECOND YEAR — Fall Semester
- CHM 201 Organic Chemistry I 4
- PHY 103 General Physics I 4
- BIO 105 Anatomy & Physiology I¹ 4
- BIO 215 Microbiology 4
  16

Spring Semester
- CHM 202 Organic Chemistry II 4
- PHY 104 General Physics II² 4
- BIO 106 Anatomy and Physiology II² 4
- ___ ___ Social Science or Humanities Elective 3
- ___ ___ Humanities General Education Elective 3
  18

TOTAL MINIMUM CREDITS: 67

Program Notes
Students should contact the transfer advisor to determine appropriate transfer requirements to four-year colleges.

¹ Students planning to transfer to University of Maryland — Eastern Shore Pharmacy School must take as their general education elective a three-credit course in one of the following areas: Sociology, Psychology, Arts, Music or History.
² Students planning to transfer to University of Maryland — Eastern Shore Pharmacy School must take SPE 101 Oral Communication in place of an HPE course.
³ Students planning to transfer to University of Maryland — Eastern Shore Pharmacy School must take MAT 103 Statistics in place of BIO 102 General Biology II.
⁴ Students planning to transfer to University of the Sciences in Philadelphia must take BIO 105 Anatomy and Physiology I and BIO 106 Anatomy and Physiology II equivalents (BS 310 and BS 311) at the University of the Sciences upon transfer and reverse transfer those courses back to RCSJ to earn the A.S. CHM Pre-Pharm.D. option from RCSJ.
⁵ Students planning to transfer to University of Maryland — Eastern Shore Pharmacy School must take ECO 100 Introduction to Economics in place of PHY 104 General Physics II.
Are you ready to get started at RCSJ? Visit RCSJ.edu/Enroll and complete the interest form.

[AS-CSC; CIP Code 11.0701]

Associate in Science (A.S.) — Transfer

The goal of this program is to provide the first two years of a Computer Science baccalaureate degree program for the students who wish to transfer to a four-year program in Computer Science. The core curriculum will provide foundations in programming and problem solving, data representation and algorithms, object-oriented programming, computer organization and assembly language programming fulfilling the core competencies of critical thinking and information technology. Although this program is primarily designed for students to transfer to a four-year program, after successful completion of this program, students will also find job opportunities in computer science and information technology areas.

Program Contact
Barun Dandapat, Associate Professor, Computer Science
bdandapat@rcsj.edu

**FIRST YEAR – Fall Semester**

- CSC 205 Programming in C++  4
- ENG 101 English Composition I  3
- MAT 108 Calculus I  4
- Humanities General Education Elective  3
- Social Science General Education Elective  3

**Spring Semester**

- CSC 210 Object Oriented Programming in Java  4
- ENG 102 English Composition II  3
- MAT 122 Calculus II  4
- PHY 201 Physics with Calculus I  4

**SECOND YEAR - Fall Semester**

- CSC 203 Assembly Language and Computer Organization  4
- CSC 216 Objects and Data Abstraction using Java  4
- MAT ____ Mathematics elective - Linear Algebra (MAT 202) * or Calculus III (MAT 221)  4
- Humanities Elective / Social Science Elective  3

**Spring Semester**

- CSC 220 Data Structures and Algorithms  4
- MAT 201 Discrete Mathematics  3
- PHY 202 Physics with Calculus II  4
- HPE or Free Elective  2-4

**TOTAL MINIMUM CREDITS:60**

**Electives:**

- Humanities Elective / Social Science Elective: 9 credits - must be chosen from the approved list of General Education courses. Refer to the College Catalog and/or the Counseling Office.
- Mathematics: Linear Algebra (MAT 202) or Calculus III (MAT 221)

*Students planning to transfer to Rowan University should take Linear Algebra MAT 202 as their Mathematics elective.

**Program Learning Outcomes**

Students who have completed the program will be able to:

- Learn fundamental principles, theories and analytical skills to solve computing problems throughout the program
- Analyze, design, choose the interface, coding, test and debug to effectively develop error-free computer programs
- Learn computer architecture, software design and programming that are most widely used in engineering, science and technology-related fields
- Identify, formulate and solve problems and learn to adapt to evolving computer languages, systems and industry standards

This is a 3+1 option program with Rowan University.
The 3+1 pathway enables students to complete three years of coursework at RCSJ and one year at Rowan University to earn a bachelor’s degree. The 3+1 pathway follows Rowan’s course curriculum, with junior year classes taught by RCSJ advanced-degree faculty.

Data Analytics 3+

THIRD YEAR — Fall Semester
- CSC 106 Introduction to Data Science 3
- CIS 300 Applied Database Technologies 3
- CIS 110 Fundamentals of Programming 4
- CIS 200 Principles of Information Security 3
- MAT 103 Statistics 3

Spring Semester
- CIS 207 Management Information Systems 3
- CSC 225 Programming in R 2
- MAT 203 Statistics II 3
- DATA 301 Research Methods & Ethical Issues in Data Analysis 3
- SPE 101 Oral Communication 3

FOURTH YEAR — After completing the third year at RCSJ, students will seamlessly transfer to Rowan University for their senior year. 3+1 team members at both institutions work closely with students to guide them through the process.

Industry & Employment Opportunities

Bachelor
- Business Analyst, Disaster Recovery Mitigation Analyst
- Data Analyst — Business Intelligence

Master
- Financial Data Analyst, Data Scientist

Certificate

The goal of this Certificate Program is to give the students the necessary knowledge and skills for employment. This Certificate Program also allows working professionals the opportunity to gather additional knowledge and skills while earning college credits. After completing this program, the student may decide to further his/her studies to earn an Associate degree in Computer Science by completing the remaining course requirements.

Program Learning Outcomes

Students who have completed the program will be able to:

- Learn fundamental principles, theories, and analytical skills to solve computing problems throughout the program
- Analyze, design, choose the interface, coding, test, and debug to effectively develop error-free computer programs
- Learn computer architecture, software design, and programming that are most widely used in Engineering, Science and Technology related fields
- Identify, formulate, and solve problems and learn to adapt to evolving computer languages, systems, and industry standards

¹ Students planning to transfer to Rowan University should take the following courses. A maximum of 5 program electives selected from the ones listed below are required for the A.S. degree. Rowan University may require additional courses not offered at this institution.
² Students wishing to take additional program electives are encouraged to declare a Secondary Program of study by enrolling in an Engineering Science Certificate of Achievement. Financial aid will NOT cover the additional program electives UNLESS you are enrolled in a Certificate of Achievement.
³ Students should review requirements at their transfer institutions. ENR 103, ENR 201, ENR 202 may not transfer to some institutions, please see an advisor for a graduation variance.

Program Notes

Program Learning Outcomes
Students who have completed the program will be able to:
- Analyze and understand engineering designs
- Deliver an effective and informative professional engineering presentation
- Demonstrate an understanding of engineering materials used in different fields

Program Contact
Gayle Hughes, Assistant Professor, Engineering
ghughes@rcsj.edu
Certificates of Achievement

The Certificates of Achievement give students the knowledge and skills needed for employment in their respective fields. They will provide students with a concentration of courses that can be taken in conjunction with those required for the A.S. Engineering Science degree program. If the student decides to continue with the remaining course requirements leading to an associate degree in Engineering Science, the certificate will allow them to take the additional courses needed for transfer and can be used as Program electives.

Certificate of Achievement

The Professional Development Certificates in the Engineering Technologies Construction Supervision program will provide the students with a concentration of courses that parallel the Associates Degree program. The certificates below give students the knowledge and skills needed for employment in their respective fields. Once a certificate is completed, students can continue with the remaining course requirements leading to an A.A.S. degree in Engineering Technologies from Rowan College of South Jersey.

- CET 108 Introduction to Surveying 3
- DFT 103 CADD I (AutoCad) 3
- CET 201 Codes, Contracts & Specifications 3
- BUS 107 Business Law or CET 209 Cost Estimating 3
- BUS 231 Principles of Management 3
- COM 105 Technical and Scientific Writing or SPE 101 Oral Communication 3

TOTAL CREDITS: 18
Environmental Science, A.S.

[AS-ENV; CIP Code 03.0104]

Associate in Science (A.S.) — Transfer

This curriculum provides two years of concentrated study in science for those who plan to pursue a baccalaureate degree in Environmental Sciences. This is a science and math based program to prepare the student for understanding and analyzing data. Communications, Social Science and Humanities courses that put environmental science in the context of history and how to approach solutions are also incorporated. Students are advised to plan their course selection based on the requirements of the vocation or curriculum of the four-year college of their choice.

Program Learning Outcomes

Students who have completed the program will be able to:

• Understand and apply basic scientific principles to the study of environmental issues overall including the use of resources in a sustainable manner.
• Develop and demonstrate the basic skill set, techniques and procedures required to conduct and analyze field and laboratory work in environmental sciences.

Program Contact

Regina Kukola, Instructor I, Biology
rkukola@rcsj.edu

Are you ready to get started at RCSJ? Visit RCSJ.edu/Enroll and complete the interest form.

FIRST YEAR — Fall Semester

- MAT 107 Pre-Calculus and Mathematical Analysis or MAT 108 Calculus 1
- ENG 101 English Composition I
- BIO 101 General Biology I
- ENVS 101 Environmental Science

   Total Credits: 15

Spring Semester

- ENG 102 English Composition II
- BIO 102 General Biology II
- MAT 103 Statistics
- ENVS 110 Physical Geology

   Total Credits: 14

SECOND YEAR — Fall Semester

- SPE 101 Oral Communication
- BIO 209 Ecology: Principles and Processes
- GEO 115 Introduction to Geographic Information Systems
- Program Elective 2

   Total Credits: 14

Spring Semester

- ENVS 201 Research Methods & Data Analysis
- Program Elective 2
- Humanities General Education Elective
- SOC 101 Principles of Sociology
- ECO 101 Introduction to Economics (Macro)

   Total Credits: 17

TOTAL CREDITS: 60

Program Notes

1 Students planning to transfer to a BS program in Environmental Science should take MAT 108. If a student wants to transfer to a BS program, but tests into MAT 107, see the program elective bank advising recommendations below. Students planning to transfer to a BA program in Environmental Science can take either MAT 107 OR MAT 108. It is recommended that students take the highest-level math they place into.

2 Program Elective. Select 2 of: PHY 103 Physics I, PHY 201 Physics I (calculus-based), CHM 111 Chemistry I, CHM 112 Chemistry II, MAT 108 Calculus I

Program Elective Bank Advising Recommendations:

- CHM 111 AND CHM 112: Recommended for students planning to transfer to Rowan University's BA or BS in Environmental Science or Stockton University's BS in Environmental Science.
- CHM 111 AND PHY103 OR PHY 201: Recommended for students planning to transfer to Stockton University's BA in Environmental Science.
- MAT 108 AND PHY 201: Recommended for students planning to transfer to a BS program in Environmental Science, but place into MAT 107 in your first semester.
- Students planning to transfer to other BS or BA Environmental Science programs are encouraged to meet with their advisor at RCSJ or their transfer school to select their program elective courses.
Equine Science, A.S.

FIRST YEAR — Fall Semester
- ENG 101 English Composition I or ENG 101E Enhanced English Composition I: 3-4 credits
- BIO 101 General Biology I: 4 credits
- BIO 116 Animal Science: 4 credits
- ___ ___ Free elective: 3-4 credits

Total: 14-16 credits

Spring Semester
- ENG 102 English Composition II: 3 credits
- BIO 102 General Biology II: 4 credits
- BIO 115 Introduction to Equine Science: 4 credits
- MAT 107 Pre-Calculus or MAT 108 Calculus: 4 credits

Total: 15 credits

SECOND YEAR — Fall Semester
- CHM 111 General Chemistry I: 4 credits
- ECO 101 Principles of Economics (Macro): 3 credits
- PSY 101 General Psychology: 3 credits
- ___ ___ Humanities elective: 3 credits
- ___ ___ Free elective: 3-4 credits

Total: 16-17 credits

Spring Semester
- BIO 216 Equine Capstone Practicum: 3 credits
- CHM 112 General Chemistry II: 4 credits
- ECO 102 Principles of Economics II (Macro): 3 credits
- ___ ___ Lab Science elective*: 4 credits
- ___ ___ HPE elective: 1-3 credits

Total: 15-17 credits

TOTAL MINIMUM CREDITS: 60

Program Notes
Check requirements of transfer institution for elective selection.
This program is best suited for students to transfer to an animal or equine science program. Students who plan to attend a veterinary medicine doctoral program or who plan to transfer to Rowan University for biology should be Equine Science: Pre-Veterinary Medicine Option majors.
Equine Science, COA

[COA-CAES; CIP Code 01.0507]

Certificate of Achievement

The Certificate of Achievement (COA) in Equine Science will provide students with the instruction and practical experience in management, nutrition, physiology and care of horses. Students can either complete just the certificate or continue to work toward an associate degree in Equine Science.

Program Contact

Emily Allen, Assistant Professor, Biology

- ___ ___ Science elective 3 4
- ___ ___ Free elective 1–4

15–18

SECOND YEAR — Fall Semester
- MAT 202 Linear Algebra 3
- MAT 221 Calculus III 4
- ___ ___ Science elective 3 4
- SPE 101 Oral Communication 3

14

Spring Semester
- MAT 205 Differential Equations 4
- MAT ___ Mathematics elective 3–4
- ___ ___ General Education elective 3–4
- ___ ___ Humanities elective 3
- ___ ___ Social Science elective 2 3

16–18

TOTAL MINIMUM CREDITS: 60

Program Notes
1 Students who need prerequisite Mathematics courses before beginning Calculus I will need more than four semesters to complete the degree.
2 Students should consult the institutions to which they wish to transfer when selecting elective courses. Economics is recommended for Social Science elective.
3 A minimum of eight credits in a two-semester laboratory science sequence is required. PHY 201 Physics I (calculus-based) and PHY 202 Physics II (calculus-based) are recommended for most transfer institutions.

Students planning to transfer to Rowan University should:
1. Take ECO 101 Principles of Economics I (Macro) and ECO 102 Principles of Economics II (Micro) as Social Science electives.
2. Take PHY 201 Physics I (calculus-based) and PHY 202 Physics II (calculus-based) as Science electives.
3. Take a four-credit science course as a General Education elective.
Surveying Engineering Technologies, A.A.S.

FIRST YEAR — Fall Semester
- ENG 101 English Composition I 3
- MAT 107 Pre-Calculus and Mathematical Analysis 4
- CSC 111 Intermediate Programming 4
- GEO 115 Intro. to Mapping and GIS 3
  **14**

Spring Semester
- ENG 102 English Composition II 3
- DFT 103 CADD I 3
- MAT 103 Statistics 3
- PHY 111 Earth Science: Land and Sea 4
- CET 108 Intro. to Surveying 3
  **16**

SECOND YEAR — Fall Semester
- PHY 112 Earth Science: Air and Space 4
- CET 206 Evidence and Procedures for Boundary Location 3
- DFT 113 CADD II 3
- MAT 108 Calculus I 4
  **14**

Spring Semester
- SPE 101 Oral Communications 3
- PHI 104 Ethics 3
- MAT 122 Calculus II 4
- CET 208 Route and Construction Surveying 3
- ___ ___ Technical elective 1
  **16**

**TOTAL CREDITS: 60**

Program Notes
1 Technical electives: CEP 211 Cooperative Education Experience, CET 201 Codes Contracts and Specifications; CET 207 Hydraulics; DFT 203 3-D Modeling. Note that the prerequisite for DFT 203 3-D Modeling is DFT 211 Architectural and Civil Planning.
Surveying Engineering Technologies, COAs

Certificates of Achievement

The Certificates of Achievement in the Surveying Engineering Technologies program will provide students with a concentration of courses that parallel the associate degree program. The certificates below give students the knowledge and skills needed for employment in their respective fields. Once a certificate is completed, students can continue with the remaining course requirements leading to an A.A.S. degree in Surveying Engineering Technologies from RCSJ.

Civil Engineering Technologies
[COA-CCET; CIP Code 15.0201]
Core Courses
- CET 101 Introduction to Materials 3
- CET 108 Introduction to Surveying 3
- CET 203 Applied Statics 3
- CET 204 Structural Systems or CET 205 Applied Strengths and Materials or CET 208 Route and Construction Surveying 3
TOTAL CREDITS: 12

Construction Supervision
[COA-CACS; CIP Code 15.1001]
Core Courses
- CET 101 Introduction to Materials 3
- DFT 103 CADD I (AutoCad) 3
- CET 201 Codes, Contracts, Specifications 3
- BUS 107 Business Law or CET 209 Cost Estimating or DFT 203 CADD 3D Modeling 3
TOTAL CREDITS: 12

Drafting and Design
[COA-CADD; CIP Code 15.1302]
Core Courses
- DFT 103 CADD I (AutoCad) 3
- DFT 113 CADD II (Advanced AutoCad) 3
- DFT 211 Architectural and Civil Planning 3
- DFT 203 CADD 3D Modeling 3
TOTAL CREDITS: 12

Surveying Engineering Technology
[COA-CALS; CIP Code 15.1102]
Core Courses
- CET 108 Introduction to Surveying 3
- CET 206 Evidence & Procedures of Boundary Locations 3
- CET 208 Route & Construction Surveying 3
- DFT 103 CADD I (AutoCad) 3
TOTAL CREDITS: 12
Veterinary Technology, A.A.S.

FIRST YEAR — Fall Semester
- ENG 101 English Composition I
- MAT 101 Concept of Mathematics
- BIO 101 General Biology I
- VETT 101 Intro to Veterinary Technology
- VETT 115 Animal Behavior and Restraint

Spring Semester
- ENG 102 English Composition II
- BIO 102 General Biology II
- VETT 105 Anatomy and Physiology of Domestic Animals I
- VETT 110 Veterinary Pharmacology
- VETT 201 Small Animal Medicine & Nursing Care

SECOND YEAR - Fall Semester
- VETT 106 Anatomy and Physiology of Domestic Animals II
- VETT 210 Veterinary Laboratory Procedures I
- VETT 225 Veterinary Diagnostic Imaging & Dentistry
- VETT 230 Veterinary Surgical Nursing & Anesthesia
- VETT 205 Large Animal Medicine & Nursing Care

Spring Semester
- VETT 235 Veterinary Emergency Medicine
- VETT 211 Veterinary Laboratory Procedures II
- VETT 220 Laboratory and Exotic Medicine and Nursing Care
- VETT 240 Veterinary Profession Leadership Seminar & VTNE Prep
- ____ ____ Social Sci/Hum Gen Ed

TOTAL MINIMUM CREDITS: 69

Program Learning Outcomes

Students who have completed the program will be able to:
- Achieve an appropriate depth of knowledge in all areas of veterinary medicine as it pertains to veterinary technology.
- Apply the knowledge necessary to successfully complete the Veterinary Technician National Examination (VTNE) to function within the scope of practice of a credentialed veterinary technician.
- Execute the Essential Skills developed by the American Veterinary Medical Association’s (AVMA) Committee on Veterinary Technician Education and Activities (CVTEA).
- Effectively and professionally communicate both written and verbal information to veterinary personnel and clients in a clinical setting.
- Demonstrate the use of critical thinking skills to identify and solve problems in discipline-specific situations.
- Contribute to the veterinary health care team while maintaining professional, legal, and ethical standards including a strong work ethic, personal responsibility, and compassion for animals and clients.
# GENERAL EDUCATION REQUIREMENTS

A General Education Foundation for Associate in Arts, Associate in Science, Specialized Associate, and Certificate Programs in New Jersey’s Community Colleges

(1997 Adoption, 2007 Reaffirmed, August 15 2007 Revision, September 6, 2011 Revision) APPROVED BY PRESIDENTS – 4/22/2022

<table>
<thead>
<tr>
<th>Gen. Ed. Foundation Course Categories</th>
<th>NJCC Goal Categories*</th>
<th>Course Criteria: Below are brief descriptions of the course criteria for satisfying the requirements. For fuller descriptions see the NJCC GE Course Criteria (September 6, 2011).</th>
</tr>
</thead>
<tbody>
<tr>
<td>1 Communication</td>
<td>1 Written and Oral Communication</td>
<td>An array of courses which prepare students to speak, read, and write effectively. At least two of these must be composition courses for A.A. and A.S. degrees. At least one of these must be a composition course for specialized degree programs and certificates.</td>
</tr>
<tr>
<td>2 Mathematics</td>
<td>2 Quantitative Knowledge and Skills</td>
<td>Any college level mathematics course including statistics, algebra, or calculus course(s). These courses should build upon a demonstrated proficiency in basic algebra.</td>
</tr>
<tr>
<td>3 Science</td>
<td>3 Scientific Knowledge and Reasoning</td>
<td>Any course(s) in the biological or physical sciences - including non-majors survey courses. At least one of these courses must have a laboratory component.</td>
</tr>
<tr>
<td>4 Technology</td>
<td>4 Technological Competency</td>
<td>Any course that emphasizes common computer technology skills (e.g. computer science, information technology) that helps students to access, process, and present information. This component is not required for students who can demonstrate competency.</td>
</tr>
<tr>
<td>5 Social Science</td>
<td>5 Society and Human Behavior</td>
<td>Any introductory course(s) from among anthropology, economics, geography, political science, psychology, or sociology.</td>
</tr>
<tr>
<td>6 Humanities</td>
<td>6 Humanistic Perspective</td>
<td>Any broad-based course(s) in the appreciation of art, music, or theater; literature: foreign language; history: philosophy and/or religious studies.</td>
</tr>
<tr>
<td>7 History</td>
<td>7 Historical Perspective</td>
<td>Any broad-based course(s) or sequence of courses in World, Western, non-Western, or American History.</td>
</tr>
<tr>
<td>8 Diversity Courses</td>
<td>8 Global and Cultural Awareness</td>
<td>Any course whose purpose is to expose students to a multicultural society or people, possibly within the context of non-introductory study of a foreign language. If this goal is integrated into one or more general education course(s), the three credits may be moved from this category to another general education category.</td>
</tr>
</tbody>
</table>

### Ethical Reasoning and Action

This ethical reasoning and action goal may be infused in any of the above categories. These courses should support career preparation. General education coursework in excess of the 12 credits listed should follow the AS distribution limits.

### Information Literacy

These courses include the requirement for students to address an information need by locating, evaluating and effectively using in formation.

### Note:

This document should be used in conjunction with the NJCC GE Learning Goals & Suggested Individual College-Wide Learning Obj. (9-6-2011).

### Programs

#### Allocation Notes:

The credit allocation below is consistent with the 1997 NJCC Gen. Ed. Foundation grid.

#### AA

The Associate in Arts (AA) degree requires 33 semester credits hours of general education coursework from among the indicated categories. Individual community colleges may choose to require general education and other credits* in excess of the minimum, and make their own determination about the distribution. (*E.g., Student Success, Studio Arts, Communication, Math-Science-Tech, Social Science, Humanities, History and/or Diversity courses)

#### AS

The Associate in Science (AS) degree requires a minimum of 30 semester credits hours from among the indicated categories, with minimum distributions as shown.

#### Specialized Associate AAS, AFA, & AS Nursing

The specialized associate degrees shall include Applied Associate in Science (AAS), Associate in Fine Arts (AFA) and AS in Nursing. These programs shall require no fewer than 20 semester credit hours of General Education. Notwithstanding any articulation agreements, the general education courses should support career preparation. General education coursework in excess of the 12 credits listed should follow the AS distribution limits.

#### Certificate

The Certificate (or Academic Certificate) shall prepare students to read and write effectively. At least one other general education course is required. The Certificate of Achievement (COA) requires no general education courses beyond those that support career education. The Certificate of Completion (COC) is a noncredit certification program, which is not applicable within the general education context.
## General Education Electives

Appropriate reading-level skills are a prerequisite for most college-level courses offered at Rowan College of South Jersey. This prerequisite may be satisfied by passing the College placement exam or successfully completing the specific reading course requirement.

All of the courses listed may be used as general education electives at Rowan College of South Jersey and have been approved for statewide transfer to four-year institutions.

*Students are strongly advised to confirm which electives are accepted by the prospective transfer college.*

Revised 8/2022
Course Descriptions

Appropriate reading-level skills are a prerequisite for most college-level courses offered at RCSJ. This prerequisite may be satisfied by passing the College placement exam or successfully completing the specific reading course requirement.

Many courses require course fees in addition to tuition. Please refer to page 6 of this catalog or to the website RCSJ.edu for a list of fees and fees relating to online course listings.

Many of the courses listed are offered as online, hybrid or web-enhanced. Check the online schedule or an advisor for more information.

Please Note: All course and lab fees are listed according to categories (A, B, C; F through K; O; Q through T; W and Y). Dollar amounts for each category, listed on page 6 of this catalog, are accurate through June 30, 2024.

ALH – Allied Health

ALH 102 Medical Terminology
3 lecture hours, 3 credits
Prerequisites: ENG 101, ENG 101E, RDG 099 or ENG 104

This course is designed to assist in mastery of the terms, words, phrases and symbols that describe the human body in its various states of health and disease, as well as the proper anatomical terms for each of the body parts. Terminology regarding diagnosis, surgical procedures and pharmacological preparations will be presented. The depth and scope of this course will meet the needs of students in health technologies and in business studies departments.

ALH 104 Patient Care
1 lecture hour, 1 credit
Prerequisites: ENG 101, ENG 101E, RDG 099 or ENG 104

This course emphasizes those details pertaining to the general care and well-being of the patient. Body mechanics, medical emergencies, ethics, dealing with apprehensive patients, isolation techniques and general care are presented.

ALH 107 Cross Sectional Anatomy
2 lecture hours, 2 credits
Prerequisite: Grade of “C” or higher in BIO 105
Pre or Co-requisite: BIO 106

This course is designed to introduce the student to three-dimensional human anatomy as visualized in the coronal, transverse and spagittal planes of NM, CT and MRI images. Normal anatomy of the brain, thorax, abdomen and pelvis will be reviewed.

ALH 130 Elements of Healthcare Careers
3 Lecture Hours, 3 Credits

This course will introduce a broad variety of health care professions. Student will be exposed to all levels to the following health occupation clusters: administrative, diagnostic, environmental service, information service/technical, and therapeutic. Elements of Healthcare Careers will allow students to develop skills and information literacy through critical thinking activities, teamwork, collaboration, and a hands-on approach to learning. Career exploration will be pursued through field trips or guest speakers, and career assessments.

ALH 140 Biomedical Ethics
3 lecture hours, 3 credits
Prerequisites: ENG 101, ENG 101E

The range of issues that define bioethics intersect with issues of racial and gender equality, as well as policies affecting the world’s most vulnerable populations. This multidisciplinary course blends the arts of philosophy, theology, history and law to examine biomedical issues in personal, social and cultural contexts. Students will be introduced to classic and contemporary methods and theories of ethics and use those concepts to analyze a variety of current biomedical and health-care related issues and apply moral reasoning to formulate an ethical response. This class serves as a framework to assist professionals in resolving legal and ethical questions in the field of medicine and research.

ART – Art

ART 101 Art Appreciation I
3 lecture hours, 3 credits
Prerequisites: RDG 099 or ENG 104

This is an introductory course directed toward a basic understanding of past and recent painting, sculpture, architecture, photography and digital and other media.

ART 105 Drawing I
2 lecture hours, 2 studio hours, 3 credits

This course is an introduction to drawing, using pencil, pastel, charcoal and pen. The study is to include observational drawing designed to aid in the development of visual perception. (Some supplies are to be furnished by the student.)

ART 108 Drawing and Painting I
2 lecture hours, 2 studio hours, 3 credits
Course Fee: B

This course introduces drawing and painting using pencil, watercolor and oil or acrylic paint. Studies include still life, landscape, life drawing and abstraction. No previous experience is necessary. This course will not satisfy art major requirements. (Some supplies are to be furnished by the student.)

ART 114 Painting I
2 lecture hours, 2 studio hours, 3 credits
Course Fee: B

This course is an introduction to painting, using watercolor, acrylic and oil paints. The study is to include non-representational and representational methods of painting. (Some supplies are to be furnished by the student.)

ART 116 Color Theory
2 lecture hours, 2 studio hours, 3 credits
Prerequisites: RDG 099 or ENG 104
Course Fee: B

Emphasis in this course is on the implications of color for designers and artists. Color awareness is realized through experimentation with optical illusions, color harmony and psychological associations. Color exercises and creative assignments are supplemented by lecture, group discussion, critique and individual instruction.
ART 121 History of Photography
3 lecture hours, 3 credits
Prerequisites: RDG 099 or ENG 104

This course is an overview of the history of photography from its beginnings to the present day. It focuses on the development and history of photography as an art form and the impact photography has had on both the art world and society. It also emphasizes major photographers and their work.

ART 131 Introduction to Digital Photography
2 lecture hours, 2 studio hours, 3 credits
Prerequisites: RDG 099 or ENG 104

Online sections of this course offered some semesters.

This course is an introduction to digital photography. Current trends in image making are examined from aesthetic, cultural, social and political points of view. Topics include elements of basic camera operation, exposure, lighting, composition, visual literacy and investigation of the relationships between elements of form, shape, line and color. DSLR camera is required.

ART 141 Introduction to Photoshop
2 lecture hours, 2 studio hours, 3 credits
Prerequisites: ART 131

This course will familiarize students with Adobe Photoshop and its relationship to digital photography. Students will gain practical experience with digital techniques that will support their photography skills as a business, design, artistic and communication tool. The goal of this course is to facilitate the integration of Adobe Photoshop with digital photography in order to strengthen visual communication.

ART 201 Art History I
3 lecture hours, 3 credits
Prerequisites: RDG 099 or ENG 104

Art History I surveys western art from humankind’s first efforts to the Renaissance with an emphasis on historical continuity and effects of social change.

ART 202 Art History II
3 lecture hours, 3 credits
Prerequisites: RDG 099 or ENG 104

Art History II surveys the developments of western art from the Renaissance to modern time. Baroque, neoclassicism, realism, impressionism and post-impressionism are included topics.

ART 231 Intermediate Digital Photography
2 lecture hours, 2 studio hours, 3 credits
Prerequisites: ART 131, RDG 099 or ENG 104

This course will familiarize students with digital photography beyond the basic camera controls and image adjustments. Students will gain practical experience with digital photography techniques that will support their photography skills as a business, design, artistic and communication tool and develop the digital lab skills to make fine-tuned image adjustments with digital photography editing software. The goal of this course is to provide hands-on practice in digital photography for those already comfortable with basic camera controls who are ready to move to intermediate digital image making in order to strengthen visual communication. A DSLR camera is required.

ASL – American Sign Language

ASL 101 American Sign Language I
3 lecture hours, 3 credits
Prerequisites: RDG 099 or ENG 104

An introduction to sign language used by the majority of American deaf adults. Emphasis is on the development of basic skills and acquisition of non-verbal communication techniques.

ASL 102 American Sign Language II
3 lecture hours, 3 credits
Prerequisite: ASL 101

A continuation of ASL 101, this course emphasizes continuing development of skills using ASL as well as extensive interaction with the deaf community.

AUT – Automotive Technology

AUT 101 Automotive Service Fundamentals
1 lecture hour, 5 lab hours, 2 credits
Prerequisites: RDG 099 or ENG 104

Admission to Automotive Technology program

Course Fee: C

This course introduces the principles of shop operations, customer relations, service and parts department procedures and shop safety. Emphasis is placed on identification of automotive measuring devices and systems and hand and power tools usage.

AUT 103 Front-End Suspension
1 lecture hour, 10 lab hours, 3 credits
Prerequisites: AUT 101 and AUT 107

Course Fee: C

This course will cover the proper techniques and procedures for complete front-end services to include manual and power steering systems. Laboratory investigations include wheel alignment, tire and wheel balancing, analysis of tire wear, noise, vibration and harshness.

AUT 105 Brakes and Hydraulic Controls
1 lecture hour, 10 lab hours, 3 credits
Prerequisites: AUT 101 and AUT 107

Course Fee: C

This course covers the diagnosis and repair of both drum and disc brake systems, power brake boosters, master cylinders, wheel cylinders and related component parts. Topics also covered are anti-lock brake systems, stability control systems and automatic braking systems.

AUT 107 Automotive Electrical Systems
2 lecture hours, 15 lab hours, 5 credits
Prerequisite: Admission to Automotive Technology program

Course Fee: C

This course is an introduction to basic electrical theory (circuits, Ohm’s Law, etc.) and its application to automotive electrical systems. Included are discussions and laboratory experiences related to batteries, wiring, lighting, alternators, voltage regulators and conventional ignition systems.
AUT 110  Engine Repair
2 lecture hours, 10 lab hours, 4 credits
Prerequisites: AUT 103 and AUT 105
Course Fee: C

The operation of the internal combustion engine is discussed and examined in detail. Engine rebuilding, mechanical operations and failure analysis are introduced. Emphasis is on the proper use of hand tools, measuring instruments and equipment.

AUT 111  Heating, Ventilation and Air Conditioning
1 lecture hour, 10 lab hours, 3 credits
Prerequisites: AUT 103 and AUT 105
Course Fee: C

This course focuses on the principles of the operation and service of climate control systems. Topics include components, testing, diagnosis, charging and repair practices.

AUT 123  Automotive Electronics
2 lecture hours, 10 lab hours, 4 credits
Prerequisites: AUT 107, AUT 121, AUT 131
Course Fee: C

The fundamentals of electronic control systems and their components are introduced. Emphasis is on engine control strategies, microcomputer systems, diagnosis and repair and servicing electronic instruments and options (message center, instrument cluster, fuel computer, air suspension systems and keyless entry control).

AUT 135  Manual Transmissions
1 lecture hour, 10 lab hours, 3 credits
Prerequisites: AUT 103 and AUT 105
Course Fee: C

The principles of manual transmissions, their operation and service are investigated. Laboratory investigations include topics such as types of drivelines, differentials, clutches, U-joints, RWD, FWD and four-wheel drive.

AUT 139  Automatic Transmission Systems
1 lecture hour, 135 lab hours 3 credits
Prerequisites: AUT 110, AUT 111, AUT 135

The theory, operation and diagnosis of both rear-wheel drive transmissions and front-wheel drive transaxles are investigated. Rebuilding and diagnosis of both transmissions and transaxles are emphasized.

BIO 102  General Biology II
3 lecture hours, 3 lab hours, 4 credits
Prerequisite: BIO 101
Course Fees: C, H

The origin of new cells and organisms as well as the manner by which genetic material is passed from parent to offspring are investigated in detail through lecture, discussion and lab exercises. Classical and molecular genetics are reviewed and permit the concurrent consideration of the theories relevant in biology today. DNA technology and molecular biology of the gene will be investigated including genetic evolution and the evolution of behavior.

BIO 103  Environmental Science: Ecosystems and Man
3 lecture hours, 3 lab hours, 4 credits
Prerequisite: RDG 099 or ENG 104
Course Fees: C, H

The impact of human activities on ecosystems will be explored. Topics will include fundamentals of ecology, how ecosystems function, conservation of plants and animals, overpopulation and world food/hunger problems. Lab experiences focus on natural resource monitoring and ecological investigations.

BIO 104  Environmental Science: Pollution and Solutions
3 lecture hours, 3 lab hours, 4 credits
Prerequisite: RDG 099 or ENG 104
Course Fees: C, H

This science course emphasizes the impact of human activities on global resources. Topics will include energy sources, air and water pollution, toxicology, global climate change and waste. Lab experiences focus on investigations that help students understand how to minimize their environmental impacts.

BIO 105  Anatomy and Physiology I
3 lecture hours, 3 lab hours, 4 credits
Prerequisites: High school chemistry (or CHM 107 or CHM 111) and high school biology (or BIO 101, BIO 107 or BIO 111) and RDG 099 or ENG 104
Course Fees: C, H

This course presents a comprehensive study of the structure and function of the gross and microscopic organization of the human body. Emphasis is placed on the integumentary, skeletal, muscular and nervous systems. Laboratory experiences include computer-assisted instruction and experimental labs which reinforce contemporary scientific concepts.

BIO 106  Anatomy and Physiology II
3 lecture hours, 3 lab hours, 4 credits
Prerequisite: Minimum grade of “C” in BIO 105
Course Fees: C, H

Building on the concepts of BIO 105, BIO 106 investigates the endocrine, immune, digestive, excretory, respiratory, circulatory and reproductive systems of the human body. Laboratory experiences include computer-assisted instruction and experimental labs that will reinforce contemporary scientific concepts.

BIO 107  Human Biology
3 lecture hours, 3 lab hours, 4 credits
Prerequisite: RDG 099 or ENG 104
Course Fees: C, H

Human biology is a one-semester course designed for students with limited recent experience in biological science. The course explores the structure and function of the human body at both the cellular and organismal levels. Topics of current biomedical and bioethical importance and bioengineering are investigated and discussed.
**BIO 111** Contemporary Concepts in Biology  
3 lecture hours, 3 lab hours, 4 credits  
Prerequisite: RDG 099 or ENG 104  
Course Fees: C, H  
This is a one-semester course that provides a general survey of basic biological theories and modern scientific research. This course includes an introduction to plant and animal diversity, natural selection and molecular biology through interactive laboratory techniques and lectures. This course fulfills the requirements of a general education lab course.

**BIO 112** Introduction to Marine Biology  
3 lecture hours, 3 lab hours, 4 credits  
Prerequisite: RDG 099 or ENG 104  
Course Fees: C, H  
Introduction to Marine Biology is a one-semester course involving the study of the interaction between marine organisms and their physical environment. Topics studied will include marine ecosystems, diversity of marine organisms and the ocean environment, as well as the importance of marine habitats to terrestrial habitats. Laboratory work will include applied science and identification of marine organisms. This course fulfills the requirements of a general education lab science course.

**BIO 113** Economic Botany: Plants and Society  
3 lecture hours, 3 lab hours, 4 credits  
Prerequisite: RDG 099 or ENG 104  
Course Fees: C, H  
Students will explore the scientific research on present and future use of plants and the relationship between plants and people. Topics will include plants known to be useful or those which may have potential uses so far undeveloped. Origins of agriculture, important crop plants, spices, herbal medicines and important plant resources such as wood, bark, latex, tannins, dyers, fibers, resins, oils and waxes will be discussed. Laboratory work will include demonstrations and practical experiments about useful plants. Field experiences will include trips to local farms and gardens that feature economically important plants.

**BIO 115** Introduction to Equine Science  
3 lecture hours, 3 lab hours, 4 credits  
Prerequisites: BIO 116 and RDG 099 or ENG 104 or permission of the instructor  
Course Fees: C, H  
This course presents theoretical and practical scientific knowledge in the study and care of horses. Instruction focuses on anatomy, physiology, behavior, reproduction and nutrition. Laboratory and field experience will develop skills in handling, foot care, feeding, selection and health management of horses. This course is appropriate for students with or without prior academic or practical experience with horses. Laboratory work will include applied science, dissections and field experiences at the Gloucester County Dream Park.

**BIO 116** Animal Science  
3 lecture hours, 3 lab hours, 4 credits  
Prerequisite: RDG 099 or ENG 104  
Course Fees: C, H  
This course presents the fundamental scientific principles underlying animal function and production including the topics of heredity, nutrition, reproduction, physiology, behavior and animal health, as well as current issues related to the animal sciences. Laboratory work will include applied science and field experiences to local farms and animal care facilities.

**BIO 140** Science of Nutrition  
3 lecture hours, 3 lab hours, 4 credits  
Prerequisite: RDG 099 or ENG 104  
Course Fees: C, H  
This course explores nutrition as a scientific discipline. Information on the chemical, biological and metabolic nature of major and minor nutrients will be covered. Food choices and habits will be examined and aspects of clinical nutrition will be introduced. Nutrition research will be explained and how information flows from the lab bench to popular press will be explored. Current popular nutritional thinking will be reviewed and critiqued by reviewing books, movies and written articles.

**BIO 209** Ecology: Principles and Processes  
3 lecture hours, 3 lab hours, 4 credits  
Pre or Co-requisite: BIO 102  
Course Fees: C, H  
This field course, designed for science-emphasis students and those particularly interested in ecology, deals with the interaction of organisms at all levels of the ecosystem. A majority of the laboratory sessions are devoted to the investigation of ecological processes in natural environs.

**BIO 212** Wetlands Field Ecology  
3 lecture hours, 3 lab hours, 4 credits  
Prerequisites: Any lab science and RDG 099 or ENG 104  
Course Fees: C, H, W  
This is the study of the area between dry terrestrial systems and permanently flooded aquatic systems. This is a field course and includes a description of the hydrology and biochemistry of the wetlands found throughout the world. In addition the animals, plants and microscopic organisms of the wetlands will be studied in detail. The human impact and management of wetlands will be discussed. Both lecture and lab will be held at The Wetlands Institute.

**BIO 215** Microbiology  
3 lecture hours, 3 lab hours, 4 credits  
Prerequisite: BIO 102 or BIO 106  
Course Fees: C, H  
This course involves the study of the structure and function of microorganisms including viruses, rickettsiae, bacteria, fungi and protozoa. Molecular aspects of nutrition and metabolism are considered. Emphasis is placed on lab techniques associated with the growth and development of microbial systems. Throughout the course there is a reference to microbial disease and its elicitation of the immunological response.

**BIO 216** Equine Capstone Practicum  
2 lecture hours, 2 lab hours, 3 credits  
Prerequisite: BIO 115  
Course Fees: C, G  
This equine science course integrates didactics, knowledge, skills and experiential learning to allow the student to apply a mastery of fundamental equine science concepts. Hands-on practical experiences at offsite farms will focus on evaluating horses based on confirmation, biomechanics, soundness and suitability for a given discipline, application of nutritional principles, facility and horse management concepts to new situations. Students will develop a portfolio for employability and further educational and career advancement.
BUS – Business

**BUS 101 Introduction to Business**
3 lecture hours, 3 credits
Prerequisite: RDG 099 or ENG 104

 Topics include economic reasons for the different forms of business organization and the relations of the various forms of organization to the economic system based on free private enterprise. Such business problems as promotion, business financing, pricing, internal organization, plant location and layout, personnel management, risk bearing, insurance, failure and reorganization are discussed.

**BUS 102 Accounting I**
4 lecture hours, 4 credits
Pre or Co-requisite: MAT 105

This course provides an understanding of the fundamental principles underlying basic accounting theory and establishes a basis for subsequent accounting courses. Extensive coverage is given to accounting cycles for services and merchandising businesses.

**BUS 103 Accounting II**
4 lecture hours, 4 credits
Prerequisite: BUS 102

A continuation of BUS 102, this course provides a broader foundation and utilization of accounting principles. Extensive coverage is given to problems pertaining to partnerships and corporations.

**BUS 104 Personal and Professional Branding**
1 lecture hour, 1 credit

This course allows students to prepare for their career of choice. The material provided will expose students to the key elements necessary to develop oneself as a professional. The goal of the course and result is that participating students will be able to articulate their value through a resume and cover letter, conduct meaningful job searches, create a web and social media presence and express themselves clearly in an interview.

**BUS 106 Managerial Accounting**
3 lecture hours, 3 credits
Prerequisite: BUS 103

This course provides basic principles of managerial accounting as applied to the manufacturing enterprise. Students will learn the management uses of accounting data for planning, control and decision making emphasized in the study of cost accounting, budgeting and internal reporting procedures.

**BUS 107 Business Law I**
3 lecture hours, 3 credits
Prerequisite: RDG 099 or ENG 104

This course provides the fundamentals of legal liability, the growth of legal institutions and federal and New Jersey court systems. Reference is made to government regulations of business, business torts and business crimes. The principles of the law of contracts, agency and employment are covered.

**BUS 108 Business Law II**
3 lecture hours, 3 credits
Prerequisite: BUS 107

This course covers the legal aspects of business regarding commercial paper, bailments and personal property, partnerships, corporations, sales, real property, estates and bankruptcy. There is special emphasis on the Uniform Commercial Code.

**BUS 129 Introduction to Entrepreneurship**
3 lecture hours, 3 credits
Prerequisites: RDG 099 or ENG 104

This is a course in which students assess the fundamental skills necessary to start and operate their own businesses. This course is designed for students who are in the early planning stages of entrepreneurship or currently own a business but need some additional tips and concepts to help spur growth and profitability. Combining academics, coaching, mentoring and online resources can be the foundation that entrepreneurial small business owners need to develop a successful enterprise.

**BUS 206 Federal Income Taxes**
3 lecture hours, 3 credits
Prerequisite: RDG 099 or ENG 104, MAT 050

This course covers federal income tax laws as applied to the preparation of individual and sole proprietorship returns. Topics include withholding adjustments, declaration of estimated tax and all supporting schedules and forms.

**BUS 207 Accounting Information Systems**
2 lecture hours, 2 lab hours, 3 credits
Prerequisite: CIS 120
Course Fees: A, G, Q

This course is designed to introduce the accounting student to information systems widely used in the accounting environment. Students will utilize QuickBooks Pro Accounting Software and Sage 50 Complete Accounting Software (formerly Peachtree Accounting) to process transactions, prepare reports and navigate through the accounting cycle. In addition, emphasis on the development of efficient spreadsheets as applied to financial and managerial accounting concepts will be implemented.

**BUS 212 Introduction to International Business**
3 lecture hours, 3 credits
Prerequisite: RDG 099 or ENG 104

This course is designed to familiarize the student with the environmental forces, economics, currency differences, and cultural aspects of international business.

**BUS 221 Principles of Marketing**
3 lecture hours, 3 credits
Prerequisite: RDG 099 or ENG 104

The marketing function is at the managerial level. Topics discussed include methods, trends and problems involved in research, development and distribution of goods and services from the producer to the consumer. Emphasis is on product strategy, pricing problems, channels of distribution, promotion and the study of consumer and marketing behavior.
BUS 223  Principles of Selling  
3 lecture hours, 3 credits  
Prerequisite: RDG 099 or ENG 104  

- Techniques involved in personal selling are discussed.  
- Prospecting, planning and executing sales presentations,  
- demonstrations, answering objections, closing sales and  
building good will are considered.

BUS 224  Social Media Marketing and Web Analytics  
LECTURE/LAB HOURS/CREDITS: 2 Lecture/ 2 Lab Hours/ 3 Credits  
Prerequisite: RDG 099 or ENG 104  

- This course provides hands-on instruction on the effective use of  
- social media, online marketing, and social networking. Students learn  
- to use search engine optimization, email marketing, and performance  
- analytics. These tools will position students to construct marketing  
- plans that will increase business visibility and success in the  
- marketplace. This course also provides opportunities for students to  
- obtain highly valued certifications, such as Google Analytics, at no  
- additional cost.

BUS 225  Principles of Advertising  
3 lecture hours, 3 credits  
Prerequisite: RDG 099 or ENG 104  

- This course is a study of the principles, techniques and trends  
- in advertising as creative promotional strategy. Discussion includes  
- effective media selection, budget, copy, social responsibility and  
- the control of advertising.

BUS 231  Principles of Management  
3 lecture hours, 3 credits  
Prerequisite: RDG 099 or ENG 104  

- This course is an introduction to the planning, organizing,  
- directing and controlling functions of the management process.  
- Topics include formulating plans and objectives, decision making,  
- organizational structures, authority, staffing, leadership, motivation  
- and communication.

BUS 234  Small Business Management  
3 lecture hours, 3 credits  
Prerequisites: BUS 231  

- Provides complete coverage of small business operations with  
- proper balance between business functions and management  
- functions. Topics include how to obtain financing, how to evaluate a  
- business that is for sale, how to market a small business, how to  
- prepare a business plan as well as how to recognize business  
- problems and develop solutions.

BUS 237  Human Resource Management  
3 lecture hours, 3 credits  
Prerequisite: RDG 099 or ENG 104  

- This course covers implications of human resource planning,  
- recruiting, selecting, training and evaluating. Emphasis is on  
- motivation, leadership activities and labor relations in the culturally  
- diverse workplace.

BUS 239  Organizational Behavior  
3 lecture hours, 3 credits  
Prerequisite: BUS 231  

- This course examines the understanding of human behavior  
- and how organizations can develop a culture built on the principles  
- of cooperation, support and respect. Topics include impact of  
- individual differences, application of learning theories to improve  
- employee performance, effects of stress on the workplace, conflict  
- management and how culture can affect organizational change.

BUS 241  Business Ethics  
3 lecture hours, 3 credits  
Prerequisite: BUS 231  

- This course examines the understanding of corporate  
- responsibility, the implications of managers’ and employees’ actions  
- and laws that apply to people and organizations. Topics include  
- the legal and moral responsibilities of managers, managing ethical  
- conduct, ethical decision making, case studies and ethics as it relates  
- to the organization.

BUS 243  Organizational Development  
3 lecture hours, 3 credits  
Prerequisite: BUS 231  

- This course examines how organizations can better adapt  
- to their external environments by applying different methods to  
- influence change. Topics include strategically affecting cultural  
- change within an organization, constructing plans to support a  
- new organizational vision and analyzing case studies to  
- evaluate effectiveness.

CEP – Internship Career Connections  

Students must apply for Internship Career Connections prior to  
registering for the course. Contact the Business Division for more  
information at extension 2157.

CEP 200  
CEP 203  
CEP 204  
CEP 208  Cooperative Education Work Experience  
for Automotive Technology Program  
Seven to 13 hours per week, supervised employment  
for 10-week internship  
1 credit  
Prerequisites: 2.000 GPA, AUT 110, AUT 111 and AUT 135  
and acceptance into the program  
Course Fee: C  
See description following.

CEP 211  Internship Career Connections  
1 lecture hour, 150 hours employment, 3 credits  
Prerequisites: 2.000 GPA, completion of 30 credits and  
selection for participation in the program  

- This program is designed for students who aspire to gain career-  
- related experience while completing their degree. The Internship  
- Career Connections Program consists of an academic experience  
- and a supervised work experience. Students will interview for  
- available positions and if selected for the program, will register  
- for the class and attend a mandatory orientation. The program i  
- s also open to those students who are already working in a career-  
- related position, given their participation in the academic component  
- of the course and the willingness of their employer to structure the  
- job as a Internship Career Connections.
CET – Civil Engineering Technology

CET 101 Introduction to Materials
3 lecture hours, 3 credits
Prerequisite: RDG 099 or ENG 104
This course is a study of the production, composition and properties of important metals and selected alloys and the effects of thermal and mechanical treatments on their structure and serviceability for architectural and engineering products. The properties and suitability of materials such as wood, steel, non-ferrous metals, bituminous materials, mineral aggregates, lime products, concrete, glass, masonry and brick for architectural and engineering purposes are studied. The proper selection, sampling and testing of engineering materials for mechanical properties will be discussed. Particular emphasis will be on materials that, by their nature, contribute to energy efficient construction techniques. These studies will focus on new and traditional products.

CET 108 Introduction to Surveying
2 lecture hours, 3 lab hours, 3 credits
Prerequisite: MAT 110
Course Fees: B, H
This course is a systematic study of the basic principles of plane surveying. Topics include field practice, office procedures and familiarization with various surveying instruments (transit, theodolite, EDM, total station, automatic-level and laser-level). Traversing, triangulation and leveling are also studied.

CET 201 Codes, Contracts and Specifications
3 lecture hours, 3 credits
Prerequisite: RDG 099 or ENG 104
This course is a study of business and professional relations in architecture and engineering. Topics include law of contracts, torts, agency, the independent contractor, real property liens, partnerships and corporations. Also included are litigation, arbitration of disputes, labor laws in construction work, bidding procedures and specification writing.

CET 203 Applied Statics
3 lecture hours, 3 credits
Prerequisite: MAT 110
This course includes the study of forces as vectors acting upon bodies and structural elements. Analytic and graphic methods are used to examine resultants and reactions, equilibrium, centroids and centers of gravity and moments of inertia as applied to static structures.

CET 204 Structural Systems
2 lecture hours, 3 lab hours, 3 credits
Prerequisite: CET 203
Course Fees: B, H
This course applies principles of statics to the analysis and design of structural steel reinforced concrete structures. Detailing of simple structures and connections between members of steel structure are studied.

CET 205 Applied Strength of Materials
3 lecture hours, 3 credits
Prerequisite: CET 203
This course studies elasticity and simple stresses of steel, wood and concrete. Topics include shear and moment diagrams, evaluation of riveted and welded connections and the study of axial and eccentrically loaded columns.

CET 206 Evidence and Procedures for Boundary Location
3 lecture hours, 3 credits
Prerequisite: CET 108
This course presents a systematic study of the applications of the laws of boundaries and evidence necessary for boundary determination. The history and development of land boundaries, the surveyor's role in court, court procedures and legal elements of surveying are studied.

CET 207 Hydraulics
3 lecture hours, 3 credits
Prerequisite: MAT 110 or equivalent
This course is a study of the behaviors and properties of fluids under static and dynamic conditions. Attention is given to buoyancy and stability of floating bodies. The use of Bernoulli's equation for calculations of flow through pipes, orifices and open channels is covered.

CET 208 Route and Construction Surveying
2 lecture hours, 3 lab hours, 3 credits
Prerequisite: CET 108 or equivalent
Course Fees: B, H
This course is a systematic study of road layout including parabolic curves, circular curves and cross-sections. Field and office practices in various methods of establishing horizontal and vertical control for mapping and planning as applied to different construction projects are discussed. Other topics include determination of earth quantities, slope staking and the use of the stereometer in interpreting aerial photographs. Students receive hands-on experience with various surveying instruments, data collectors and computers to develop skills in the field-to-finish concept for surveying and engineering operations.

CET 209 Cost Estimating
3 lecture hours, 3 credits
Prerequisite: CET 201
This course provides theoretical and practical experience in developing contract documents, detailed estimates and bill of materials of a construction job. Emphasis is on factors contributing to the contract including permits and specifications, local taxation and overhead and profit.

CET 210 Advanced Hydraulics
3 lecture hours, 3 credits
Prerequisite: CET 207
This continuation of CET 207 is a study of viscosity, energy losses and flow in non-circular cross sections. The principles of hydraulics will be applied in open channels, flow measurements and selection of pumps.

CET 211 Foundations of Planning and Environmental Design
3 lecture hours, 3 credits
Prerequisite: ENG 101
This course presents an overview of the field of planning as practiced in today's American Society. Topics include the history and development of planning, the politics of planning, planning analysis and implementation, urban design, collaborative planning and environmental design. Emphasis is placed on the changing trends of planning, including green urbanism, sustainable communities and participatory planning.
CGA – Computer Graphic Art

CGA 103  Design, Color and Type
2 lecture hours, 2 lab hours, 3 credits
Prerequisite: RDG 099 or ENG 104
Course Fees: B, G

This design and type course will focus on developing a student's awareness of design elements including line, shape, value, color, texture and space. The design principles of balance, proximity, alignment, unity, emphasis and rhythm will be covered. Design concepts will be considered as they affect the fine arts, crafts and commercial arts. Lettering explores the basic forms of hand lettering. The course will cover an overview of typography and issues of design with type. Typography covers basic type classifications and usage including the study of selection of proper type for specific purposes.

CGA 115  Foundations of Computer Graphic Arts
3 lecture hours, 3 credits
Prerequisite: RDG 099 or ENG 104
Course Fee: B, G

This introductory course provides a basic knowledge of the creating and processing of visual art with the computer. Students gain knowledge of terminology and hands-on experience with computer graphics software and hardware, including the use of a mouse, digital tablet and scanner to create original art designs. Students gain a basic knowledge of theory in computer graphics art and demonstrate mastery of the use of basic menus, commands and tools of computer graphic arts software.

CGA 118  Introduction to Animation
2 lecture hours, 2 lab hours, 3 credits
Prerequisite: CGA 103
Course Fees: B, G

In this course, students will learn to use the five primary media types (text, graphics, sound, animations, and video) to create dynamic and visually rich games and interactive products. The focus of the course will be game/interactive media theory, basics of animation, and correct preparation of text and graphics in game/interactive authoring tools. Practical real projects, completed in a computer lab setting, will be created to support student learning.

CGA 120  Introduction to Electronic Publishing and Typography
2 Lecture Hours, 2 Lab Hours, 3 Credits
Prerequisite: CGA 103
Course Fees: B, G

In this course students will be introduced to the fundamentals of using computer-based publishing tools, and terminology. Students will be able to apply typographical formatting, integrate and manipulate graphics with text, and print documents to black and white or color printers. Students will master the basic menus, and commands. All lecture topics are supported by a lab component.

CGA 130  Video and Audio Editing
2 lecture hours, 2 lab hours, 3 credits
Prerequisite: CGA 103
Course Fees: B, G

This course introduces students to the concepts and practice of editing video and audio with professional level software tools. Students will understand organizing media, add audio, create transitions, produce titles and add effects. Students will also learn to edit audio files. Students will understand how to export video and audio for different uses.

CGA 212  Screen Graphics
2 lecture hours, 2 lab hours, 3 credits
Prerequisite: CGA 103
Course Fees: B, G

This course provides instruction on methods of creating graphics for use in web page(s), website design, game design and/or mobile screen design. Students will be introduced to principles of interactive design concepts. Concepts include the issues of resolutions, vector vs. raster graphics, correct use of type and color and creation of graphics used in animations for the screen and web.

CGA 215  Electronic Illustration I
2 lecture hours, 2 lab hours, 3 credits
Prerequisite: CGA 115
Course Fees: B, G

In this course, students learn to use a vector drawing program to create graphics on the computer. Focus is on creating object-oriented drawings using type effects, Bezier drawing tools, gradients, symbols, colors and correct use of file formats. Students create drawings for print, screen and the Web and demonstrate a mastery of the use of the basic menus, commands and tools of electronic illustration software.

CGA 217  Electronic Image Processing
2 lecture hours, 2 lab hours, 3 credits
Prerequisites: CGA 103 and ART 131
Course Fees: B, G

This course introduces the use of image editing software. Students learn how to scan an image using the correct resolution functions, save files to appropriate formats and retouch and merge photographs. Color correction, organization of images on layers, printing, prepress issues and color management will be discussed. Creation of images for the web and screen display are discussed. Students will demonstrate a mastery of the use of the basic menus, commands and tools of the image manipulation software.

CGA 218  Game and Interactive Authoring
2 lecture hours, 2 lab hours, 3 credits
Prerequisites: CGA 103 and CGA 118
Course Fees: B, G

This course introduces advanced techniques for authoring games and interactive design projects. Students learn advanced tools and begin to use professional design tools to design prototype games and interactive products and apply interface design principles. Students utilize a computer lab setting to complete projects that demonstrate the use of the skills and techniques learned in this class.

CGA 219  Web Design
2 lecture hours, 2 lab hours, 3 credits
Prerequisites: CGA 103 and CGA 212
Course Fees: B, G

This course introduces students to the concepts and practice of creating web pages using a web design software tool. Students will understand the basic concepts of web design including navigation, links, graphics and web site structures.

CGA 220  Advanced Electronic Publishing
2 lecture hours, 2 lab hours, 3 credits
Prerequisite: CGA 120
Course Fees: B, G

In this course, students use advanced publishing software and generally tools to design publications on a computer. All aspects of the tools will be covered, including importing text and graphics, four-color process, spot color, appropriate file management and preparing documents for output to a service bureau. Students demonstrate a mastery of the use of the basic menus, commands and tools of electronic layout software.
CHI – Chinese

CHI 101 Elementary Chinese: Mandarin
3 lecture hours, 3 credits
Prerequisite: RDG 099 or ENG 104

Introductory basic conversation and pronunciation form the basis of this course, designed to develop communication skills in the Chinese Mandarin dialect. Listening and speaking exercises, oral conversation and dictation are points of departure.

CHM – Chemistry

CHM 107 Introductory Chemistry
3 lecture hours, 3 lab hours, 4 credits
Prerequisites: MAT 050 or MAT 051 or appropriate score on Algebra section of Placement Exam and RDG 099 or ENG 104
Course Fees: C, H

This course introduces basic principles of chemistry. Topics include measurement, problem solving, matter and energy, physical and chemical properties and changes of matter, properties of gases, elementary atomic theory, chemical periodicity, chemical nomenclature, chemical transformations, bonding and Lewis structures, the mole concept and stoichiometry. This course satisfies the general science requirement for non-science majors, including students planning a career in the Allied Health professions. An elementary understanding of high school mathematics with emphasis on algebra is essential.

CHM 111 General Chemistry I
3 lecture hours, 3 lab hours, 4 credits
Prerequisites: High school chemistry or CHM 107 and MAT 105 and RDG 099 or ENG 104
Course Fees: C, H

Elementary atomic and molecular structure of matter are studied with emphasis on chemical bonding, periodic law, stoichiometry, kinetic theory, the gas laws and appropriate descriptive chemistry. The basic laboratory work supports lecture topics.

CHM 112 General Chemistry II
3 lecture hours, 3 lab hours, 4 credits
Prerequisite: Minimum grade of "C" in CHM 111
Course Fees: C, H

This continuation of CHM 111 covers solutions, kinetics, equilibrium, oxidation-reduction, electrochemistry, nuclear chemistry, systematic treatment of metals and nonmetals, thermochromy and a brief introduction to organic chemistry. The laboratory exercises support lecture topics.

CHM 201 Organic Chemistry I
3 lecture hours, 3 lab hours, 4 credits
Prerequisite: CHM 112
Course Fees: C, H

This course is a study of the reactions, nomenclature, molecular structure and properties of organic compounds. Functional groups are studied with an emphasis on the mechanisms of their reactions. Hydrocarbons, alkyl halides, alcohols and ethers are studied in detail. Laboratory sessions involve practice in modern organic procedures including syntheses of organic compounds and analyses using wet and instrumental methods such as infrared spectroscopy, ¹H and ¹³C nuclear magnetic resonance spectroscopy, ultraviolet spectroscopy, polarimetry and refractometry.

CHM 202 Organic Chemistry II
3 lecture hours, 3 lab hours, 4 credits
Prerequisite: CHM 201
Course Fees: C, H

This course is a continuation of Organic Chemistry I. It is a further study of the nomenclature, molecular structure, properties and mechanisms of reactions of the major functional groups. Radical reactions, the reactions of conjugated and aromatic compounds and those of carbonyl compounds and amines are studied in detail. The latter part of the semester focuses on carbohydrates, lipids, proteins and nucleic acids. Laboratory sessions involve practice in modern organic procedures including syntheses of organic compounds and analyses using wet and instrumental methods such as infrared spectroscopy, ¹H and ¹³C nuclear magnetic resonance spectroscopy, ultraviolet spectroscopy, polarimetry and refractometry.

CHM 215 Environmental Chemistry
3 lecture hours, 3 lab hours, 4 credits
Prerequisites: CHM 112, BIO 120
Course Fees: C, H

This course involves a study of atmospheric, water, and soil chemistry as well as the associated air, water, and soil pollution. Specific topics may include the greenhouse effect, climate change, fossil fuels, renewable energy technologies, and toxic organic compounds like pesticides and dioxins. The basic laboratory work supports lecture topics.

CIS – Computer Information Systems

CIS 102 Introduction to Computers
3 lecture hours, 3 lab hours, 4 credits
Prerequisite: RDG 099 or ENG 104
Course Fees: A, H

This course provides a solid foundation for further study in any of the computer information programs. Topics include facets of obtaining timely and accurate information through the use of contemporary computer systems, hardware concepts for first-time users and hands-on experience with modern software during the computer labs. The Microsoft Office Professional for Windows software package — including Word, Excel, Access and PowerPoint — is used to solve a variety of business problems.

CIS 110 Fundamentals of Programming
3 lecture hours, 3 lab hours, 4 credits
Prerequisite: RDG 099 or ENG 104
Course Fees: A, H

This course uses an object oriented, event-driven language to teach fundamental programming concepts. Students with no previous programming experience learn to plan and create interactive Windows applications. Key programming concepts include how to work with various controls and write If...Then...Else, Select/Case, Do...Loop and For...Next statements as well as how to create and manipulate variables, constants, sequential access files and arrays. Graphical User Interface design skills are emphasized. Students will be able to develop a variety of business-related programming applications.

CIS 120 Spreadsheets — Excel
3 lecture hours, 3 lab hours, 4 credits
Prerequisite: RDG 099 or ENG 104
Course Fees: A, H

This course is a comprehensive presentation of the Microsoft Excel for Windows spreadsheet application software package. The course covers all of the important features of Excel from basic spreadsheet design and creation through formulas, functions, charts, solver, data tables, multiple worksheets, goal seeking and what-if analysis.
CIS 151  Web Development – HTML/CSS
3 lecture hours, 3 lab hours, 4 credits
Prerequisite: RDG 099 or ENG 104
Course Fees: A, H

The course presents the concepts and techniques used in the design, development, and testing of web pages created with Hyper Text Markup Language (HTML) and Cascading Style Sheets (CSS). The course also introduces the student to JavaScript programming. Students will work with HTML/CSS design and code generating software.

CIS 154  Advanced Web Development
2 lecture hours, 2 lab hours, 3 credits
Prerequisite: CIS 151
Course Fees: A, G

This course presents the process of designing and developing web sites from conception through the publication. The design techniques for mobile, tablet and desktop devices as well as graphic design, audio/video integration and social media interactivity. Students gain valuable hands-on lab experience using web-authoring software.

CIS 200  Principles of Information Security
3 Lecture, 3 Credits
Prerequisite: RDG 099 or ENG 104

Examines the field of information security to prepare information systems students for their roles as business decision-makers. A balance of the managerial and technical aspects of the discipline is presented. Information security within a real-world context is included in this course.

CIS 207  Management Information Systems
2 lecture hours, 2 lab hours, 3 credits
Prerequisites: CIS 102 and (BUS 103 or CIS 210 or ECO 100 or ECO 101)
Course Fees: A, G

This course introduces students to information systems and demonstrates how these systems are used throughout organizations. In addition to a survey of information systems, students will gain hands-on experience with software tools applied to business data analysis and database management as well as business process execution.

CIS 210  Relational Databases
3 lecture hours, 3 lab hours, 4 credits
Prerequisite: CIS 102
Course Fees: A, H

This course presents the fundamental concepts of database management systems. It covers the methods and procedures used in design and development of relational databases. The Entity-Relationship modeling tool and the normalization process will be utilized during the design phase. Students will implement their designs as they develop actual database management systems using Microsoft Access.

CIS 220  IT Help Desk/Technical Support
2 lecture hours, 2 lab hours, 3 credits
Prerequisite: CIS 102
Course Fees: A, G

This course will introduce students to the skills necessary for a computer user support technician. Troubleshooting, user support management and customer service communication techniques will be addressed. Topics will also include the areas of technical support software, project management and networking essentials fundamentals.

CIS 251  Web Programming
2 lecture hours, 2 lab hours, 3 credits
Prerequisites: CIS 110 and CIS 151
Course Fees: A, G

This course presents the fundamentals of creating real-world Web applications using JavaScript. The course provides hands-on experience in the detailed coverage of foundation concepts of programming, such as objects, properties, events, expressions, arrays, loops and conditional statements.

CIS 264  Database Applications Development
2 lecture hours, 2 lab hours, 3 credits
Prerequisites: CIS 151 and CIS 210
Course Fees: A, G

This course presents the features and concepts of dynamic websites which are driven by a relational database management system. Students will also acquire the skills and techniques needed to build and deploy dynamic web applications that interact with a powerful database.

CMA – Certified Clinical Medical Assistant

CMA 101  Foundations in Medical Assisting
3 lecture hours, 3 credits
Prerequisite: RDG 099 or ENG 104

Course requires a final grade of “C” or better to progress in the CCMA program

This course provides Certified Clinical Medical Assistant (CCMA) program students with an introduction to the profession of clinical medical assisting. The course explores the qualifications, duties and the team role of the medical assistant in primary care settings. The course topics focus on healthcare industry professions, medical law and ethics of the profession, multidisciplinary teamwork, professionalism, personal and patient safety and the importance of effective interpersonal communication skills.

CMA 103  Structure of the Human Body I
2 lecture hours, 2 credits
Prerequisite: RDG 099 or ENG 104

Course requires a final grade of “C” or better to progress in the CCMA program

This course introduces the medical assistant student to the fundamental structure of the human body. The medical terminology as it applies to each body system along with directional terms are integrated throughout course. Diagnostic procedures, disease and treatments related to the circulatory, lymphatic, integumentary, urinary and immune systems are covered in this course.

CMA 104  Structure of the Human Body II
2 lecture hours, 2 credits
Prerequisites: “C” or better in CMA 103

Course requires a final grade of “C” or better to progress in the CCMA Program.
Co-requisites: CMA 110, CMA 118, CMA 125

This course is continuation of Structure of the Human Body I. Students will build upon their understanding of the human body through the integration of terminology, diagnostic procedures, disease and treatments as they relate to endocrine, muscular, nervous, reproductive, and skeletal body systems. Basic medical terminology and legal terms used in the healthcare profession will also be discussed.
This course presents fundamental knowledge and skills for the medical assistant. Components of the course include safety in the workplace, patient care skills including history intake, vital signs and professional communication.

This course assists students in preparation of ECG/EKG equipment, proper lead placement and other clinical introduction to the function of performing ECG/EKG, proper use will practice with equipment and perform hands on labs including electrocardiography and echocardiography. Additionally, students heart, cardiac related disease processes, medical terminology, perform an ECG/EKG examination to assess various heart rhythms. [Certified EKG Technologist-CET].

This course has CCMA Program students gain further skills and competencies that are required for practice. Emphasis is on total care of patient from roaming to discharging a patient in various healthcare environments.

This course has CCMA Program students gain further skills and competencies that are required for practice. Emphasis is on total care of patient from roaming to discharging a patient in various healthcare environments.

This course provides a study of basic principles of pharmacology as it applies to the medical assistant. Pharmacologic principles and classifications, with attention to specific body systems and medication administration will be discussed. Applicable legal and ethical responsibilities, mathematical systems and dosage calculations as related to the role of the medical assistant will be integrated throughout the course. This course assists students in preparation for the national credentialing exams for entry-level medical assistants.

This course provides students with the knowledge and skills related to the medical office duties of the medical assistant. Course focuses procedures involved in creating and maintaining accurate medical documentation, especially with regards to patient records, procedural and diagnostic coding, insurance claim forms and other healthcare documentation.

This course will provide students the necessary skills to accurately perform an ECG/EKG examination to assess various heart rhythms. The course includes information on anatomy and physiology of the heart, cardiac related disease processes, medical terminology, medical ethics, legal aspects of patient contact, laboratory assisting electrocardiography and echocardiography. Additionally, students will practice with equipment and perform hands on labs including introduction to the function of performing ECG/EKG, proper use of ECG/EKG equipment, proper lead placement and other clinical technician practices. This course assists students in preparation for the national credentialing exams for entry-level medical assistants [Certified EKG Technologist-CET].

This course is designed to prepare students in fundamental aspects of phlebotomy training including collecting, transporting, handling and processing blood specimens for analysis while adhering to all aspects of quality control and infection control safety policies. This course assists students in preparation for the national credentialing exams for entry-level medical assistants.

This course provides students with the knowledge and skills related to the medical office duties of the medical assistant. Course focuses procedures involved in creating and maintaining accurate medical documentation, especially with regards to patient records, procedural and diagnostic coding, insurance claim forms and other healthcare documentation.

This course has CCMA Program students participate in a clinical learning experience at an affiliated learning location. Students will perform ECG/EKG examinations on actual patients in healthcare facilities.

This course has CCMA Program students participate in a clinical learning experience at an affiliated learning location. Students will perform ECG/EKG examinations on actual patients in healthcare facilities.

This course focuses on compositions clear, concise and effective business correspondence. Students will discuss various types of communication media and the importance of succinct written and oral expression to modern business interactions. Students will have extensive practice writing a wide spectrum of documents, including professional emails and reports. Additionally, the course will discuss effective planning and delivery strategies for professional oral presentations.
equity issues, and consumer behavior, among many other aspects.

This course introduces the principles and mechanics of technical and scientific writing for persons studying or working in technologies or the sciences. Students will learn specific communications skills associated with reporting technical information and will write a series of papers ranging from process description and feasibility reports to a research project, to be reported orally.

COM 106 Essentials of APA Documentation
1 lecture hour, 1 credit
Prerequisite: ENG 101 or ENG 101E

This course will cover all aspects of the American Psychological Association documentation format. Students will learn APA documentation of in-text citations and reference pages as well as correct margins, spacing, headers, title pages, footnotes and avoidance of plagiarism. The student will take a series of open book quizzes, create an annotated bibliography and write a research paper.

COM 115 Sports Communication, Culture, and Identity
Prerequisite: ENG 101

This course focuses on how race, class, gender, sexuality, and ability are viewed and discussed in athletics and their relationship to athletic performance. Concentrating on examining various areas in the field, the class will address depictions of athletes in the media, equity issues, and consumer behavior, among many other aspects.

COM 140 Internet Research and Communications
3 lecture hours, 3 credits
Prerequisite: ENG 101 or ENG 101E

This course provides an introduction to Internet services and resources for communication, collaboration and research. COM 140 is currently listed as a communications elective for students pursuing a Communications Option degree, one of RCSJ's top-ten programs by enrollment.

COM 150 Argumentative and Persuasive Writing
3 lecture hours, 3 credits
Prerequisites: RDG 099 or ENG 104 and ENG 101 or ENG 101E

This course provides students with extensive practice in composing and reading argumentative writing. Students will learn specific theories of persuasion and reasoning and will apply this knowledge to their own compositions. They will read and evaluate the persuasive logic of professional writers as well as their peers.

COM 201 Journalism I
3 lecture hours, 3 credits
Prerequisite: ENG 101 or ENG 101E

This course covers the basics of newspaper style, methods of writing leads and news stories and the ethical and legal responsibilities of the press in a free society.

COM 205 Feature Writing
3 lecture hours, 3 credits
Prerequisites: COM 201 and ENG 101 or ENG 101E

This course in non-fiction writing teaches the novice writer to write and market effective article manuscripts. Students evaluate selected newspaper and magazine markets, write query letters to editors and research, write and submit articles to self-chosen publications. They conduct readability-level tests on self-written articles and on occasion, share manuscripts with other students.

COM 206 Creative Writing: Nonfiction
3 lecture hours, 3 credits
Prerequisite: ENG 101 or ENG 101E

In this course students will study creative nonfiction works and write several short essays/articles, sharing them with the class. Specifically, this course will cover the memoir, personal essay, profile, review, travel writing and feature writing. The course will emphasize the creative nonfiction contract writers have with their readers.

COM 207 Creative Writing: Fiction
3 lecture hours, 3 credits
Prerequisite: ENG 101 or ENG 101E

Students study a variety of short fiction for story structure and write several short stories. Students also share portions of their stories in progress, demonstrating for example, narrative point-of-view, dialogue and significant setting. They prepare at least one story for submission to a magazine or literary journal.

COM 208 Creative Writing: Poetry
3 lecture hours, 3 credits
Prerequisite: ENG 101 or ENG 101E

Students study a variety of poems for their poetic structure and write a series of poems in the narrative, dramatic and lyric forms. Students also share their poems in progress, demonstrating for example, figurative language, sound sequence, meter and stanzic patterns. They prepare at least three poems for submission to a magazine or literary journal.

COM 210 Film History and Appreciation
3 lecture hours, 3 credits
Prerequisite: RDG 099 or ENG 104

Film History and Appreciation explores 50 years of the art and impact of one of the most persuasive, pervasive information delivery systems ever invented. By viewing and discussing a wide array of clips and full episodes of programming (many from the earliest days of the medium), students will assess the significance of the foundation of all entertainment and informational programming. Furthermore, students examine how television has affected American society and how American society has affected television.

COM 212 TV History and Appreciation
3 lecture hours, 3 credits
Prerequisite: RDG 099 or ENG 104

TV History and Appreciation is a foundation course for Radio, Television and Film students and a prerequisite for future production courses. This course will focus on the decade of the 1950s in which the structure of American commercial television developed. Students will explore the art and impact of one of the most pervasive information delivery systems ever invented. Students will discuss the evolution of some of today’s most popular and influential programming. The cultural, economic and regulatory decisions that shaped the medium will be discussed. Students will also analyze primetime TV’s portrayal of the American family, gender roles, violence, politics and the legal law enforcement and medical professions.

COM 214 Journalism Workshop I
3 lecture hours, 3 credits
Prerequisite: COM 201

This course provides practical experience in journalism. Students serve as staff members of the campus newspaper and gain practical experience in gathering news; writing leads, news stories and headlines; editing; proofreading; and learning other aspects of newspaper publication. Students also attend seminars on journalism and work on special projects to be assigned by the instructor.
COM 216 Foundations of Media Production
2 lecture hours, 2 studio hours, 3 credits
Prerequisite: ENG 101 or ENG 101E

This introductory course will familiarize students with filmmaking techniques in preparation for more advanced production courses. Through a series of assignments and hands-on laboratory production exercises, students will employ a range of media production techniques designed to provide practical experience with collaboration, pre-production planning, DSLR camera operation, lenses, composition, lighting and editing during the post-production process to create a final film project.

COM 217 Applied Media Aesthetics
3 lecture hours, 3 credits
Prerequisite: RDG 099 or ENG 104

Applied Media Aesthetics is a foundation course for Radio, Television and Film students and a prerequisite for future production courses. It is designed to introduce students to universally applicable aesthetic principles and terminology of media production through lectures, media examples and non-production projects. Students will identify, discuss and evaluate media elements and their reactions to them. These elements include lighting, color, screen space, time, motion, sound, editing and storytelling.

COM 219 The Television Industry
3 lecture hours, 3 credits
Prerequisite: RDG 099 or ENG 104

This course will focus on the examination of the history, structure, regulation, programming and business models of television. Students will explore the forces that affect and drive the entire content delivery business and become familiar with industry terminology. Students will also explore the role of the FCC, the anatomy of various video delivery systems, (broadcast, cable, satellite, streaming, etc.), the relationship between networks and affiliated stations, generation of revenue and the use of audience measurement.

COM 220 Mass Media
3 lecture hours, 3 credits
Prerequisite: ENG 101 or ENG 101E

This course offers an opportunity to investigate, evaluate and appreciate the operation and impact of various forms of mass media and provides insight into the media’s daily influence on consumers, politics, education and cultures.

COM 225 Why We Write: Writing for Elementary Students
3 Lecture Hours, 3 Credits
Prerequisite: ENG 102

This course prepares education majors to facilitate the writing workshop approach in the elementary classroom to increase young writers’ abilities in the writing crafts. The course will introduce education majors to ways to utilize formative and summative assessment methods to assist struggling writers in their own classroom. Utilizing best practices through mini lessons and conferences, education majors will learn how to assist emerging writers through a writing workshop approach.

COS – Counseling/College Studies

COS 102: College and Career Planning
1 lecture hour, 1 credit
Catalog Description
Prerequisite: none

The purpose of this course is to promote academic success, retention and personal enrichment. The student will explore career options, set meaningful academic and career goals, develop essential skills such as information literacy and health advocacy skills, and engage in academic behaviors and study strategies that will help the student communicate effectively for personal and professional success.

COS 103 Student Success
3 lecture hours, 3 credits
Prerequisite: Placement in this course is based on basic skills test results

This course provides an orientation to the RCSJ campus resources and academic skills necessary for the student to achieve his/her educational goals. A strong emphasis is placed on the exploration of campus facilities and services. The course focuses on study skills, library skills, self-assessment, wellness, goal-setting, critical thinking and decorum appropriate for students in a college learning environment.

CRJ – Criminal Justice

CRJ 101 Introduction to Criminal Justice
3 lecture hours, 3 credits
Prerequisite: RDG 099 or ENG 104

This introduction provides an overview of the three major components of the criminal justice system: the police, courts and corrections. It surveys the criminal justice process from initial law enforcement contact through the judicial and correctional phases. In addition to an examination of the roles of the police, courts and corrections, the professional and career opportunities in the criminal justice field will also be explored.

CRJ 201 Criminal Law
3 lecture hours, 3 credits
Prerequisite: RDG 099 or ENG 104

This is an introduction to the origin and function of the substantive criminal law. Students review and analyze elements of major offenses of common law and under modern penal codes and the available defenses and review leading judicial interpretations of penal codes.

CRJ 205 The Administration of Justice
3 lecture hours, 3 credits
Prerequisite: RDG 099 or ENG 104

This is a study of legal concepts and procedures from the time of arrest to the time of release or appeal, to conviction of crime. It focuses on trials, indictments, information, bail, grand juries and petit juries.

CRJ 215 Introduction to Criminology
3 lecture hours, 3 credits
Prerequisite: SOC 101 or SOC 102, SOC 104

This course provides an overview of crime and criminals; the nature and extent of crime in the U.S.; causes of crime and criminality; the development of law and our criminal justice system; characteristics and treatment of criminals; patterns of criminal behavior; the impact of crime in our society; an overview of early criminological theories and contemporary sociological, psychological and psychiatric approaches to explaining criminal behavior.

CRJ 225 Community Policing and Crime Analysis
3 lecture hours, 3 credits
Prerequisite: RDG 099 or ENG 104

This is an overview of community policing and its major components (problem-solving, community partnerships and organizational transformation) and its systematic approach to policing as a philosophy or a program. It introduces theories practiced today with the transformation of police services. In addition it covers new developments affecting crime analysis and forecasting.
CRJ 230 Violent Crime in America
3 lecture hours, 3 credits
Prerequisite: RDG 099 or ENG 104
This course studies violence and crime in America through historical perspectives, theory, diverse acts of violence, the media and statistical trends. Specific violent crimes, such as homicide, family violence, sexual assault, workplace violence, hostage-taking and serial crimes are surveyed. Acts of official violence, such as capital punishment and police brutality, are examined, along with their impact on society.

CRJ 238 Crime on the Internet
3 lecture hours, 3 credits
Prerequisite: RDG 099 or ENG 104
This course examines the Internet as a new crime environment for the twenty-first century. Investigation and prosecution of computer crime as well as security issues are studied.

CRJ 250 Constitutional Issues in Criminal Justice
3 lecture hours, 3 credits
Prerequisite: RDG 099 or ENG 104
This course is a review and analysis of important Supreme Court decisions involving contemporary practices of law enforcement agencies and the conduct of criminal court procedures. Emphasis is on the Supreme Court’s impact on such critical issues as search and seizure, confessions, wire-tapping and admissibility of evidence at trial.

CRJ 261 Organized Crime in America
3 lecture hours, 3 credits
Prerequisite: RDG 099 or ENG 104
This course examines the attributes, causes and historical antecedents of organized crime and its members. Emphasis is on the make-up of various organizations, including rank structure, initiation ceremonies and criminal activity. Further discussion focuses on law enforcement response to organized crime and its impact on society.

CRJ 262 Domestic and International Terrorism
3 lecture hours, 3 credits
Prerequisite: RDG 099 or ENG 104
This course examines the definitions, typologies, historical antecedents and morality of terrorism. Discussions involve domestic and international terrorism, groups involved, justifications and manifestations. Emphasis is on the impact on the international community, law enforcement response and the political ramifications. Selected case studies are examined.

CRJ 270 Internship in Law Enforcement/Criminal Justice
1 lecture hour, 150 internship hours, 3 credits
Prerequisites: 30 college credits/12 in major; 3.00 GPA or higher; Law Enforcement or Criminal Justice major
This internship is for Law Enforcement/Criminal Justice majors and familiarizes prospective practitioners with the philosophies and practices of law enforcement/criminal justice while serving as unpaid interns in host agencies. The course is designed to provide students the opportunity to interact with law enforcement/criminal justice professionals in a work environment. The purpose of the course is to facilitate student experience in the nexus between law enforcement/criminal justice theory and practice. Internships will be completed in one approved setting, including, but not limited to: federal, state, county and local law enforcement, juvenile and adult corrections, prosecutor’s offices, public defenders, emergency response centers, the state judiciary and others.

CSC – Computer Science

CSC 101 Introduction to Programming
3 lecture hours, 3 lab hours, 4 credits
Prerequisites: MAT 050 or MAT 051 or equivalent and RDG 099 or ENG 104 or permission from the Dean of STEM
Course Fees: A, H
This course presents concepts and principles of high-level programming using Visual Basic. It covers how to design, code, debug and document programs. Students learn structured programming using data files while writing programs on a variety of topics in different fields of engineering, mathematics and science.

CSC 106: Introduction to Data Science
3 Lecture Hours, 3 Credits
Prerequisite: MAT 050, MAT 051, MAT 100 or equivalent and RDG 099 or ENG 104
This course provides an introduction to the foundational topics in data science including data manipulation, data analysis with statistics, machine learning, data communication and information visualization.

CSC 111 Intermediate Programming
3 lecture hours, 3 lab hours, 4 credits
Prerequisite: High school programming course, CSC 101, or permission from the Dean of STEM
Course Fees: A, H
This course using Visual Basic focuses on advanced structured programming style, data validation, interactive event-driven routines, single and multi-dimensional array processing, searching, sorting and advanced file handling techniques using random data files and object-oriented programming.

CSC 203 Assembly Language and Computer Organization
3 lecture hours, 3 lab hours, 4 credits
Prerequisite: CSC 111
Course Fees: A, H
This course offers fundamentals of computer organization, registers, buses, processors, I/O and memory system. It also covers data representation, instruction sets, addressing models, subroutines, interrupts and traps of assembly language programming. Students will write and debug assembly language programs at the machine level.

CSC 205 Programming in C++
3 lecture hours, 3 lab hours, 4 credits
Prerequisite: CSC 111 or permission from the Dean of STEM
Course Fees: A, H
This course provides an introduction to C++ language that supports the object-oriented concepts. Students are exposed to fundamental syntax, control structures, functions and transfer of parameters, file processing, arrays, structured data types, sorting, searching, recursion, classes, instances, inheritance and polymorphism.

CSC 210 Object-Oriented Programming in Java
3 lecture hours, 3 lab hours, 4 credits
Prerequisite: CSC 205 or permission from the Dean of STEM
Course Fees: A, H
This course provides an introduction to Java language that supports the object-oriented paradigm. Students are exposed to the concepts, fundamental syntax and semantics, control structures, arrays, algorithms, debugging techniques and object-oriented programming that includes features such as objects, classes, data abstraction, encapsulation, modularity, polymorphism and inheritance.
CSC 216: Objects and Data Abstraction using Java
3 lecture hours, 3 lab hours, 4 credits
Catalog Description
Prerequisites: CSC 210 Object Oriented Programming in Java or permission from the Dean of STEM

This course includes object-oriented programming using classes, objects, inheritance leading to data abstraction with emphasis on software engineering principles. Topics covered are Interfaces, Lambda expressions, Exception handling, Graphical User Interface programming, Files, input/output streams, UML classes and diagramming, generic collections, recursion, threads, and the use of related APIs.

CSC 220 Data Structures and Algorithm
3 lecture hours, 3 lab hours, 4 credits
Prerequisite: CSC 205
Course Fees: A, H

This course provides the concepts of data structures through the topics in lists, strings, stacks, queues, trees, graphs, networks, file structures, recursive functions, search algorithms, sorting algorithms, hashing and basics of analysis of algorithms.

CSC 225 Programming in R
1 Lecture Hours, 2 Lab Hours, 2 Credits: 1/2/2
Prerequisites: MAT 103 and (CSC 111 or CIS 110) or permission from the Dean of STEM

This course offers extensive example-based instruction covering practical issues for statistical programming in R. This project intensive course explores R programming and use of R for data analysis. All lecture topics are supported by a lab component.

DATA - Data Analytics

DATA 301: Research Methods and Ethical Issues in Data Analysis
3 Lecture Hours, 3 Credits
Prerequisite: MAT 103

This course introduces students to the scientific method of inquiry. Students will gain an understanding of the principles and procedures of the scientific process of investigation and various methodologies of data collection and analysis. Students will learn to read and summarize published research, to critically analyze and evaluate research findings, and recognize ethical concerns associated with research. This course prepares students to develop their own research project.

DFT – Drafting and Design

DFT 103 CADD I (AutoCAD)
1 lecture hour, 5 lab hours, 3 credits
Prerequisite: RDG 099 or ENG 104
Course Fees: B, I

This course introduces students to computer-aided drafting and design (CADD) with AutoCAD software. Students learn to create, store and retrieve drawings on AutoCAD. Industry standards and procedures are used to develop the skills needed by entry-level CADD operator.

DFT 113 CADD II: Advanced AutoCAD
1 lecture hour, 5 lab hours, 3 credits
Prerequisite: DFT 103 or equivalent
Course Fees: B, I

This course is a continuation of the study of AutoCAD. Topics include block, attribute, importing and exporting, x-ref, the user coordinate system and the basics of three-dimensional construction. Extensive hands-on projects using AutoCAD are required.

DFT 203 CADD 3-D Modeling
1 lecture hour, 5 lab hours, 3 credits
Prerequisite: DFT 211
Course Fees: B, I

This course provides advanced computer-aided drafting and design (CADD) techniques. A variety of design and drafting problems are studied using AutoCAD. Students generate drawings in such areas as architectural, mechanical, civil, piping, structural and pictorial drafting. These projects involve: three-dimensional construction, surfaces, solids, rendering and animation.

DFT 211 Architectural and Civil Planning
1 lecture hour, 5 lab hours, 3 credits
Prerequisite: DFT 113
Course Fees: B, I

This course covers the basics of architectural and civil planning and design. The use of contemporary methods and equipment, including CADD, are studied. Working drawings involving both residential and light commercial buildings are produced. Land planning, subdivisions, site topography, floor plans and construction codes are discussed in detail.

DFT 233 AutoCAD Programming and Customization
2 lecture hours, 2 lab hours, 3 credits
Prerequisite: DFT 113 or equivalent
Course Fees: B, G

This course advances the understanding of computer-aided drafting and design (CADD) by using AutoCAD software. Extensive hands-on projects using AutoCAD are required. Students learn to design and customize linetype, menu, toolbar, title, button, screen and shape commands and PGP. Students also learn to program in AutoLISP.

DMS – Diagnostic Medical Sonography

DMS 101 Introduction to Medical Imaging
1 lecture hour, 1 credit
Prerequisites: Admission to the program and BIO 105
Program Fee: $1,500

This course introduces the fields of medical imaging and how they relate to the general hospital processes and to each other. This course acquaints students with the different types of testing procedures in radiology, ultrasound, CAT scanning and MRI. Emphasis is on ultrasound scans and results as compared to the other imaging methods.

DMS 105 Abdominal Sonography I
2 lecture hours, 2 credits
Prerequisite: DMS 113

This course begins the study of clinical ultrasound applications pertaining to the abdominal organs and great vessels. Each organ is presented with a review of basic anatomy and physiology, test preparation, instrument set-up, scanning technique, normal findings, normal variants, abnormal findings and pathology and scan review. The liver, gall bladder, biliary tree, pancreas and kidneys are reviewed with regard to clinical ultrasound.
DMS 106  Abdominal Sonography II
2 lecture hours, 2 credits
Prerequisite: DMS 105
Course Fee: J

This course expands clinical applications pertaining to the organs and structures of the abdomen. The spleen, retroperitoneum, aorta and other abdominal organs are presented.

DMS 113  Cross-Sectional Anatomy I
2 lecture hours, 2 credits
Prerequisites: BIO 105 and BIO 106

This course expands the normal anatomy perspective to three-dimensional concepts. It covers anatomical structures and inter-relationships in transverse, sagittal and coronal planes. The emphasis is on the abdominal organs and great vessels. The comparison of actual ultrasound scans is demonstrated to enhance the student's perception.

DMS 117  Ultrasound Physics I
2 lecture hours, 2 credits
Prerequisites: "C" or higher in DMS 101, BIO 105, PHY 103
Pre or Co-requisites: BIO 106 and ALH 104
Program Fee: $1,500

This course will explore concepts of ultrasound physics. Acoustical variables such as frequency, amplitude, power, intensity, wavelength and speed will be studied. The properties of pulsed waves will be introduced relative to pulse duration, pulse length, pulse repetition, duty factor, intensities, interaction and range equation. This course will also investigate transducers, sound beams, display modes, two-dimensional imaging, real time imaging and image storage.

DMS 126  Introduction to Clinical Practicum and Scan Lab (10 weeks)
8 clinical hours per week, 1.25 scan lab hours per week, 2 credits
Prerequisites: ALH 104, "C" or higher in BIO 105, BIO 106
Pre or Co-requisites: ALH 102, DMS 113

This course will expose the students to the internal workings of an imaging department. The student will begin to develop ultrasound skills in a diagnostic imaging department. Activities developing practice skills will take place in the campus scan lab and in hospital or outpatient imaging centers.

DMS 201  Sonographic Interpretation and Techniques I
2 lecture hours, 2 credits
Prerequisite: DMS 105
Program Fee: $1,500

Presentations by faculty and physicians of actual ultrasound cases followed by discussion of identified structures and pathology highlight this course. Review of cross-sectional anatomy as applied to actual scans is covered. Patient diagnosis and follow-up are emphasized.

DMS 202  Sonographic Interpretation and Techniques II
2 lecture hours, 2 credits
Prerequisite: DMS 201

The major portion of this course is devoted to presentations by students of ultrasound applications that they have used in the clinical setting. Students must demonstrate scans that they performed, explaining the findings that were identified. The critique of scans will be used to strengthen student scanning skills and analysis.

DMS 203  Clinical Practicum I
30 lab hours, 3 credits
Prerequisites: "C" or higher in DMS 105 and DMS 126
Pre or Co-requisites: DMS 106, DMS 201, DMS 209
Program Fee: $1,500

Students are introduced to their clinical sites and receive hands-on instruction in diagnostic medical sonography techniques.

DMS 204  Clinical Practicum II
30 lab hours, 3 credits
Prerequisite: DMS 203

Students continue to develop their skills in diagnostic medical sonography techniques.

DMS 208  Small Parts Scanning
1 lecture hour, 1 credit
Prerequisite: DMS 201

Anatomy, physiology, pathology and basic scanning techniques as utilized in ultrasound evaluation of various organs and glands are covered in this presentation.

DMS 209  OB/GYN Sonography I
3 lecture hours, 3 credits
Prerequisite: DMS 116

Obstetrics and Gynecological Sonography I introduces the female reproductive and urogenital systems as they pertain to ultrasound examination. Starting with the basic female reproductive system, the course expands into early pregnancy sonographic evaluation. Normal and abnormal anatomy and physiology, instrumentation set-up, patient preparation, proper scanning technique and normal and abnormal findings are presented.

DMS 210  OB/GYN Sonography II
3 lecture hours, 3 credits
Prerequisite: DMS 209
Course Fee: J

Advanced late-stage pregnancy sonography is covered in this course. The same didactic format as OB/GYN Sonography I is followed pertaining to the course presentation. Evaluation of the fetus, placenta and involved structures using ultrasound techniques are demonstrated. Critical measurements and assessment of in-utero fetuses are stressed.
ECO – Economics

ECO 100 Introduction to Economics
3 lecture hours, 3 credits
Prerequisite: RDG 099 or ENG 104

This course introduces basic principles of economics and is for students who plan to take no other economics principles courses. It covers capitalism, scarcity, supply and demand gross national product, inflation, unemployment, the Federal Reserve System, monetary and fiscal policies and price determination under varying degrees of competition. Current economic issues are also discussed. ECO 100 does not satisfy requirements for a business major.

ECO 101 Principles of Economics I (Macro)
3 lecture hours, 3 credits
Prerequisite: MAT 105 or higher

A study of the American economic system with a focus on macroeconomics. Topics studied include the laws of supply and demand, the functioning of the price system, the theory of national income determination, and the role of monetary and fiscal policies in combating the problems of inflation and recession.

ECO 102 Principles of Economics II (Micro)
3 lecture hours, 3 credits
Prerequisite: MAT 105 or higher

The study of economics with emphasis on microeconomics. Consideration is given to the concepts of elasticity, costs of production, the theory of the firm, wage determination, and the international economy.

ECO 103 Personal Finance
3 lecture hours, 3 credits
Prerequisite: RDG 099 or ENG 104

This course introduces the concepts and tools of managing personal finances. It assumes no prior study of economics and is designed to help students understand how to establish a personal financial plan, plan for personal taxes, manage cash, use credit cards, understand consumer lending and insurance and invest in stocks, bonds and funds.

EDU – Education

EDU 105 Educational Technology
1 lecture hour, 1 credit
Prerequisite: RDG 099 or ENG 104

This course focuses on the use of educational technology in support of student learning and integration of technology into the N-12 curriculum. Strategies to incorporate technology and the web into the school curriculum will be explored. Each student will develop an online portfolio to demonstrate their growth over time and record evidence of their teaching competencies.

EDU 130 Human Exceptionality
3 lecture hours, 3 credits
Prerequisite: PSY 101

This course provides a background for understanding human exceptionalities throughout the life span. Topics include origins and historical perspective, disability characteristics and definitions, diversity, legal issues, educational and life planning, special education, families and communities and services and support.

EDU 205 History of American Education
3 lecture hours, 3 credits
Prerequisite: RDG 099 or ENG 104

This course provides a study of the history of American education from the colonial period to the present. The course will cover preschool through post secondary institutions and will include significant structural developments, major educational figures and contributors, social forces, diversity, conflict and control and other events that have shaped the educational system through various periods of development.

EDU 207 Foundational Practices: Supporting Children using the Positive Behavioral Supports System
3 lecture Hours, 3 credits
Prerequisite: PSY 101

This course is defined to provide educators from various settings with a variety of theoretical approaches in behavior support of students. Students will follow an individual support plan and participate in multi-tiered class-wide and individual plan to support all students. Candidates will also have the opportunity to demonstrate competencies related to positive behavior intervention supports through a variety of opportunities.

EDU 215 Principles and Pedagogies in the Inclusive Classroom
2 lecture hour, 2 credits
Prerequisites: RDG 099 or ENG 104

Restricted to AS EDU majors only. This course introduces educational principles and pedagogies that promote the use of positive, universal classroom management techniques. Students will be empowered to articulate common academic language as it relates to the cycle of teaching and learning; create connections between educational philosophies, beliefs and dispositions; and embrace universal, proactive supports and strategies for creating effective learning communities to promote a positive school climate.
EDU 216  
Seminar: Principles and Pedagogies in the Inclusive Classroom  
1 lecture hour, 1 credit  
Prerequisites: RDG 099 or ENG 104 and EDU 215  
 Restricted to AS EDU majors only. This course introduces educational principles and pedagogies that promote the use of positive, universal classroom management techniques. Students will be empowered to articulate common academic language as it relates to the cycle of teaching and learning; create connections between educational philosophies, beliefs and dispositions; and embrace universal, proactive supports and strategies for creating effective learning communities to promote a positive school climate.

EDU 218  
Introduction to Trauma-Informed Practices to Promote Social Emotional Development in Educational Settings  
Lecture Hours/Credits: 3/3  
Prerequisite: PSY 101  
The purpose of this course is to provide an introduction of trauma-informed practices in educational settings that support the social emotional development of all students. Students will begin to explore various methods of trauma informed practices, that includes social emotional development, and how to address systematically through whole school initiatives, individual classrooms, and across content areas.

EDU 220  
Foundations of Inclusive Education  
3 lecture hours, 3 credits  
Co-Requisite/Prerequisite: EDU 130  
This course is an introduction to the foundations of inclusive education. Students will be asked to critically examine teaching and schooling, with an emphasis on identifying effective approaches to supporting the meaningful participation and learning of diverse students. Students will develop a research-based educational philosophy in which they articulate their plan for creating inclusive classroom environments. This course requires a field experience component.

EMG – Emergency Management  
EMG 101  
Introduction to Emergency Management and Homeland Security  
3 lecture hours, 3 credits  
Pre or Co-requisite: RDG 099 or ENG 104  
This course will focus on a comprehensive overview of the discipline of emergency management and homeland security. Attention to mitigation, preparedness, response and recovery will be emphasized. Past disasters will be analyzed as to the impact on policy formation up to and including current FEMA practices. Emergency management will be discussed as it applies to role, duty and ethical issues.

EMG 105  
Planning for Emergencies  
3 lecture hours, 3 credits  
Pre or Co-requisite: RDG 099 or ENG 104  
Planning for Emergencies will focus on the measures necessary to prepare for an emergency. This course will cover the key terms used in emergency planning and the differences in man-made and natural disasters. It will also demonstrate various ways of strategizing to mitigate, plan for and recover from man-made and natural disasters.

EMG 201  
Incident Command: Theory and Practice  
3 lecture hours, 3 credits  
Prerequisite: EMG 101  
This course will focus on the Incident Command Systems fundamentals, incident/event assessment, unified command structures, incident resource management, planning processes, demobilization and close out. The course will also emphasize the different stages in which the incident command can expand and retract depending on the complexity of the incident.

EMG 205  
Global Catastrophes  
3 lecture hours, 3 credits  
Prerequisite: EMG 105  
This course will focus on the impact of natural and technological disasters around the world from a global perspective. It will focus on global, national, regional and local events such as hurricanes, droughts, disease outbreaks, nuclear disasters and earthquakes. The course will also examine the social, geographical and cultural factors that put people at risk before, during and after disastrous events. Using case studies, students will explore how vulnerable social groups are affected by and cope with hazardous conditions and events.

ENG – English  
ENG 101  
English Composition I  
3 lecture hours, 3 credits  
Co-requisite: RDG 099 or ENG 104  
This course provides students with extensive guided experience in writing essays. The course emphasizes the writing process; critical reading and thinking skills; and the concepts of audience, purpose and form. Attention is devoted to responsible research skills and the basic techniques of MLA documentation.

ENG 101E  
Enhanced English Composition I  
4 lecture hours, 4 credits  
Co-requisite: RDG 099 or ENG 104  
This course provides students with extensive guided experience in writing essays. The course emphasizes the writing process; critical reading and thinking skills; and the concepts of audience, purpose and form. Attention is devoted to responsible research skills and the basic techniques of MLA documentation.

ENG 102  
English Composition II  
3 lecture hours, 3 credits  
Prerequisite: ENG 101 or ENG 101E  
This course requires students to read selected prose fiction, poems and plays and to write a series of documented, critical/analytical essays based on those works. Students continue to develop the tools and forms of research covered in ENG 101.

ENG 103  
Survey of World Literature  
3 lecture hours, 3 credits  
Prerequisites: ENG 101 or ENG 101E and RDG 099 or ENG 104  
This course will introduce students to a number of outstanding authors of various nationalities, ethnicities, races and historical periods, ancient to modern, and to the major works of literature these writers produced. Students will study various literary genres and focus on both the enduring qualities of the selected masterpieces and on their relationship to the times and the cultures in which they were written. Several papers, either research or brief critiques, are required.
Readings in Literature increases students’ comprehension and enjoyment of reading through literature, fiction and non-fiction, while emphasizing close reading of passages to develop students’ critical thinking, critical reading and critical writing skills. Relying on intensive instructor guidance, students study the major forms of literature, fiction, poetry, drama and essays to identify the connections between literature and the human experience and to learn to identify major themes, inferences, major and minor details.

**ENG 107 Principles of English Grammar**  
3 lecture hours, 3 credits  
Prerequisite: RDG 099 or ENG 104

This course focuses on the basic elements of traditional English grammar, including parts of speech, parts of the sentence, dependent and independent clauses, issues of agreement and consistency, punctuation, and introduction to the basics of diagramming. Students will develop a practical understanding of the fundamentals of grammar through lecture, class discussion, the working out of grammatical problems, evaluating various forms of writing and writing sentences and paragraphs.

**ENG 109 Survey of Classical Greek and Roman Literature**  
3 lecture hours, 3 credits  
Prerequisite: ENG 101 or ENG 101E

This course introduces students to the literature of ancient Greece and Rome. Students will study the mythological narratives and the various literary forms developed by these cultures.

**ENG 203 Literature by Women**  
3 lecture hours, 3 credits  
Prerequisite: ENG 101 or ENG 101E

Literature by Women examines fiction, poetry and drama written by women from medieval to current times, examining their influences and accomplishments in their social and historical contexts. Through class discussion, activities and writing assignments, students will analyze and evaluate important literary themes, such as family, enclosure and escape, creativity and the evolution of women's roles.

**ENG 207 Major British Writers from the Middle Ages to the 17th Century**  
3 lecture hours, 3 credits  
Prerequisite: ENG 101 or ENG 101E

This course presents selected readings from the literary work of major British writers from the Anglo-Saxon to the Restoration periods. The course focuses on the traditional historical elements of the works as well as the specific innovations and/or artistic achievements they illustrate.

**ENG 208 Major British Writers from the Eighteenth Century to the Present**  
3 lecture hours, 3 credits  
Prerequisite: ENG 101 or ENG 101E

This course presents selected readings from the literary works of major British writers from the 18th to the 20th centuries. The course focuses on the traditional historical elements of the works as well as the specific innovations and/or artistic achievements they illustrate.

**ENG 213 Non-Western Literature**  
3 lecture hours, 3 credits  
Prerequisite: ENG 101 or ENG 101E

Non-Western Literature is designed to provide some awareness and sensibility towards the literature from countries other than the United States and those of Europe. Focusing on ancient and modern works from Asian, African and Latin-American countries, the course emphasizes the experiences, challenges and cultures specific to these countries and their commonalities and differences with those of the Western World.

**ENG 215 Immigrant Voices in American Literature**  
3 lecture hours, 3 credits  
Prerequisite: ENG 101 or ENG 101E

Immigrant Voices in American Literature focuses on writings by and about immigrants to the United States starting with the first settlers and closing with 21st century newcomers. Through the study of fiction, poetry, drama, and non-fiction, students will examine the American immigrant experience as reflected in these authors’ writings and their influence in the larger American literary cannon.

**ENG 222 The Romantic Era in American Literature**  
3 lecture hours, 3 credits  
Prerequisite: ENG 101 or ENG 101E

This course investigates the main trends and developments in prose, poetry and short stories of the romantic period in American literature against a background of the social and intellectual life, with attention also to the language of the literature.

**ENG 225 Twentieth Century American Authors**  
3 lecture hours, 3 credits  
Prerequisite: ENG 101 or ENG 101E

Literary works related to basic problems of the twentieth century (political, social, religious, philosophical or personal) are studied.

**ENG 230 Major American Writers**  
3 lecture hours, 3 credits  
Prerequisite: ENG 101 or ENG 101E

This course includes selected readings from the literary works of major American writers. Several critical essays are required.

**ENG 235 American Film Classics**  
3 lecture hours, 3 credits  
Prerequisite: ENG 101 or ENG 101E

This survey of the American film industry emphasizes its development as an art form and a social institution.

**ENG 236 Contemporary American Film**  
3 lecture hours, 3 credits  
Prerequisite: ENG 101 or ENG 101E

This course presents a survey of the American film industry from the breakdown of the Hollywood studio system in the 1950s to its present-day forms. Students are required to view a select number of films and will write several analytical essays on their themes and techniques.

**ENG 237 American Horror Literature: Poe to King**  
3 lecture hours, 3 credits  
Prerequisite: ENG 101 or ENG 101E

This course introduces the American Gothic tradition of horror. The course analyzes a variety of important horror texts, written and filmed, in an attempt to understand why this genre is significant in the development of American culture. The course also addresses the philosophical issues of attraction to this genre and its sociological and spiritual influences.
ENG 238  The Films of Alfred Hitchcock
3 lecture hours, 3 credits
Prerequisite: ENG 101 or ENG 101E

This course introduces the work of one of the twentieth century’s most influential artists, Alfred Hitchcock. By viewing and discussing selected Hitchcock films, students address issues of theme and technique as they define the Hitchcock world.

ENG 240  Introduction to Children’s Literature
3 lecture hours, 3 credits
Prerequisite: ENG 101 or ENG 101E

This survey course deals with the selection, evaluation and utilization of literary materials for children from pre-school through junior high school age (2–16 years of age). Students read and evaluate literary selections for children in this age range.

ENG 241  Survey of African American Literature
3 lecture hours, 3 credits
Prerequisite: ENG 101 or ENG 101E

This course introduces African American literature, exploring the contributions of noted African American writers. The course focuses on the impact these writers had on American culture and society from its early history to the present.

ENG 243  The Freedom Papers: Britain's Other Literary Treasures
3 lecture hours, 3 credits
Prerequisite: ENG 101 or ENG 101E

This course presents a survey of the written history of Britain. Students will follow the centuries-long struggle of the British people against despotism and oppression and trace their development of the principles of individual freedom and the rule of law through the historical documents that first articulated and established these principles.

ENG 248  LGBTQ+ Authors and Filmmakers
3 Lecture Hours, 3 Credits
Prerequisite: ENG101

This survey course will examine a wide assortment of literature and films created by LGBTQ+ writers and artists. The readings and viewings will place an emphasis on intersectionality and diversity. Course materials may include fiction, non-fiction, poetry, plays, documentaries, and other genres.

ENR – Engineering Science

ENR 102  First Year Engineering Clinic I
1 lecture hour, 2 lab hours, 2 credits
Prerequisites: RDG 099 or ENG 104, MAT 110 or equivalent
Course Fees: B, G

This course presents an introduction to the practice of engineering through application problems drawn from engineering disciplines chosen to amplify work drawn from supporting courses. It includes topics such as: technical communication formats, analytical tools, computer-based tools, introduction to design, engineering ethics and teamwork.

ENR 103  First Year Engineering Clinic II
1 lecture hour, 2 lab hours, 2 credits
Prerequisites: MAT 108 and a minimum grade of “C” in ENR 102
Course Fees: B, G

This course, a continuation of Freshman Engineering Clinic I, provides expanded treatment of the practice of engineering through applications drawn from engineering disciplines. Project work includes a variety of technical communication topics, analytic and computer-based tools, including the design process, engineering ethics, safety and teamwork.

ENR 108  Digital Electronics for Engineers
2 lecture hours, 2 lab hours, 3 credits
Pre-requisite: MAT 107

This is an introductory course in digital electronics in which the basic concepts in digital electronics will be covered to include binary systems, Boolean algebra, binary arithmetic, basic logic gates, combinational logic circuits analysis and design, flip-flops, sequential circuits analysis and design, digital to analog and analog to digital conversions. Completion of a term project will be required. Laboratory work supports lecture topics.

ENR 201  Sophomore Engineering Clinic I
3 lab hours, 1 credit
Prerequisite: ENR 103
Course Fees: B, H

This course, a continuation of the Engineering Clinic series, provides expanded treatment of the practice of engineering through applications drawn from various engineering disciplines and industry. Project work includes a variety of technical communication topics, analytic and computer-based tools, including the design process, engineering ethics, safety and teamwork.

ENR 202  Sophomore Engineering Clinic II
3 lab hours, 1 credit
Prerequisite: ENR 201
Course Fees: B, H

This course, a continuation of the Engineering Clinic sequence, provides expanded treatment of the practice of engineering through applications drawn from engineering disciplines and industry. The communications component is designed to help students prepare and present messages in public speaking contexts. In addition to engineering design, the course emphasizes presentation skills as well as critical thinking, listening and organizational skills.

ENR 207  Engineering Materials
2 lecture hours, 3 lab hours, 3 credits
Pre or Co-requisite: CHM 111
Course Fees: B, H

This course for the engineering student develops familiarity with the nature and physical properties of industrial materials. Emphasis is on the mechanical behavior of materials under various load conditions. Laboratory experiences complement class work.

ENR 211  Engineering Statics
3 lecture hours, 3 credits
Pre or Co-requisite: PHY 201

This course for students of engineering includes analysis of static particles and rigid bodies under applied forces. This study of force systems in equilibrium includes resultant of forces in two- or three-dimensional space, free-body diagrams, centroids, analysis of structure, friction, moment of inertia and work.

ENR 212  Mechanics of Materials
3 lecture hours, 3 credits
Prerequisite: ENR 211

This course continues ENR 211 and includes stress, strain, axial loading, torsion, bending and deflection of beams. Analysis of both determinate and indeterminate structural systems is presented.
ENVS – Environmental Science

ENVS 101 Environmental Science
Lecture Hours/Lab Hours/Credits: 3/3/4
Prerequisite: MAT 050, MAT 051, MAT 100 or equivalent and RDG 099 or ENG 104

This course is designed as an introductory course in the fundamental concepts of environmental science. Throughout the course, students will examine the impact of human activities on the Earth's ecosystems; specifically focusing on the science behind the major environmental issues of today including climate change, resource/energy consumption, and pollution. Students will also be introduced to the basics of scientific inquiry, including the use of the scientific method, data analysis, and critical thinking. All lecture topics are supported by a lab component.

ENVS 110 Physical Geology
Lecture Hours/Lab Hours/Credits: 3/3/4
Prerequisite: MAT 050, MAT 051, MAT 100 or equivalent and RDG 099 or ENG 104

Physical Geology covers the nature and origin of the land and water features of the earth, including studies available concerning the oceans and their floors, with a view to providing an understanding of why our land looks as it does and the conflicts between natural change and man's use of the land and seas. All lecture topics are supported by a lab component.

ENVS 201 Research Methods and Data Analysis
Lecture Hours/Lab Hours/Credits: 2/2/4
Prerequisite: MAT-103 and BIO-101 or ENVS-101.

This course is designed to focus on the process of science, specifically fostering the student's independent use of scientific method/hypothesis testing. Emphasis is placed on developing valid sample approaches, experimental design and data analysis. A variety of a parametric and non-parametric statistical approach will be covered. Students will be trained to think and approach questions like a scientist which will help students succeed in any future endeavors, whether they are directly scientific or not. Computer software will be used regularly to manipulate and analyze data and present results. All lecture topics are supported by a lab component.

ETEC – Engineering Technology

ETEC 107 Circuits I
2 Lecture Hours, 2 Lab Hours, 3 Credits
Prerequisite(s): ENG 104 or RDG 099 and MAT-50

Students learn the concepts of DC theory, single phase AC and three phase AC, ladder diagrams and components found in an industrial electrical circuit. In the laboratory students will develop the necessary skills to use test equipment to troubleshoot an electrical circuit.

ETEC 218 Programmable Logic Controllers
2 Lecture Hours, 2 Lab Hours, 3 Credits
Prerequisite(s): IT 111 or permission of instructor

The Allen Bradley SLC 500 series PLC is used to provide students with an understanding of PLC programming instructions. This course contains laboratory sections on programmable logic controllers.

ETEC 240 Pneumatics and Hydraulic Automation
3 Lecture Hours, 3 Lab Hours, 4 Credits
Pre or Corequisite: ETEC-218 Programmable Logic Controller or permission of the instructor

Hydraulic principles, types of hydraulic fluids and their characteristics are covered. Describes components of the hydraulic system and their functions, including filters and strainers, reservoirs and accumulators, pumps, piping and hoses, control valves, and actuating devices. Covers a variety of operating principles of reciprocating, positive displacement, rotary and dynamic air compressors. Covers primary and secondary air treatment. Includes valves, logic devices, cylinders, and air motors. This course contains laboratory sections on pneumatics and hydraulic automation.
GER – German

GER 101 Elementary German I
3 lecture hours, 3 credits
Prerequisite: RDG 099 or ENG 104
Introductory grammar and pronunciation form the basis of this course, designed to develop communicative skills in German. Oral and written exercises, reading of easy prose and dictation are points of departure.

HIS – History

HIS 101 History of Western Civilization I
3 lecture hours, 3 credits
Prerequisite: RDG 099 or ENG 104
This is a survey of the political, social, economic, cultural and religious forces and movements essential to understanding the development of our civilization from ancient times to 1648.

HIS 102 History of Western Civilization II
3 lecture hours, 3 credits
Prerequisite: RDG 099 or ENG 104
This is a survey of the political, social, economic, cultural and religious forces and movements essential to understanding the development of our civilization from 1649 to the present.

HIS 103 History of the United States I
3 lecture hours, 3 credits
Prerequisite: RDG 099 or ENG 104
This is a study of American history from the Colonial Era through the Civil War. Included is a broad survey of the development of American democracy with emphasis on the growth of institutions and ideas as they were brought from Europe and modified and developed here. Special attention is given to the development of the national Constitution.

HIS 104 History of the United States II
3 lecture hours, 3 credits
Prerequisite: RDG 099 or ENG 104
This course continues the study of American political, social and intellectual development from 1865 to the present. Topics include Reconstruction, industrial and transportation revolution, labor movement, the crisis in agriculture, expansion and the new Manifest Destiny and problems of the twentieth century.

HIS 107 African-American History
3 lecture hours, 3 credits
Prerequisite: RDG 099 or ENG 104
Pre or Co-requisite: ENG 101
This course is a survey of the major social, economic and cultural developments within the African-American community from its African origins to the present. The course emphasizes the formation of African-American identity and culture, demographic and migration patterns, contributions of African-Americans to the making of America and an in-depth analysis of legal and political status as it pertains to the history of a people.

HIS 204 The First 100 Years of the American Automobile
3 lecture hours, 3 credits
Prerequisite: RDG 099 or ENG 104
This course provides a basic understanding of the history and significance of the automobile industry and how it has been intertwined with American history, culture and everyday life. The course will cover the early days of the automobile with discussions about Henry Ford, Billy Durrant, the formation of General Motors, key designers and more. The course will highlight challenges facing the automobile industry during each decade of the twentieth century.

HIS 205 World History I
3 lecture hours, 3 credits
Prerequisite: RDG 099 or ENG 104
This course is a study of processes of change and patterns of interaction between the major civilizations of the world from the rise of civilization to European expansion of the 1500s. This is a survey of the political, social, economic, cultural and religious forces and movements essential to an understanding of the development of world civilizations. Fundamental to this course is an emphasis on the diversity of world cultures, the mutuality of cultural exchange and a global perspective on historical development.

HIS 206 World History II
3 lecture hours, 3 credits
Prerequisite: RDG 099 or ENG 104
This course is a study of processes of change and patterns from the 1500s to the present. This is a survey of the political, social, economic, cultural and religious forces and movements essential to an understanding of the development of modern nations, identities, economies and alliances. Fundamental to this course is an emphasis on the diversity of world cultures, the mutuality of cultural exchange and a global perspective on historical development.

HPE – Health, Physical Education and Recreation

The Health, Physical Education and Recreation faculty recommends students select HPE 100-level courses to fulfill the graduation requirement. The 200-level courses are designed for students majoring in Health, Physical Education and Recreation or Exercise Science and/or students with special interests for elective purposes.

HPE 104 Health and Fitness for the Individual
1 lecture hour, 2 lab hours, 2 credits
Course Fee: G
Students study how health and fitness affect the individual physiologically and psychologically. A variety of methods and techniques used to enhance health and physical fitness are presented. Actual physical activity is part of the course.

HPE 105 Healthcare Provider Emergency Response with BLS Certification
1 lecture hour, 1 credit
Course Fee: C
This course is designed to provide training in the duties of the Healthcare Provider as first responder in emergencies. Course includes topics that HCP needs to consider when beginning first aid as well as the responsibilities when initiating basic life support. Students will have an opportunity to gain knowledge and skills on victim assessment, controlling bleeding, and preventing shock. Students will learn how to recognize and respond to life-threatening emergencies such as cardiac arrest, respiratory arrest and foreign-body airway obstruction (choking). At course completion, students will be required to demonstrate the correct provision of high-quality CPR and the correct use of an automated external defibrillator (AED). Students who successfully complete the written and skill components of the CPR module will be awarded the American Heart Association's Basic Life Support for Healthcare Providers card.
HPE 106  Health and Wellness Promotion in Physical Therapy
1 lecture hour, 1 credit
Prerequisite: Grade C or better in ENG 101 or ENG 101E
Co-requisite: PTA 101
This course will identify methods for physical therapy professionals to be effective change agents in the promotion of public health, prevention, and wellness initiatives. Effective communication strategies between health practitioners and patients will also be explored. Students will be expected to participate in a nutritional self-assessment identify opportunities for participation in service learning activities, and develop a group wellness project (This course is only available to students enrolled in the PTA program.)

HPE 111  Cardiovascular Fitness Activities
2 activity hours, 1 credit
Course Fee: G
This participatory course introduces types of aerobic-based activities available. The multiple health benefits associated with practicing a variety of cardiovascular fitness activities will be emphasized.

HPE 112  Introduction to Swimming
2 activity hours, 1 credit
Course Fee: G
Students in this course will learn and perform basic swimming skills at the introductory level. Class participants should be either novice or intermediate swimmers. Students may be required to take this class to prepare them for HPE 231 Specialized Swimming.

HPE 113  Physical Fitness Activities
2 activity hours, 1 credit
Course Fee: G
This course is designed to improve cardiovascular fitness and muscular strength and endurance through participation in various activities (including aerobic exercise, weight training and circuit training) and to provide basic, related health and wellness information.

HPE 117  Weight Training Activities
1 lecture hour, 2 activity hours, 2 credits
Course Fee: G
This course is designed to improve muscular strength and endurance through participation in various resistance activities (including free weights, cybex and universal circuit training) and to provide basic, related health and wellness information.

HPE 122  Fundamentals of Health & Physical Education
1 lecture hour, 1 credit
Prerequisite: RDG 099 or ENG 104
Students in this course are introduced to the profession of teaching Health and Physical Education. Specific emphasis is placed on teaching skills, student behaviors, and the classroom environment that address pupil outcomes. These outcomes are aligned with the New Jersey Student Learning Standards for Comprehensive Health and Physical Education. These elements are discussed, analyzed and practiced through the principles of learning communities. Students explore the roles and responsibilities of teachers through the study of professional literature; class discussions and activities; simulation exercises.

HPE 136  Nutrition
3 lecture hours, 3 credits
Co-requisite: RDG 099 or ENG 104
This course provides students with basic nutrition information that can be incorporated into daily life. Topics include explorations of the controversies and myths concerning food, diet and weight control.

HPE 150  Golf
2 activity hours, 1 credit
Course Fee: G
This course helps students develop efficient body movements through practice of fundamental golf skills. The strategies of play, history, rules and etiquette of golf are also covered.

HPE 151  Tennis
2 activity hours, 1 credit
Course Fee: G
This course helps students develop efficient body movements through practice of basic tennis skills as well as advanced strokes. Scoring, rules and singles and doubles strategies are also covered.

HPE 152  Bowling
2 activity hours, 1 credit
Course Fee: G
This course helps students develop efficient body movements through practice of fundamental bowling skills. The scoring, strategies of play, history, rules and etiquette of bowling are also covered.

HPE 154  Volleyball
2 activity hours, 1 credit
Course Fee: G
This course helps students develop efficient body movements through practice of fundamental volleyball skills. The scoring, strategies of play, history, rules and etiquette of volleyball are also covered.

HPE 170  Stress Management
3 lecture hours, 3 credits
Prerequisite: RDG 099 or ENG 104
This course focuses on stress and the impact it has on a person's health. Students will examine the relationship of the physiological, psychological and social factors which contribute to one's general stress balance. Stress management techniques and life skills to combat the negative impact of stress will be developed.

HPE 192  Contemporary Health I
3 lecture hours, 3 credits
Pre or Co-requisite: RDG 099 or ENG 104
This course, the first in a series of two, provides students with a background in current health issues. Psychological health, human development, wellness, drug use and abuse, and mental and emotional health addictions are some of the topics discussed.

HPE 193  Contemporary Health II
3 lecture hours, 3 credits
Prerequisite: RDG 099 or ENG 104
This course, the second in a series of two, is a general knowledge survey course which provides students with a general scope and understanding of current health issues that occur in the human lifecycle. Topics addressed include sexuality and family life, personal health, chronic and infectious diseases, environmental health and consumerism.

HPE 201  Health Science
3 lecture hours, 3 credits
Co-requisite: RDG 099 or ENG 104
Principles, problems and practices related to the health of the individual and community are discussed. Topics include the role of health agencies, mental health, alcohol and drugs, sexually transmitted diseases, nutrition and physical fitness.
HPE 209        Individual and Dual Sports I
1 lecture hour, 2 activity hours, 2 credits
Course Fee: G
This course builds an understanding of how to teach tennis and badminton. Basic skills, scoring, strategies of play, history, rules and etiquette are covered. Proper teaching and coaching techniques are emphasized and practiced.

HPE 211        Consumer Health Decisions
3 lecture hours, 3 credits
Prerequisite: RDG 099 or ENG 104
This course examines the rights and responsibilities of a consumer faced with increasing amounts of information related to his or her overall well-being. It examines the major problem of health fraud and the components of scientific research. The role of advertising is explored, as well as sound principles for purchasing nutrition, fitness and other health-related products and services. Students learn important concepts related to health insurance and hospitals, traditional and alternative medical care and how to better manage the decisions they make.

HPE 214        Principles Health & Physical Education
Lecture Hours/Credits: 3/3
Prerequisite: ENG 104 or ENG 101 or ENG 101e
This course is an introduction to the foundational philosophies, dispositions, pedagogy, and core educational practices in K-12 health and physical education. Students will be asked to critically examine professional ethics and culturally competent practices in health and physical education; and demonstrate knowledge of the varied physical activity opportunities that support the development of physically literate individuals and college and career readiness. Emphasis will be placed on identifying effective approaches needed, in K-12 health and physical education to support meaningful participation and learning of diverse populations of learners.

HPE 222        Team Sports II
1 lecture hour, 2 activity hours, 2 credits
Course Fee: G
This course builds an understanding of how to teach soccer, field hockey, lacrosse and wrestling. Basic skills, scoring, strategies of play, history, rules and etiquette are covered. Proper teaching and coaching techniques are emphasized and practiced.

HPE 231        Specialized Swimming
1 lecture hour, 2 activity hours, 2 credits
Prerequisites: HPE 112 or students must demonstrate their ability to tread water for 5 minutes and successfully swim 10 laps using various swimming strokes.
Course Fee: G
This course teaches skills necessary to be a swimming instructor. A variety of swimming strokes are practiced. Teaching techniques, basic water safety skills, diving and water sports are also covered.

HPE 233:        Safety, First Aid, CPR and Injury Prevention
3 lecture hours, 3 credits
Prerequisite: RDG 099 or ENG 104
Course Fee: C
This course introduces principles of athletic training and covers how to provide First Aid and CPR in most situations where emergency care is needed. Emphasis is on the responsibilities of the athletic trainer, conditioning and training of the athlete, prevention and care of athletic injuries and taping. Opportunities are provided for students to gain practical experience. An American Heart Association Basic Life Support for the Health Care Providers Certification is earned by all students who successfully complete this course.

HPE 238:        Principles of Coaching
2 lecture hours, 2 credits
This course provides the basic principles and modern techniques of coaching. Attention is devoted to various philosophies of coaching for all levels of competitive sports.

HPE 240:        Introduction to Health, Physical Education and Recreation
3 lecture hours, 3 credits
Co-requisite: RDG 099 or ENG 104
This is an overview of the health, physical education and recreation field and assists students in choosing a career path.

HPE 245:        Motor Development and Motor Learning
3 lecture hours, 3 credits
Prerequisite: RDG 099 or ENG 104
This is an introductory course that includes the study of locomotor and non-locomotor movement, manipulative skills and developmental and environmental factors that affect learning in these motor skill areas. The course will focus on motor behavior changes. Students will also be introduced to motor learning theories and concepts, assessment and development of motor skills in various settings.

HPE 252:        Foundations of Fitness
3 activity hours, 3 credits
Prerequisite: RDG 099 or ENG 104
This course is designed to provide students with insight into applying fitness training principles to various populations, and into the development of health and skill related fitness in individuals. Students will develop skill in designing fitness programs for individuals with differing needs and abilities. Throughout this course the concept of providing challenging yet success assured learning experiences for fitness development will be emphasized.

HPE 257:        Pedagogy and Instructional Practices in Health and Physical Education
3 Lecture Hours, 3 Credits
Prerequisite: HPE 214 Principles of Health and Physical Education
This course orient students wishing to enter the profession of teaching Health and Physical Education. This course will prepare students on planning and instruction principles and managing classroom environments, in order to maximize student learning outcomes that address the New Jersey Core Curriculum Content Standards for Comprehensive Health and Physical Education.
HPE 260 Exercise Physiology
3 lecture hours, 3 credits
Prerequisites: BIO 105, BIO 106, HPE 104 and RDG 099 or ENG 104

This course examines the physiological effects of exercise on the human body. Major topics include energy use, the muscular, cardiovascular, respiratory and nervous systems, metabolism, body composition, temperature regulation and training guidelines. Practical application of topics is emphasized.

HPE 265 Fitness Assessment and Exercise Prescription
3 lecture hours, 3 credits
Prerequisites: BIO 105, BIO 106, HPE 104 and RDG 099 or ENG 104

This course is designed to provide the student with a foundation of exercise testing and prescription. The many parameters of fitness are investigated, including their measurement, interpretation of results and application toward recommendations for exercise programs. The topical areas include cardiorespiratory fitness, muscular strength and endurance, flexibility, body composition and performance/athletic components. A portion of this course will require students to validate concepts learned through practical applications.

HPE 270 Essentials of Personal Training
2 lab hours, 1 credit
Pre- or Co-Requisite: BIO 106; HPE 265

This course prepares the student in the processes, theories, and application of personal training through a variety of laboratory and hands-on activities. The information covered will allow students to properly assess clients, demonstrate proper exercise technique, and develop individualized exercise programs. At the end of the course, students will have the opportunity to take a nationally-recognized personal training certification exam.

ITA – Italian

ITA 101 Elementary Italian I
3 lecture hours, 3 credits
Prerequisite: RDG 099 or ENG 104

This course introduces grammar and pronunciation of Italian and includes practice in speaking, comprehension, reading and writing.

ITA 102 Elementary Italian II
3 lecture hours, 3 credits
Prerequisite: ITA 101

This course involves more advanced grammar concepts in conjunction with practice in speaking, comprehension, reading and writing Italian.

LEN – Law Enforcement/Criminal Justice

LEN 102 Police Organization and Administration
3 lecture hours, 3 credits
Prerequisite: RDG 099 or ENG 104

This is a study of contemporary police principles and practices with an emphasis on accepted administrative methods for achieving law enforcement objectives. Basic organization and administrative decisions are approached from the point of view of police chiefs, commanders and administrators. Decisions concerning personnel, community relations, operations, administration, auxiliary and technical services, budgeting, records, research and inspection are studied.

LEN 108 Police and Personnel Management
3 lecture hours, 3 credits
Prerequisite: RDG 099 or ENG 104

This course introduces students and in-service law enforcement personnel to methods and techniques involved in becoming an effective police supervisor. Topics include the police supervisory role in problems that occur in the field, as well as administrative, legal and personnel problems.

LEN 210 Contemporary Issues in Law Enforcement
3 lecture hours, 3 credits
Prerequisites: CRJ 201 and CRJ 215

This is an examination of controversial subjects related to law enforcement, the philosophy of law enforcement, the role and function of police in a democratic society, the impact of American social problems on law enforcement, the complexity of the task and the importance of community relations.

LEN 221 Principles of Criminal Investigation
3 lecture hours, 3 credits
Prerequisite: RDG 099 or ENG 104

Topics include investigation, methodology in crime, modus operandi, sources of information, interrogation and preliminary follow-up investigations. The abilities, techniques and methods employed in a criminal investigation from the time the report is received to the ultimate conviction of the perpetrator are studied. The potentials of scientific research, the use of communications and records in criminal investigation and the application of logic and scientific methodology to the investigation of criminal evidence are included.

LEN 227 Introduction to Corrections
3 lecture hours, 3 credits
Prerequisite: RDG 099 or ENG 104

This course is an overview of the correctional system in America and examines probation, parole, jails, prisons and community-based programs. Included are the processes, organization and trends in these areas and a philosophical and theoretical consideration of the correct process.

LEN 234 Introduction to Security
3 lecture hours, 3 credits
Prerequisite: RDG 099 or ENG 104

This course introduces the systems, organization, design and implementation of security systems, including government, business, industry and proprietary.

MAT – Mathematics

MAT 010 Introductory College Mathematics
3 lecture hours, 3 credits
Pre or Co-requisite: RDG 099 or ENG 104
Does not satisfy program requirements in mathematics

This is a developmental course for students whose placement test scores place them at this level or those who feel they need to review the fundamentals of mathematics. This course provides a more sophisticated level of understanding of basic concepts and includes basic arithmetic and problem solving.

MAT 011 Introductory College Mathematics Accelerated
1 lecture hour, 1 credit
Prerequisite: Placement Score
Pre or Co-requisite: RDG 099 or ENG 104
Does not satisfy program requirements in mathematics

This course will develop math skills for students whose placement test scores place them at this level, or those who feel they need to review the fundamentals of mathematics. This course provides a sophisticated level of understanding of basic concepts and includes basic arithmetic and problem solving.
MAT 050  Elementary Algebra
3 lecture hours, 3 credits
Prerequisites: MAT 010, MAT 011 or equivalent
Pre or Co-requisite: RDG 099 or ENG 104
Does not satisfy program requirements in mathematics
This is a developmental course for students whose placement test scores place them at this level or those with little or no previous experience in algebra. Emphasis is on operations with signed numbers, evaluation and simplification of algebraic expressions, solutions to linear equations with applications, exponents, polynomials, factoring and graphing.

MAT 051  Elementary Algebra Review
1 lecture hour, 1 credit
Prerequisite: Placement Score or MAT 050 with a grade of "P" or higher
Pre or Co-requisite: RDG 099 or ENG 104
Does not satisfy program requirements in mathematics
This is a developmental course to review math skills for students whose placement test scores place them at this level or those with little or no previous experience in algebra. Emphasis is on operations with signed numbers, evaluation and simplification of algebraic expressions, solutions to linear equations with applications, exponents, polynomials, factoring and graphing.

MAT 100  Foundations of Mathematics I
3 lecture hours, 3 credits
Prerequisites: Placement score of 50–75, appropriate major and RDG 099 or ENG 104
In this course, students apply the fundamentals of arithmetic and basic algebra to solve practical problems. Topics include real number properties and applications, an introduction to algebra, counting methods and probability.

MAT 101  Concepts of Mathematics
3 lecture hours, 3 credits
Prerequisites: MAT 050, MAT 051, MAT 100 or equivalent and RDG 099 or ENG 104
This course in finite mathematics involves an investigation of the logical methods of problem solving. Topics include set theory, symbolic logic, counting methods, probability and statistics.

MAT 102  Survey of Mathematics
3 lecture hours, 3 credits
Prerequisites: MAT 050, MAT 051, MAT 100 or equivalent and RDG 099 or ENG 104
This course provides a review of the fundamental mathematical concepts that support common problem solving. Topics include algebra, geometry, coordinate geometry, mathematical systems, matrices and an overview of common financial mathematics.

MAT 103  Statistics
3 lecture hours, 3 credits
Prerequisites: MAT 050, MAT 051, MAT 100 or equivalent and RDG 099 or ENG 104
This is an introduction to the fundamental concepts and methods of statistics. Topics include elementary probability, measures of central tendency and dispersion, binomial and normal distributions, hypothesis testing, linear regression and correlation.

MAT 105  Intermediate Algebra
4 lecture hours, 4 credits
Prerequisites: RDG 099 or ENG 104 and grade of "C" or higher in MAT 050 or MAT 051 or equivalent
This is a systematic study of topics in intermediate algebra, commencing with the development of the real number system and its properties. Topics include special factoring methods, solutions to linear and quadratic equations, rational expressions, absolute values, inequalities, graphing, radicals, exponents and functions.

MAT 107  Pre-Calculus and Mathematical Analysis
4 lecture hours, 4 credits
Prerequisite: Three years of high school Mathematics, including a semester of Trigonometry or MAT 110
This course prepares students for the study of calculus. Topics include the algebra of functions, sequences, mathematical induction, equations of a line, slopes, angles of intersection, conic sections, logarithmic and exponential functions, a review of trigonometry, polar coordinates and an introduction to limits.

MAT 108  Calculus I
4 lecture hours, 4 credits
Prerequisites: High school Trigonometry and Analytical Geometry or MAT 107
Topics include limits, continuity, differentiation techniques and applications of algebraic, trigonometric, and transcendental functions, as well as definite and indefinite integration techniques and applications of algebraic, trigonometric, and transcendental functions.

MAT 109  Technical Mathematics
3 lecture hours, 3 credits
Prerequisite: Admission to Automotive Technology program
This is a systematic study of ratio and proportion, practical algebra, metric measures, plane and solid geometry as they are applied to measurements and definitions, horsepower, speed ratios and gears.

MAT 110  Algebra and Trigonometry
4 lecture hours, 4 credits
Prerequisite: MAT 105
This is a systematic study of topics of algebra and trigonometry with emphasis on trigonometry.

MAT 115  College Geometry
3 lecture hours, 3 credits
Prerequisites: MAT 050, MAT 051 or equivalent and RDG 099 or ENG 104
This course presents the fundamentals of plane, solid and non-Euclidean geometries. Topics include the history of mathematical thought and reasoning, measurement, congruence, similarity, parallelism, perpendicularity and methods of proof.

MAT 120  Structures of Mathematics
3 lecture hours, 3 credits
Prerequisites: MAT 050, MAT 051, MAT 100 or equivalent and RDG 099 or ENG 104
This course concerns the development of number systems and algebraic structures, including the natural numbers, the integers, rational numbers, real and complex numbers. Students will be required to reason mathematically, solve problems and communicate mathematics effectively at different levels of formality, using a variety of representations of mathematical concepts and procedures.
MAT 121  Structures of Mathematics II
3 lecture hours, 3 credits
Prerequisite: MAT 120

This course is designed primarily for elementary education majors. The course will require students to investigate problems in order to deepen their conceptual and procedural understanding in the areas of algebra, data analysis, probability, geometry, measurement, and systematic listing and counting.

MAT 122  Calculus II
4 lecture hours, 4 credits
Prerequisite: MAT 108

This is a study of integral calculus and its applications. Topics include areas bounded by curves, volumes and surface areas of solids of revolution, arc length, integration by special methods, improper integrals, transcendental functions and infinite sequences and series. The class also covers the study of parametric equations and polar coordinates.

MAT 151  Mathematics for Management
4 lecture hours, 4 credits
Prerequisite: MAT 105 or equivalent

This is a study of those applications of algebra necessary for business analysis. Topics include functions, equations and inequalities, matrix operations, linear programming, sequences and mathematics of finance as they apply to the management sciences.

MAT 152  Applied Calculus
4 lecture hours, 4 credits
Prerequisite: MAT 107 or MAT 151

This is a study of differential and integral calculus with emphasis on applications. Topics include differentiation, rates of change, optimization, logarithmic and exponential functions, partial derivatives and integration.

MAT 200  Foundations of Mathematics II
3 lecture hours, 3 credits
Prerequisite: MAT 100 or MAT 105

The fundamentals of arithmetic and algebra are applied to solve problems involving consumer credit, compound interest, annuities, discount, commission, markup, inventory, depreciation, basic statistics and graphing.

MAT 201  Discrete Mathematics
3 lecture hours, 3 credits
Prerequisite: MAT 107

This course is directed toward computer science and mathematics majors. Topics include sets, relations, functions, logic, induction, combinatorics, Boolean algebra, recurrence relations digraphs and trees. Emphasis is on the solution of problems.

MAT 202  Linear Algebra
3 lecture hours, 3 credits
Prerequisite: MAT 108 or MAT 122

This course is an in-depth study of mathematical proofs and linear algebra. Topics will include specific skills and abstract approaches for mathematical proofs and basic computational techniques, practical applications and theoretical results of linear algebra.

MAT 203  Statistics II
3 lecture hours, 3 credits
Prerequisite: MAT 103

Provides additional research tools and techniques. Topics include testing the difference between mean, variances, and proportions; f-test; chi-square test; ANOVA; linear and multiple regression; correlation; and non-parametric tests. Statistical tests will be presented in the context of basic research techniques.

MAT 205  Differential Equations
4 lecture hours, 4 credits
Prerequisite: MAT 221

This is a study of ordinary differential equations with applications for higher mathematics and engineering. Topics include differential equations of first or higher order, linear differential equations with constant and variable coefficients, solutions by analytical and numerical methods, series solutions and Laplace and inverse transforms.

MAT 221  Calculus III
4 lecture hours, 4 credits
Prerequisite: MAT 122

This course expands the concepts from MAT 108 and MAT 122 to include vector treatment of three-dimensional geometry, partial derivatives of functions of two or more independent variables, multiple integrals, indeterminate forms, parametric equations and polar coordinates.

MAT 229  Reasoning and Proof
4 lecture hours, 4 credits
Prerequisite: MAT 113
Pre or Co-requisite: MAT 201

This course is about writing mathematical proofs precisely and proving statements by various methods. This will involve writing precise statements, writing precise definitions of various concepts and applying mathematical reasoning to prove a statement. All of this will lead us to writing proofs precisely, learning interesting techniques and building intuition through the transition into advanced mathematics.

MUS – Music

MUS 101  Music Appreciation I
3 lecture hours, 3 credits
Pre or Co-requisite: ENG 101 or ENG 101E

MUS 101 appraises the art of music through active listening, introducing basic musical concepts and developing listening perception. Recorded and visual materials are utilized in studying the elements, forms and styles of music with the aim of stimulating a discriminating understanding and enjoyment of various musical styles. The course is organized topically, encouraging students to discover commonalities among widely differing types of music.

MUS 103  Music In Childhood Education
3 lecture hours, 3 credits
Prerequisite: RDG 099, ENG 104

This course focuses on music as an integral component of teaching and learning in the world of early childhood and in the elementary school curriculum. Students interested in working with children at the preschool or primary level will explore a variety of musical styles to develop their own critical aesthetic and artistic vocabulary. Students learn how to help children utilize music in the exploration and expression of thoughts and feelings. The early childhood portion of the course builds an understanding of musical development, with emphasis placed on music and movement. Elementary methods include design, construction, implementation, and assessment of classroom music activities that integrate the arts with elementary classroom curricula.

MUS 106  Choral Workshop I
2 studio hours, 2 lecture hours, 3 credits

Choral Workshop I emphasizes vocal training, basics of musical notation and terminology, and rudiments of sight reading through the study of a variety of choral works. No prior musical training is necessary. Participation in several public performances may be required. Students may enroll for subsequent Choral Workshop classes.
MUS 107 Choral Workshop II
2 studio hours, 2 lecture hours, 3 credits

Choral Workshop II is open to students who have successfully completed Choral Workshop I. This course develops vocal technique, broadens knowledge of musical notation and terminology, and advances sight reading through the study of a variety of choral works. Participation in several public performances may be required. Students may enroll in subsequent Choral Workshop classes.

MUS 108 Choral Workshop III
2 studio hours, 2 lecture hours, 3 credits

Choral Workshop III is open to students who have successfully completed Choral Workshops I and Choral Workshop II. This course allows students to apply their vocal and musical experience in a variety of chamber groupings and formats, demonstrating advanced musicianship and developing flexible ensemble skills in the study of a variety of choral works and styles. Participation in several public performances may be required. Students may enroll for the Choral Workshop IV upon completion of this course.

MUS 109 Choral Workshop IV
2 studio hours, 2 lecture hours, 3 credits

Choral Workshop IV is open to students who have successfully completed Choral Workshops I, II and III. This course allows vocally advanced students to apply their experience in a variety of chamber groupings and formats, polishing a highly developed vocal and choral technique and finessing musicianship skills in the study of a variety of choral works and styles. Participation in several public performances may be required.

MUS 112 Basic Musicianship
3 lecture hours, 3 credits

This course is designed and structured for students with very little or no formal musical training. Its goal is to provide students with a basic working knowledge of the fundamentals of music, including notation of pitch and rhythm, the keyboard, basic precepts of tonality such as key, scale construction and basic chord formation. This course requires no previous musical experience and provides a foundation for the further study of music theory. It may serve as an introductory/refresher course for students considering the A.A. Music Option, but will not transfer to four-year music programs.

MUS 115 Basic Aural Skills
1 lecture hour, 1 credit
Prerequisite: RDG 099 or ENG 104

This course develops rudimentary ear training and sight-singing skills through applied practice with the basics of melodic and rhythmic notation, an introduction to solfege systems and melodic and rhythmic dictation. No prior musical training is required for this course: its co-requisite, Basic Musicianship (MUS 112), builds basic knowledge of melodic and rhythmic notation, clefs, scales and key signatures from the ground up. This course is designed to augment and complement MUS 112, providing reinforcement of those topics through the development of corresponding basic aural and keyboard skills.

MUS 118 American Popular Music
3 lecture hours; 3 credits
Prerequisite: RDG 099 or ENG 104

This course examines the central role of popular music in American life, assessing its importance as both a musical and social phenomenon. It traces the chronological development of popular music as a broad family of styles and genres. The course not only analyzes ways in which popular music has changed over the last two hundred years, but also addresses why it changed, situating musical styles and developments within a rich historical context that includes issues of race, gender, and class.

MUS 121 History of Musical Theatre
3 lecture hours, 3 credits
Prerequisite: RDG 099 or ENG 104

This course gives students the opportunity to evaluate and compare a variety of musicals from the nineteenth century to present-day American and European Musicals including Minstrel Shows, Vaudeville, Operetta, Musical Comedy, Opera on Broadway and Rock Opera. Students will examine composers, lyricists, producers, directors, choreographers and performing artists who have contributed to the development of musical theater. Students will identify historical and cultural references and assess performances viewed in class and online to formulate an opinion of each production.

MUS 126 History of Music
3 Lecture Hours, 3 Credits:
Catalog Description
Prerequisite: RDG 099 or ENG 104

A study of world music from antiquity through the 20th century concentrating on socio-cultural influences, function of music, style and performance practice from Western and Eastern European countries, Latin America and United States. Music for voices and instruments will be studied and the composers who wrote the music.

MUS 203 American Music
3 lecture hours, 3 credits
Prerequisites: MUS 101 and RDG 099 or ENG 104

Students will study seminal works of American art music to identify characteristics associated with major stylistic movements and multicultural influences throughout the recorded history of the American experience. Works and composers will be presented in the context of their sociocultural settings through lectures, discussions and multimedia demonstrations. Coursework includes assigned readings, listening and a group project.

MUS 207 Music History I: Music to 1750
3 lecture hours, 3 credits
Pre or Co-requisites: ENG 101 or ENG 101E

MUS 207 appraises the art of music through active listening, introducing basic musical concepts and developing listening perception. Recorded and visual materials are utilized in studying the elements, forms and styles of music with the aim of stimulating a discriminating understanding and enjoyment of various musical styles. The course is organized topically, not chronologically, and is not limited to historical musical styles; rather, through active listening students are drawn to discover commonalities among all types of music.

MUS 212 Music Theory
3 lecture hours, 3 credits
Prerequisites: RDG 099 or ENG 104 and MUS 112 or demonstrated understanding of rhythmic/pitch notation, intervals, scales and key signatures. (Students wishing to enroll without having completed MUS 112 should contact the instructor; an entrance examination will be scheduled.)

Music Theory is designed for students wanting a deeper understanding of musical structure and function or those intending to major in music. The course covers tonal harmony, develops recognition of written and aural musical features and introduces modal counterpoint.
NMT – Nuclear Medicine Technology

NMT 106 Radiation Safety and Biology
1 lecture hour, 1 credit
Prerequisites: Acceptance into the program. Grade of “C” or higher in PHY 103, CHM 111, BIO 105 and BIO 106
Pre or Co-requisites: Grade of “C” or higher in ALH 107 and NMT 107

This course is designed to augment and complement, Music Theory (MUS 212), it develops ear training and sight-singing skills through the practice and cultivation of singing at sight, familiarity with solfege systems and dictation. This course assumes facility with melodic and rhythmic notation, scales and keys signatures and chord construction. The prerequisite (MUS 112, with a minimum grade of “C”) may be waived depending on results of the placement exam. This course may be taken by any student wishing to improve aural mastery of music theory.

NMT 114 Clinical Imaging Procedures I
2 lecture hours, 2 credits
Prerequisites: Acceptance into the program. Grade of “C” or higher in PHY 103, CHM 111, BIO 105 and BIO 106
Pre or Co-requisites: Grade of “C” or higher in ALH 107 and NMT 106

This course focuses on nuclear physics including the study of electromagnetic waves, the basis of radioactivity, converting units and terminology related to radioactivity.

NMT 116 Basic Nuclear Medicine Procedures
1 lecture hour, 2 credits, 3 lab hours
Prerequisites: Acceptance into the program. Grade of “C” or higher in PHY 103, CHM 111, BIO 105 and BIO 106

Course Fee: G

This course is an introduction to clinical procedures including patient care, basic instrumentation, medical terminology, medical ethics and clinical imaging procedures. The laboratory component is designed to provide the student with the skill set needed to operate equipment commonly used in the field of Nuclear Medicine, and to provide patient-centered care and assessment related to Nuclear Medicine.

NMT 205 Clinical Internship I
450 clinical hours, 10 credits
Prerequisites: Grade of “C” or higher in: NMT 106, NMT 107, ALH 107, NMT 114 and NMT 116.

Program Fee: $1,500

This course introduces students into the clinical environment with directed practice in nuclear radiopharmacy, clinical imaging procedures and basic instrumentation.

NMT 210 Clinical Imaging Procedures II
1 lecture hour, 1 credit
Prerequisites: Grade of “C” or higher in: NMT 106, NMT 107, ALH 107, NMT 114 and NMT 116
Pre or Co-requisite: Grade of “C” or higher in NMT 205, NMT 215

This course examines scanning protocols for additional nuclear medicine procedures. Focus is on radiopharmaceutical dose, patient preparation, route of administration, indications, contraindications, imaging criteria and scan interpretation.

NMT 215 Radiopharmacy
1 lecture hour, 2 credits, 3 lab hours
Prerequisites: Grade of “C” or higher in CHM 111, NMT 106, NMT 107, ALH 107, NMT 114 and NMT 116
Pre or Co-requisite: Grade of “C” or higher in NMT 205 and NMT 210

Course Fee: G

This course focuses on developing the didactic knowledge and laboratory practice of all aspects of nuclear pharmacology including radiopharmaceutical kit preparation, Department of Transportation radioactive package transportation guidelines, package receipt, monitoring, disposal and inventory.

NMT 227 Clinical Internship II
450 clinical hours, 10 credits
Prerequisites: Acceptance in the program, grade of “C” or higher in: NMT 205, NMT 210 and NMT 215
Pre or Co-requisite: Grade of “C” or higher in NMT 230 and NMT 233

Program Fee: $1,500

This course completes the clinical component by providing clinical practice of advanced instrumentation procedures, clinical imaging procedures and radiopharmaceutical preparation and administration.

NMT 230 Nuclear Instrumentation and Statistics
1 lecture hour, 2 credits, 3 lab hours
Prerequisites: Grade of “C” or higher in: NMT 205, NMT 210 and NMT 215
Pre or Co-requisite: Grade of “C” or higher in NMT 227 and NMT 233

Program Fee: G

This course includes the study of the components, operating principles and quality control procedures of nuclear and fusion imaging instrumentation, including Computed Tomography. The laboratory component provides the student with the opportunity to analyze imaging and quality control statistical data to determine the most appropriate course of action.

NMT 233 Clinical Imaging Procedures III
1 lecture hour, 1 credit
Prerequisites: Grade of “C” or higher in: NMT 205, NMT 210 and NMT 215
Pre or Co-requisite: Grade of “C” or higher in NMT 227 and NMT 230

This capture course completes the didactic instruction of NMT clinical imaging procedures.
NTR – Nutrition

NTR 101 Nutrition for Health Professions
3 lecture hours, 3 credits
Prerequisite: RDG 099 or ENG 104

This course will provide students interested in pursuing a healthcare profession with scientific, evidence-based information on human nutrition. Topics covered include food choices that impact health, the digestive system, metabolism, the effects of both macro and micronutrients on health, nutrition’s applications to both health and disease; and nutrition’s requirements throughout life. Nutrition’s impact in morbidity and mortality is a main focus of this course. Students will assess their own personal diet patterns and will develop nutrition plans incorporating healthy eating strategies. Throughout the course, the students will critically evaluate sources of nutrition information for reliability.

NTR 105 Introduction to Nutrition Professions
3 lecture hours, 3 credits
Prerequisite: RDG 099 or ENG 104

This course introduces students to the profession of nutrition and dietetics and to the competencies necessary to be an effective professional and leader in the health care field. Students will explore a variety of career opportunities in nutrition and dietetics. During the semester students will be required to complete twenty professional development hours - examples of which would either be attendance at professional meetings or volunteer activities such as in food banks or food pantries.

Information on competencies and credentialing in the field of nutrition and dietetics, including the path to become a Registered Dietitian (RD), will be reviewed. Principles of effective leadership will be introduced.

NURS – Nursing

NURS 102 Dosage Calculations for Nurses
1 Lecture Hour, 1 Credit
Pre-requisite: MAT 050 or MAT 051

This course will include a review of essential math concepts for dosage calculation including fractions, percentages, ratios, measurements and conversions. Practice and assessment tests will include problems featuring medication administration, including oral, intravenous and parenteral routes. Accreditation standards of medication administration will be emphasized.

NURS 105 Introduction to Nursing Informatics
1 Lecture Hour, 1 Credit
Prerequisite: RDG 099 or ENG 104 and NURS 110 or Registered Nurse license or Licensed Practical Nurse license.

This course will introduce the student to important informatics tools that are currently being utilized in healthcare to ensure safe and quality care. Electronic Health Records (EHR), telehealth, personal reference management software, Evidence-Based Practice (EBP), and HIPAA will be emphasized.

NURS 107 Pharmacology for Health Professionals
3 Lecture Hours, 3 Credits
Prerequisite: BIO 106

This course introduces students to the principles of pharmacotherapy. Origins and classifications of drugs are presented. Safe administration of drugs is stressed, including food and drug interactions and dosage calculation. Selection of alternative therapies are discussed. Legal and ethical aspects of drug use are also emphasized.

NURS 110 Nursing I
4 lecture hours, 90 clinical hours, 6 credits
Prerequisites: RDG 099 or ENG 104
Co-requisites and Prerequisites: BIO 105, PSY 101, ENG 101, ENG 101E
Co-requisite: NURS 111
Program Fee: $1,500

This course serves as the foundation for health and wellness promotion and disease prevention in beginning nursing practice. Focus will be on the concepts related to health across the lifespan, and an introduction in the delivery of competent, quality, safe patient centered care. Concepts from pharmacology, nutrition, pathophysiology, and safety across the lifespan are utilized to provide care in a variety of healthcare settings. Clinical experiences occur in a variety of health care settings.

NURS 111 Nursing I Lab
2.5 lab hours, 1 credit
Prerequisites: RDG 099 or ENG 104
Co-requisites and Prerequisites: BIO 105, PSY 101, ENG 101, ENG 101E
Co-requisite: NURS 110
Program Fee: G

This course focuses on health and physical assessment across the lifespan, and basic clinical nursing skills. Development of knowledge, skills and attitudes for beginning nursing practice will be integrated. Laboratory exercises incorporate real world situational experience with healthcare professionals on the College campus.

NURS 115 LPN to RN Track
3 lecture hours, 3 credits
Prerequisites – Acceptance into the Nursing Program. AND BIO 105, PSY 101, ENG 101/ENG 101E

This course introduces the Licensed Practical Nurse (LPN) to the role of the registered professional nurse (RN) and is the foundation for all subsequent nursing courses. The nurse’s role in promotion, maintenance and restoration of health is explored within the context of a research and practice-oriented profession in addition to teamwork, collaboration, and effective communication. Nursing trends, the teaching learning process and the art and science of caring are discussed. Legal and ethical aspects of the profession are explored. A component of this course will familiarize the student with technology utilized within RCSJ and the Nursing Program.

NOTE: Upon successful completion of NURS 115 LPN-RN students will matriculate into generic track.

NURS 120 Nursing II
6 lecture hours, 135 clinical hours, 9 credits
Prerequisites: NURS 110 & NURS 111
Co-requisites and Prerequisites: BIO 106, ENG 102
Co-requisite: NURS 121
Program Fee: $1,500

This course builds on previously acquired knowledge and learned behaviors of health, wellness promotion and disease prevention. Students will implement evidence-based practice to provide safe and effective care to adults and childbearing and childrearing families. Concepts from pharmacology, nutrition, pathophysiology, and safety across the lifespan are utilized to provide care in a variety of healthcare settings. Clinical experiences occur in a variety of health care settings.
This course builds on acquired knowledge and learned behaviors and requires the demonstration of clinical nursing skills necessary for student progression. Laboratory exercises incorporate real world situational experience with healthcare professionals on the College campus.

**NURS 126 Nursing Reflections**  
2 lecture hours, 2 credits  
Prerequisite: Completion of at least one semester of nursing education or permission of the Dean of Nursing and Health Professions

This course is required for the student nurse who has experienced a semester of absence from the RCSJ nursing curriculum. Emphasis is placed on refreshing knowledge and skills to facilitate success in the classroom and clinical components of future nursing (NURS) courses. All activities will take place on the College campus.

**NURS 210 Nursing Global Issues and Trends**  
2 lecture hours, 2 credits  
Prerequisites: NURS 120, NURS 121, BIO 106, ENG 102

This course focuses on the performance of complex advanced nursing skills necessary for student progression. The expansion of knowledge and behaviors is integrated. Laboratory exercises incorporate real world situational experience with healthcare professionals on the College campus.

**NURS 230 Nursing III**  
4 lecture hours, 180 clinical hours, 8 credits  
Co-requisite and Prerequisite: BIO 215  
Co-requisite: NURS 231 – Nursing III Lab  
Program Fee: $1,500

This course builds on previously acquired knowledge and learned behaviors of health, wellness promotion, and disease prevention. Students will collaborate with a variety of healthcare team members to provide safe and effective care to patients across the lifespan and includes an emphasis on mental and behavioral well-being. Concepts from pharmacology, nutrition, pathophysiology, and safety across the lifespan are incorporated to provide care in a variety of healthcare settings. Clinical experiences occur in a variety of healthcare settings. Clinical experiences occur in a variety of healthcare settings. Clinical experiences occur in a variety of healthcare settings. Clinical experiences occur in a variety of healthcare settings. Clinical experiences occur in a variety of healthcare settings.
This course introduces several contemporary approaches to moral issues and decision-making. We will investigate what makes an action right and wrong for a person living within a social arrangement, and what principles of conduct should guide communal living. Questions we will discuss include: What matters and why? Does human nature imply the right conduct? What is the basis to evaluate action as being morally right or wrong? Does moral wrongness of an action provide decisive reason for not doing this action? What authorizes moral standards for social conduct? The course will address such social issues of the contemporary Western society as, capital punishment, same sex marriage, abortion, social liberty, drug control and other issues.

This course surveys the thought of several of the most important ancient and medieval philosophers. Ancient philosophy was initiated by Greeks living in Asia. Later, it was strengthened by Greek philosophers living in Athens, and elaborated in various ways by their Greek and Roman successors. The works of the ancient philosophers were then transmitted and integrated into the diverse teachings of Muslim, Jewish and Christian thinkers in medieval period. We shall read works, excerpts, or fragments by authors such as Parmenides, Heraclitus, Plato, Aristotle, Plotinus, St. Augustine, Avicenna, Averroes and St. Thomas Aquinas.

This course introduces several contemporary approaches to moral issues and decision-making. We will investigate what makes an action right and wrong for a person living within a social arrangement, and what principles of conduct should guide communal living. Questions we will discuss include: What matters and why? Does human nature imply the right conduct? What is the basis to evaluate action as being morally right or wrong? Does moral wrongness of an action provide decisive reason for not doing this action? What authorizes moral standards for social conduct? The course will address such social issues of the contemporary Western society as, capital punishment, same sex marriage, abortion, social liberty, drug control and other issues.

We will investigate what makes an action right and wrong for a person living within a social arrangement, and what principles of conduct should guide communal living. Questions we will discuss include: What matters and why? Does human nature imply the right conduct? What is the basis to evaluate action as being morally right or wrong? Does moral wrongness of an action provide decisive reason for not doing this action? What authorizes moral standards for social conduct? The course will address such social issues of the contemporary Western society as, capital punishment, same sex marriage, abortion, social liberty, drug control and other issues.

This course addresses properties of matter, principles of hydraulics, dynamics, friction, simple machines and the fundamentals of heat, electricity, electromagnetism and light as these relate to automotive components. Emphasis is on development of skills needed to perform automotive mechanical and electrical diagnosis. Laboratory experiences, designed to augment the conceptual approach to this course, are included.

This course is designed for students of science and pre-engineering. The fundamentals of classical physics are developed in depth through the use of calculus. Emphasis is placed on static, dynamic, kinematic and rotational motion.
PHY 202  Physics II (calculus-based)  
3 lecture hours, 3 lab hours, 4 credits  
Prerequisite: MAT 122, "C" or higher in PHY 201  
Course Fees: C, H  
This course is a continuation of Physics I (calculus-based). The fundamentals of thermal phenomena, electricity, magnetism and light are studied.

PHY 203  Physics III (calculus-based)  
3 lecture hours, 3 lab hours, 4 credits  
Pre or Co-requisites: PHY 202 and MAT 122  
Course Fees: C, H  
This is a continuation of Physics II (calculus-based). The fundamentals of wave motion, fluid mechanics, light phenomena and relativistic mechanics are studied.

PHY 241  Forensic Science I  
3 lecture hours, 3 lab hours, 4 credits  
Prerequisites: for Criminal Justice majors, CRJ 101 for all others, RDG 099 or ENG 104 and MAT 050  
Course Fees: C, H  
Designed for the non-science major, this course is an introduction to the applications of the physical, chemical, and biological principles necessary to provide students with a basic understanding of forensic science as the intersection of these different scientific areas. The use of fundamental scientific principles in laboratory experiments will provide students with an appreciation of modern forensic techniques.

PHY 242  Forensic Science II  
3 lecture hours, 3 lab hours, 4 credits  
Prerequisite: PHY 241  
Course Fees: C, H  
This course involves a more detailed inquiry into the methods and procedures utilized by the forensic crime laboratory in the examination of physical evidence. Emphasis is on field test equipment utilized at the crime scene and laboratory procedures employed for more detailed analysis.

PLG – Paralegal

PLG 101  Introduction to Legal Studies  
3 lecture hours, 3 credits  
Prerequisite: RDG 099 or ENG 104  
This course is an introduction to the legal assistant profession; the system of jurisprudence, its history, philosophy and current trends. The role, ethics and responsibilities of the legal assistant, court structures and court procedures will also be examined. Emphasis is on ethical considerations, the code of ethics, the professional responsibility of NALA and the affirmation of professional responsibility of NFPA and other standards of conduct. The New Jersey court system and the American legal system are explored.

PLG 102  Litigation and Civil Procedure  
3 lecture hours, 3 credits  
Prerequisite or Co-requisite: PLG 101  
This course is a comprehensive survey of civil litigation and procedure. Law and litigation techniques from the filing of the lawsuit through the appellate process will be examined. Students draft complaints, pleadings, interrogatories and a digest of a deposition. Federal and state court rules are studied.

PLG 103  Legal Research and Writing  
3 lecture hours, 3 credits  
Prerequisites: ENG 101 or ENG 101E and PLG 101  
This course develops basic skills in analyzing legal problems, researching the problems and searching for legal authority. Students analyze legal problems using locators, brief cases, use Shepard's Citations and use computer-assisted legal research and reporter systems.

PLG 104  Torts  
3 lecture hours, 3 credits  
Prerequisite or Co-requisite: PLG 101  
This course is a study of the three basic forms of tort liability (intentional torts, negligence, strict liability). Consortium, alienation of affection, loss of consortium and business torts including product liability and criminal conversion are covered.

PLG 110  Contemporary Issues in Paralegal Studies  
3 lecture hours, 3 credits  
Prerequisite: PLG 101  
Contemporary Issues in Paralegal Studies is designed to give in-depth knowledge and practical understanding of the paralegal's role in the specified area of law. The course is designed to give students an opportunity to study areas of law that are currently expanding and/or developing. The student will be expected to demonstrate substantive knowledge of the subject matter as well as professional competency in completing assignments typical to actual practice. Since the "contemporary issue" may change, students should consult the course-offering schedule each semester. Students may repeat the contemporary issues course as long as different issues are offered and as long as they do not exceed the maximum number of hours permitted. A maximum of six credit hours in contemporary issues may be applied toward degree program graduation or certificate completion requirements. Because contemporary issues courses may present transfer difficulties, students should check with their transfer institution's transfer coordinator before enrolling.

PLG 125  Business Organizations for Paralegals  
3 lecture hours, 3 credits  
Prerequisite: RDG 099 or ENG 104  
Co-requisite: PLG 101  
This course introduces the paralegal student to the principles of agency law and the basic forms of business organizations, including sole proprietorships, partnerships, limited liability companies and corporations. Students will prepare the documents necessary to the organization and operation of each form of business.

PLG 201  Criminal Law and Procedure for Paralegals  
3 lecture hours, 3 credits  
Prerequisite or Co-requisite: PLG 101  
This Criminal Law and Procedure course is designed to provide student paralegals with an overview of the criminal justice process. This course covers the substantive aspects of criminal law and includes the general principles of criminal liability, specific analysis of particular crimes, parties to crimes and substantive defenses to crimes. Constitutional safeguards and procedures from arrest through trial, sentencing, punishment and appeal are also studied.

PLG 203  Bankruptcy  
3 lecture hours, 3 credits  
Prerequisite: PLG 101  
This course introduces the student to bankruptcy law with emphasis on the paralegal's role. Topics include an introduction to the bankruptcy law, bankruptcy court procedures and the preparation of bankruptcy forms and documents, debtor's and creditor's rights and litigation proceedings in bankruptcy court. Students will learn to recognize ethical considerations for paralegals working in this area and learn current computer applications utilized in a bankruptcy practice. Emphasis will be on consumer bankruptcy including Chapter 7 and 13 of the Bankruptcy Code and the role of the paralegal as part of a team in a bankruptcy practice.
**POL – Political Science**

**POL 101  American Federal Government**
3 lecture hours, 3 credits

This introductory political science course stresses fundamental principles of American Federal government. The structure of government is studied along with power distributions and its concomitant conflicts. Civil liberties, political parties, elections and citizenship are carefully considered.

**POL 103  Introduction to Political Science**
3 lecture hours, 3 credits

This is an introductory course in political science with emphasis on the tools of the discipline, political systems, political policy making, political philosophy and political change.

**POL 120  Public Administration**
3 lecture hours, 3 credits

Prerequisites: EN 060

An examination of the relationships between government and business, and contemporary theories of leadership practices and principles.

**PSY – Psychology**

**PSY 100  Interpersonal Psychology**
3 lecture hours, 3 credits

Prerequisites: RDG 099 or ENG 104

This is an introduction to the study of behavior. The scientific method is studied with its application as seen in the principal research findings in the major areas of modern psychology, such as human development and individual differences, sensation and perception, learning and intelligence, personality formation and abnormal psychology.

**PSY 101  General Psychology**
3 lecture hours, 3 credits

Prerequisite or Co-requisite: PLG 101

This course covers the Probate Code of New Jersey Probate Procedure, descendants' estates, death and inheritance taxes and other related problems. Special attention will be given to will and tax preparation.

**PSY 102  Understanding Addictive Behavior**
3 lecture hours, 3 credits

Prerequisite: PSY 101

This course covers the Probate Code of New Jersey Probate Procedure, descendants' estates, death and inheritance taxes and other related problems. Special attention will be given to will and tax preparation.

**PSY 200  Understanding Addictive Behavior**
3 lecture hours, 3 credits

Prerequisite: PSY 101

This course is an overview of pharmacology in relationship to addictions and their effect on the human body. Alcohol and drugs of abuse and addiction and how they affect behavior will be examined. Specific topics to be discussed include the classification of medications; legal and ethical principles regarding clinical drug trials and the FDA approval process; legalities of drug trafficking; acute and chronic effects; reversible and irreversible consequences of the nervous system; neurobehavioral dysfunctions and other multi-sided aspects of addiction. A special emphasis will be placed on culture, ethnic and age-related considerations. This course will provide an understanding of the role of pharmacology in the counseling file.
PSY 203  Educational Psychology  
3 lecture hours, 3 credits  
Prerequisite: PSY 101  

This course focuses on the learning process in children and adolescents, especially in an educational setting, with emphasis on motivation, problem solving, assessment and evaluation; environmental and hereditary influences in learning and theories of learning. Field observations and reports are required.

PSY 211  Psychology of Human Development  
3 lecture hours, 3 credits  
Prerequisite: PSY 101  

This study of the psychology of the human lifespan includes prenatal, infancy, childhood, adolescence, adulthood and aging development. Social-emotional theories of development, cognitive and language development and issues related to the stages of development are discussed.

PSY 212  Psychology of the Adolescent  
3 lecture hours, 3 credits  
Prerequisite: PSY 101  

This course considers patterns of behavior characteristics from puberty to adulthood. Emphasis is on developmental changes in physical, intellectual, motivational and emotional growth in a cultural context.

PSY 213  Child Psychology  
3 lecture hours, 3 credits  
Prerequisite: PSY 101  

Development and analysis of prenatal factors and infant and child behavior are considered. Topics include motor development, emotional development, motivation, language, thinking, work and play. Problems and methods of child study, application of research, effects of heredity and environment on the individual, individual differences and theories of personality development are studied. Observations are required.

PSY 215  Psychology of Aging  
3 lecture hours, 3 credits  
Prerequisite: RDG 099 or ENG 104  

This is a study of the changing personality and behavior of the aging person and the effect of the changing nervous system on psycho/social relationships.

PSY 230  Abnormal Psychology  
3 lecture hours, 3 credits  
Prerequisite: PSY 101  

This is a study of behavior and personality disorders. Social, physiological and individual factors of behavior disorganization, evaluation and treatment are reviewed.

PSY 231  Abuse and Violence in the Family  
3 lecture hours, 3 credits  
Prerequisite: RDG 099 or ENG 104  

This course focuses on causes of abuse and violence in the family and strategies for reducing and eliminating abuse. Spouse/partner abuse, child abuse and elder abuse are addressed from legal, medical and social perspectives. Seminar format is utilized.

PSY 240  Social Psychology  
3 lecture hours, 3 credits  
Prerequisite: SOC 101 or PSY 101  

This is an introduction to the concepts of group behavior, their empirical foundations and their implications for the individual in interpersonal relationships.

PSY 300  Introduction to Sport & Exercise Psychology  
3 lecture hours, 3 credits  
Prerequisite: PSY 101  

This course examines theories and models of psychology and how they relate to human performance. Topics include personality, exercise environments, motivation, and arousal. Stress and anxiety, group processes, leadership and psychological well-being and their impact on sport and exercise is also discussed.

PSY 308  Social Psychology of Sport  
3 lecture hours, 3 credits  
Prerequisite: PSY 300  

This course examines issues related to athletic performance based on theoretical perspectives and current research addressing the impact of social concepts on sport and exercise. Topics include relationships in sport, team cohesion, group dynamics, effective communication, coach's impact on leadership, motivational climates and athletic transition.

PTA — Physical Therapist Assistant

PTA 101  Introduction to Physical Therapist Assisting  
1 lecture, 1 credit  
Prerequisite: Grade of “C” or better in ENG 101 or ENG 101E  
Co-requisite: HPE 106, PTA 102  
Program Fee: $1,500  

This course will provide an introduction to the physical therapy profession, including a history of the American Physical Therapy Association; the role of the PTA as a member of the health care team; the PT/PTA relationship; physical therapy practice settings and specialties; as well as an introduction to physical therapy regulations, ethics, patient communication, patient health care records and documentation.

PTA 102  Kinesiology and Measurement of the Musculoskeletal System  
3 lecture hours, 7 lab hours, 6 credits  
Prerequisite: Grade “C+” or better in each of the following: BIO 105 and MAT 115  
Pre or Co-requisite: BIO 106, PTA 101  
Course Fees: I

Building upon Anatomy and Physiology I, this course will provide an in-depth study of the biomechanical principles and anatomical structures responsible for human movement, as well as the fundamentals and physiological effects of therapeutic exercise. Students will be expected to demonstrate in lab competency with palpation of anatomical landmarks; assessing anthropometric measurements, muscle strength, joint range of motion, posture and gait; and performing common therapeutic exercises for strengthening, stretching, balance and coordination. Documentation regarding data collection and treatment interventions will also be included.

PTA 105  Pathophysiology for the PTA  
2 lecture hours, 2 credits  
Prerequisite: Grade of “C+” or better in BIO 106  
Co-requisites: PTA 107, PTA 210  

The student is introduced to the medical and surgical conditions most frequently encountered in PT departments, with emphasis on the role of the PTA in the treatment of each. The basic inflammatory and healing processes and the principles of treatments to promote healing are covered. Students will become familiarized with the essential nature of diseases and abnormalities of structure and function that are characteristic of diseases. Students will receive an introduction to pharmacology and to the systematic review of professional literature to research PT-Related diagnoses.
PTA 107  Essential Skills for the PTA I: Patient Care
2 lecture hours, 6 lab hours, 4 credits
Prerequisite: PTA 102
Co-requisite: PTA 105
Course Fees: I

This course will introduce students to fundamental patient care skills and assessment techniques, including patient interviewing, vital signs, body mechanics, positioning, bed mobility, transfer techniques, gait training, aseptic techniques, basic wound care and wheelchair management. During laboratory time, students will practice skills utilizing simulated patient care scenarios prior to being assessed through skill competency testing and practical examinations.

PTA 207  Essential Skills for the PTA II: Biophysical Agents
2 lecture hours, 6 lab hours, 4 credits
Prerequisite: PTA 102
Co-requisite: PTA 208
Course Fees: I

This course is designed to prepare students for the safe and effective application of therapeutic modalities in physical therapy practice. Mechanisms of action, indications, contraindications, precautions and parameters will be covered for the use of superficial and deep heat; cryotherapy; mechanical compression; electrotherapy; spinal traction; therapeutic massage; hydrotherapy and light therapy. Lecture and laboratory activities will develop problem solving and critical thinking skills regarding the use of therapeutic modalities and skills will be assessed to competence level.

PTA 208  Management of Neurological Disorders
3 lecture hours, 3 lab hours, 4 credits
Prerequisite: PTA 105
Co-requisite: PTA 207
Course Fees: I

This course will focus on the characteristics and treatment of pediatric and adult neurological disorders, as well as their impact on human motor development. Students will be taught the concepts of motor control and motor learning development, as well as the theory and practical application of treatment interventions utilized for the treatment of patients with neurological disorders. The focus will be on patient function including assessment instruments used to identify and document architectural barriers and the level of assistance needed for performance of activities of daily living. Skills learned in lab will be tested to a level of competence throughout the semester.

PTA 209  Clinical Experience I
90 clinical hours, 2 credits
Prerequisites: PTA 102, PTA 107, PTA 207 (Practical #1) and PTA 210
Program Fee: $1,500

This is an integrated clinical affiliation used to introduce the Student Physical Therapist Assistant (SPTA) to the operational procedures of a clinical setting. The student will be immersed in patient/client interactions as well as the PT-PTA relationship and will be expected to perform at the advanced beginner level for skills in data collection techniques and mobility training. The SPTA must maintain proficiency in all areas of patient safety.

PTA 210  Orthopedics for the PTA
1 lecture hour, 1 lab hour, 1 credit
Prerequisite: PTA 102
Co-requisite: PTA 105, PTA 107
Course Fee: G

This course builds upon the concepts introduced in PTA 102 Kinesiology and Measurement of the Musculoskeletal System, with a focus on common orthopedic injuries, disorders and surgeries. PTA students will receive instruction on the phases of musculoskeletal tissue healing, treatment interventions, patient education and therapeutic exercise progression within the plan of care developed by the supervising physical therapist.

PTA 216  Cardiovascular and Pulmonary PT
1 lecture hour, 2 lab hours, 2 credits
Prerequisites: PTA 102, PTA 105
Course Fees: G

This course will focus on assessment techniques and treatment interventions for cardiovascular and pulmonary pathologies, as well as assessment and treatment for patients with amputations. Knowledge and lab skills will be assessed through skill-competency testing, written examinations and practical examinations.

PTA 229  Clinical Experience II
270 clinical hours, 6 credits
Prerequisites: PTA 207, PTA 208, PTA 209, PTA 210 and PTA 216
Co-requisite: PTA 240

Knowledge and skills learned in all PTA program coursework will be integrated and applied to direct patient care during this 6-week, full-time clinical education experience. In addition, students will complete five clinical conference hours online each week. By the conclusion of the experience, students will be expected to safely perform quality physical therapy care for routine patients with minimal supervision and guidance from the supervising physical therapist.

PTA 239  Clinical Experience III
270 clinical hours, 6 credits
Prerequisite: PTA 229
Co-requisite: PTA 240
Course Fee: S, Program Fee: $1,500

Knowledge and skills learned in all PTA program coursework will be integrated and applied to direct patient care during this six-week, full-time clinical education experience. In addition, students will complete five clinical conference hours online each week. By the conclusion of the experience, students will be expected to safely perform quality physical therapy care at the level of an entry-level physical therapist assistant.

PTA 240  Seminar in PTA Professionalism
1 lecture hour, 1 credit
Prerequisite: PTA 209
Co-requisites: PTA 229 and PTA 239
Course Fee: T

This capstone course is designed to further develop the professional behaviors and expectations of an entry-level physical therapist assistant including exploration of topics related to ethics and jurisprudence. Assignments will include completing the steps necessary to apply for the National Physical Therapy Exam and for state licensure. Students will be expected to participate in the implementation of a community-based or volunteer service learning project.
PTE – Process Technology

**PTE 101 Process Technology I: Introduction to Process Technology**

3 lecture hours, 3 credits  
Prerequisite: RDG 099 or ENG 104

This course is designed to serve as an introduction to the field of Process Technology for the Chemical, Energy, Food, Oil and Gas, Pharmaceuticals, Pulp and Paper, Power, Refining and Waste Treatment industries. Students will develop an understanding of the roles, responsibilities and expectations of a Process Operator, process terminology, plant organization and operations, equipment and systems.

**PTE 102 Process Technology II: Instrumentation**

3 lecture hours, 3 credits  
Prerequisites: Minimum grade of “C” in PTE 101 and CHM 107

This course is designed to equip students with the instrumentation and documentation skills necessary to work in the field of Process Technology. Students will understand common terminology, relationships between process variables and process instruments controlling pressure, temperature, flow and level. Control loops and the interactions between each component of a control loop will be examined. Students will also have the opportunity for field experience/activity by visiting manufacturing sites and will benefit from experts in the field.

**PTE 103 Principles of Occupational Safety and Health**

2 lecture hours, 2 lab hours, 3 credits  
Prerequisites: Minimum grade of “C” in PTE 101 and CHM 107

Course Fee: G

This course will introduce students to industrial hygiene by evaluating the sampling and analytical techniques required to evaluate chemical, physical and biological health and safety hazards in the industrial environment. Students will understand the fundamentals of Occupational Safety and Health as it relates to industrial work environments.

**PTE 201 Process Technology Equipment**

3 lecture hours, 3 lab hours, 4 credits  
Prerequisite: Minimum grade of “C” in PTE 101  
Pre or Co-requisite: CHM 107

Course Fee: H

This course will introduce students to the equipment commonly utilized in the process industries. Students will learn about the operation of processing equipment such as piping, tubing, valves, pumps, compressors, motors, reactors, filters, dryers and gauges.

**PTE 202 Process Technology Systems and Troubleshooting**

5 lecture hours, 5 credits  
Prerequisite: Minimum grade of “C” in PTE 102

This course will introduce students to the relationships between process equipment and systems. Students will identify and explain how process systems are controlled under normal conditions, recognize abnormal process conditions and how to troubleshoot the system.

**PTE 203 Industrial Process Operations**

3 lecture hours, 3 credits  
Prerequisite: Minimum grade of “C” in PTE 102

This course will provide an overview of the common types of industrial field processes. Students will explore types of commercial processes and understand the operation of an entire operating process unit.

SCI – Science

**SCI 105 Introduction to Experimentation**

1 lecture hour, 1 credit

An introductory course exploring the Scientific Method and the concepts of experimental design. This is a one-credit course designed for students pursuing careers in science or students wanting to have a better understanding of the scientific process.

**SCI 110 Women in STEM Seminar**

1 lecture hour, 1 credit  
Prerequisite: RDG 099 or ENG 104 and permission from Dean of STEM

The focus of this course will be on the history of women in science and current obstacles women face in scientific fields. We will discuss recommendations for change with the goal of encouraging the participation in and representation of women in science. Gender-inclusive, alternative teaching methods that emphasize cooperative learning, group discussion and critical analysis will be incorporated.

**SCI 201 Honors Research**

1 lecture hour, 10 lab hours, 3 credits  
Prerequisite: BIO 102 or BIO 106, CHM 111 and minimum GPA 3.5

This course is designed to provide STEM majors with practical experience while working for 10 hours/week at a field location. The course is designed for students who aspire to gain career-related experience while completing their degree. This course will have an academic experience and a supervised work experience.

SOC – Sociology

**SOC 101 Principles of Sociology**

3 lecture hours, 3 credits  
Prerequisite: RDG 099 or ENG 104

This is a study of the basic concepts of sociology applied to modern society and the use of the scientific methods in sociology. Analysis of social relationships, groups, institutions, population, systems of control and social change will be examined.

**SOC 102 Sociology of the Family**

3 lecture hours, 3 credits  
Prerequisite: RDG 099 or ENG 104

This course studies the American family from a contemporary and sociological viewpoint. The essence of the family in an historical cross-cultural perspective and new experiments in family lifestyles are explored. Emphasis is on the family as an important social institution.

**SOC 104 Social Problems**

3 lecture hours, 3 credits  
Prerequisites: RDG 099 or ENG 104

This course examines the social problems in society using sociological theories and concepts. Contemporary social problems including, but not limited to, racial and ethnic relations, family problems, crime, mental illness, poverty and alcoholism will be analyzed.

**SOC 110 Cultural Anthropology**

3 lecture hours, 3 credits  
Prerequisite: RDG 099 or ENG 104

This course is an introduction to the complexity of human life and anthropologist’s view of the essential aspects of culture. The course stresses the variety of ways that human groups have organized their societies as alternatives for solving common human problems.
This course investigates the relationship between technological advances and the influence they have had on society throughout history. Social and cultural changes are reviewed in the context of technology and ethical issues that contemporary society faces because of new technological developments.

This course will explore social work in contemporary society. Social work theories, processes and concepts utilized in social service delivery systems will be examined.

A sociological and psychological exploration of issues surrounding death and bereavement such as grief, funerals, euthanasia, suicide and the dying patient.

This is an orientation to the divergent theories, philosophies, values, attitudes and historical events that have contributed to the operation of modern juvenile justice systems; causes and attempts to prevent delinquency; identification of delinquents; detention and treatment methods; adjudication and disposition including related social agencies.

Fieldwork I is designed to give the student a veridical understanding of alcohol and drug practice. Students volunteer at various local drug and alcohol agencies*. The focus is on addiction as a disease as well as environmental contributions to the addiction. The effects on the individual and family will be covered in addition to other support systems for those affected by addictions. A LCADC (License Certified Alcohol and Drug Counselor) at the agency directs and monitors the students’ activities 90 hours during the semester.

Fieldwork II is designed to give the student a veridical understanding of social work practice. Students are assigned to various local social services agencies.*

*90 hours of field experience is required.

This course delineates the realities of aging through the comprehensive exploration of the social, psychological and physiological issues associated with the aging process. For each topic discussed, the developmental stages of early, middle, late and their various characteristics are explored, as they impact upon the ethos of aging in the US.

This course is designed to introduce students to techniques as well as methods of recording commonly used in agency practice. In addition, an overview of normal and abnormal growth and development will be stressed with practical application from clients in field experiences case materials drawn from the Council of Social Work Education materials, including case work, group work, and community organization methods.

This course provides a study of prejudice, discrimination, and the relations between and within different cultural and racial groups in the US.

An introduction to biological and social science concepts of human development and social functioning necessary for the practice of social work.

An examination of the manner in which macro systems in the social environment affect human behavior, with a focus on populations at risk and community empowerment.

Field Work I is designed to give the student a veridical understanding of social work practice. Students are assigned to various local social service agencies. A pre-assigned person at the local agency directs and monitors the student’s activities eight (8) hours each week during the semester to complete 90 hours for the semester.

Introductory grammar and pronunciation form the basis of this course, designed to develop communicative skills in Spanish. Oral and written exercises and reading of easy prose and dictations are the points of departure.

Advanced grammar and vocabulary are explored in the development of comprehension, writing and speaking of Spanish.

This course introduces the law enforcement officer to the Hispanic culture in America and increases cross-cultural awareness. It provides a working knowledge of Spanish specific to job responsibilities.
SPA 130 Spanish for the Medical Profession
3 lecture hours, 3 credits
Prerequisite: RDG 099 or ENG 104
Spanish for the Medical Profession prepares health care workers to communicate effectively when providing medical care and attention to Spanish-speaking patients in medical settings. In addition to workplace Spanish language, the course provides transcultural training. Emphasis is on enhancing quality patient care.

SPA 201 Intermediate Spanish I
3 lecture hours, 3 credits
Prerequisite: SPA 102 or two years of high school Spanish
A general review of grammar and speech patterns accompanies the introduction of selected readings from Spanish literature. The class is conducted primarily in Spanish.

SPA 202 Intermediate Spanish II
3 lecture hours, 3 credits
Prerequisite: SPA 201 or 3 years of high school Spanish
Increased dependence on fluency is emphasized through classroom discussions in Spanish of culture and history and by reading a major work from Spanish literature.

SPE – Speech

SPE 101 Oral Communication
3 lecture hours, 3 credits
Prerequisite: RDG 099 or ENG 104
SPE 101 stresses principles and practices of oral communication, especially speaking to inform. The course includes consideration of voice and articulation, conversation and discussion. Emphasis is on preparation and presentation of speeches.

SPE 103 Voice and Diction
3 lecture hours, 3 credits
Prerequisite: RDG 099 or ENG 104
This course enhances, corrects and strengthens the voice and speech of the individual. Although intended for any student, it helps those in communications, broadcasting and acting. It can also be of help to those with accents.

THR – Theatre Arts

THR 105 Fundamentals of Ballet
2 lecture hours, 2 studio hours, 3 credits
THR 105 introduces students to vocabulary and technique of ballet movements with emphasis on body alignment and effective methods for gaining strength and flexibility necessary for proper ballet deportment. The course includes barre, centre floor and basic elements of classical ballet vocabulary.

THR 107 Fundamentals of Jazz Dance
2 lecture hours, 2 studio hours, 3 credits
THR 107 introduces students to a comprehensive style and technique rooted in traditional jazz dance and to a variety of movement concepts of contemporary jazz dance. The concepts and techniques covered in this class reflect the evolution of jazz dance in America, an evolution due in great part to various music, cultural and social dance influences throughout its history.

THR 109 Living Theatre
3 lecture hours, 3 credits
This course examines theatre from the perspective of those who create it. It addresses the many issues surrounding the ancient art of live theatre in an increasingly digital age, and analyzes the ways in which individual theatre artists create a production, and engages with the reasons why they do so. Students are encouraged to explore ways in which the craft of theatre can be relevant in other aspects of their lives.

THR 111 Acting Workshop I
2 lecture hours, 2 studio hours, 3 credits
Prerequisite: RDG 099 or ENG 104
This course features instruction and practice in the development of characterization, styles of acting and refinement of vocal and physical control. In-class rehearsals and performances of selected works are conducted. Students may enroll for subsequent Acting Workshop classes.

THR 112 Acting Workshop II
2 lecture hours, 2 studio hours, 3 credits
Prerequisite: THR 111 with a minimum grade of "D-"
Building upon the skills addressed in Acting Workshop I, this course features an overview and advanced instruction and practice in the development of improvisation, monologues and scene studies and refinement of vocal and physical control. In-class recitation and performances of selected works are conducted.

THR 205 Introduction to Theatre and Dance
2 lecture hours, 2 studio hours, 3 credits
This course introduces current and historical examples of theatre and dance with emphasis on the distinguishing characteristics of each form of performance and on the principles of temporal composition common to all linear or abstract performing art. The course stresses the fundamentals of interpretation and analysis essential to advanced work in performance, design and criticism.

THR 208 Experiencing Acting
2 lecture hours, 2 studio hours, 3 credits
This course is for students interested in exploring their acting talents. Using improvisation, theatre games and scene projects, students examine how actors strengthen and use imagination, awareness and creativity, and learn to analyze, prepare and perform a role.

THR 210 Advanced Ballet
2 lecture hours, 2 studio hours, 3 credits
This course is designed for students with sufficient technical training in ballet fundamentals to continue their development at the intermediate-advanced level. Advanced Ballet includes barre and centre floor, and it continues to build on the elements of the classical ballet.

THR 211 Acting Workshop III
2 lecture hours, 2 studio hours, 3 credits
Prerequisite: THR 112 with a minimum grade of "D-"
This course details preparation and practice in the progression of performance and character analysis, a variety of acting approaches, and honing vocal and physical control. In-class presentations of selected works are conducted.

THR 212 Acting Workshop IV
2 lecture hours, 2 studio hours, 3 credits
Prerequisite: THR 211 with a minimum grade of "D-"
This is a practical course that allows students to build self-confidence in the areas of character development, acting techniques and freedom in voice and movement. Presentations of various self-selected works are conducted.
This course is a comprehensive technique class that will expand, strengthen, and enhance the students’ existing knowledge of jazz dance obtained in Fundamentals of Jazz Dance. This course is designed to increase the students’ ability to remember and to perform jazz dance confidently in shows, auditions, and teaching. This course offers additional challenges that support students’ individual efforts to achieve their own personal best as they explore the artistry that fuels the many facets of jazz dance.

VETT – Veterinary Technology

VETT 101: Introduction to Veterinary Technology
3 Lecture Hours, 3 Credits
Prerequisite: Acceptance into the Veterinary Technology Program

This course is designed to acquaint the student with the profession of veterinary technology and the role of the veterinary healthcare team in animal and public health. Veterinary office procedures, including veterinary medical record-keeping, veterinary client-patient relationship (VCPR), and breed/species identification will be discussed. This course will also include medical and veterinary terminology, fundamental legal concepts, and state veterinary practice acts.

VETT 105: Anatomy and Physiology of Domestic Animals I
3 Lecture Hours, 3 Lab Hours, 3 Credits
Pre- or Co-Requisite: VETT 101

This course is designed to instruct veterinary technician students in the anatomy and physiology of common structures of small, food/fiber, laboratory, and exotic animals compare and contrast the structural and functional differences among various species. Students apply appropriate medical terminology to describe anatomical structures and their corresponding physiology relative to the animal’s position. This course will focus on the integumentary, skeletal, muscular, nervous, and endocrine systems. The laboratory will correlate with lecture material and will help to visualize these concepts. Organ systems include the integumentary, skeletal, muscular, nervous, and endocrine systems.

VETT 106: Anatomy and Physiology of Domestic Animals II
3 Lecture Hours, 3 Lab Hours, 4 Credits
Prerequisite: VETT 105

This course is designed to instruct veterinary technician students in the anatomy and physiology of common structures of small, food/fiber, laboratory, and exotic animals compare and contrast the structural and functional differences among various species. Students apply appropriate medical terminology to describe anatomical structures and their corresponding physiology relative to the animal’s position. This course will focus on the cardiovascular, respiratory, digestive, urinary, reproductive, and immune systems. The laboratory will correlate with lecture material and will help to visualize these concepts. Organ systems include the cardiovascular, respiratory, digestive, urinary, reproductive, and immune systems.

VETT 110: Veterinary Pharmacology
Lecture Hours/Credits: 3/3
Prerequisite: MAT 101, VETT 101

This course studies the principles and practices related to veterinary pharmacology. It will explore the most commonly used classes of drugs, the applications to each body system, medication calculations (including fluid therapy and constant rate infusions), and the record-keeping responsibilities involved in handling and dispensing medications, including controlled substances.
**VETT 220: Laboratory and Exotic Medicine and Nursing Care**

*2 Lecture Hours, 2 Clinical Hours, 4 Credits*

*Prerequisite: VETT 115*

This course is designed to acquaint the student with laboratory and exotic pet husbandry fundamentals, nutrition, common diseases, zoonotic disease medicine, and treatment. In a clinical setting, students will be able to discuss the recommended diet and habitat for each species covered as well as restraint and treatment techniques, common diseases and zoonotic concerns for pet owners and the veterinary health care team.

**VETT 225: Veterinary Diagnostic Imaging & Dentistry**

*3 Lecture Hours, 3 Credits*

*Prerequisite: VETT 105*

Fundamental diagnostic imaging concepts will be discussed, including patient positioning, film processing, digital imaging, radiographic technique, and radiation safety procedures. Other imaging technologies that will be addressed include endoscopy, ultrasound, fluoroscopy, MRI, CT scan, and nuclear scintigraphy. The second half of this course serves as an introduction to the fundamental techniques of veterinary dentistry used by veterinary technicians. Discussions will focus on learning and applying techniques in preventive care, periodontics, endodontics, orthodontics, and dental radiology appropriate for veterinary technicians. The student will acquire knowledge of dental diseases, diagnostic techniques, and therapeutic techniques and equipment.

**VETT 230: Veterinary Surgical Nursing & Anesthesia**

*3 Lecture Hours, 3 Credits*

*Prerequisite: VETT 110; VETT 105*

*Co-Requisite: VETT 105*

This course is designed to acquaint the student with standard surgical procedures, principles of asepsis, maintenance of the surgical environment, operating room conduct, surgical instrument identification, care and processing, and patient surgical preparation. The student will learn to work collaboratively to develop a balanced anesthetic protocol and implement a multimodal analgesic plan to improve patient care. Topics include maintenance and troubleshooting of anesthetic equipment, maintenance of a patent airway, patient monitoring during all stages of anesthesia, responding appropriately to changes in patient status, ongoing assessment for appropriate analgesia, and client education to ensure the well-being of the patient and efficacy/safety of the medication or anesthetic procedure.

**VETT 235: Veterinary Emergency Medicine**

*3 Lecture Hours. 3 Credits*

*Prerequisite: VETT 110, VETT 201*

This course is designed to acquaint the student with veterinary emergency and critical care medicine fundamentals and techniques appropriate for veterinary technicians. The student will learn to identify an emergency, assess, and monitor patient status, properly administer medications, fluids, oxygen, and blood products, identify equipment required for emergency and critical care patients, and assist in those specialized procedures. The importance of evidence-based cardiopulmonary resuscitation (CPR) techniques will be stressed.

**WIND – Wind Power**

**WIND-101: Offshore Safety and Survival**

*3 Lecture Hours, 3 Lab Hours, 4 Credits*

The Offshore Safety and Survival course covers safe working practices for the offshore industry, especially for working with offshore wind turbines. The course discusses the basic and advanced-level safety issues, examines case studies in rescue and first aid, and identifies skill sets needed for activities such as climbing, blade repair, handling of fire, identification of hazards, and manual handling. Laboratory work will include Offshore Safety and Survival practices and regulations.

**WIND-105: Corrosion Management and Control**

*3 Lecture Hours, 3 Credits*

This course examines fundamental principles behind the corrosion of structures and discusses best practices in corrosion control and its management.

**WIND-110: Wind Power Technology**

*3 Lecture Hours, 3 Lab Hours, 4 Credits*

*Prerequisite(s): ETEC-240 Pneumatic and Hydraulic Automation*

This course is designed to provide the operational and electrical skills required for an entry-level technical position in the global wind industry. Wind Power Technology will equip individuals with the knowledge and skills required for assembling, installing and/or repairing wind energy projects of different scales, from small commercial and municipal turbines to utility-scale wind farms located offshore. Themes include: Project Operations, Turbine Fundamentals, Cranes & Rigging, Fasteners & Torquing, Shaft Alignment and Bonding, Grounding and Lightning Protection systems. Laboratory work will include technical processes.

**WIND-115: Wind Power Operations and Maintenance**

*3 Lecture Hours, 3 Lab Hours, 4 Credits*

*Prerequisite(s): ETEC-240 Pneumatic and Hydraulic Automation*

This course is designed to provide the operational and mechanical skills required for an entry-level technical position in the global wind industry. It will also provide individuals with the knowledge and skills required for the operation and maintenance of wind energy projects. From small commercial and municipal turbines to utility-scale wind farms located offshore or land-based. Laboratory work will include maintenance operation, cooling/heating systems, and programmable logic controllers.

**WIND-120: Power Transmission in Offshore Environments**

*3 Lecture Hours, 3 Lab Hours, 4 Credits*

*Prerequisite: WIND-110 Wind Power Technology*

This course identifies key components of infrastructure needed to transport offshore generated power to onshore locations. These components include offshore cables (HVDC and HVAC), offshore substations, electrical transformers, and power controlling and protection devices. The course also examines monitoring practices and maintenance needs associated with each of these components and identifies some of their common failures and related corrective/preventative maintenance strategies. The economics of offshore power generation and transportation are briefly discussed. Laboratory work will include working with HVDC and HVAC cables, electrical transformers, and power-controlling devices.
**300-level Courses**

The 3+1 option allows students to attend RCSJ for three years at the RCSJ rate and complete their senior year at Rowan University, paying the Rowan University rate. This allows students to save on tuition and fees while earning their bachelor's degree. This program follows Rowan University’s course curriculum with 300-level courses taught by RCSJ advanced degree faculty. Students will graduate with a Rowan University bachelor's degree. Future internships and internship opportunities are being developed to enhance work experience and career potential.

**3+1 Eligible Programs**

- Applied Professional Communications — *Arts and Sciences: Communication Option (A.A.)*
- Criminal Justice — *Criminal Justice (A.S.)*
- Data Analytics — *Business Administration (A.S.)* or *Computer Information Systems (A.S.)* or *Computer Science (A.S.)*
- Disaster Preparedness & Emergency Management — *Criminal Justice, Emergency Management, Option (A.S.)*
- Fitness Management — *Exercise Science (A.S.)*
- Business Administration: Global Business Leadership — *Business Administration (A.S.)*
- Inclusive Education — *Education (A.S.)*
- Law & Justice Studies — *Criminal Justice (A.S.)*
- Nursing — *Nursing Generic Program (A.S.)*
- Psychology — *Psychology (A.S.)*
- Radio, Television & Film — *Arts and Sciences: Radio, Television & Film Option (A.A.)*

For more information, please visit [RCSJ.edu/3plus1](http://RCSJ.edu/3plus1).

---

**WIND-125: Data and Command Center Management**

**Syllabus**

3 Lecture Hours, 3 Lab Hours, 4 Credits

*Prerequisite(s): WIND-110 Wind Power Technology*

This course examines the importance of condition monitoring and its application to offshore wind turbines. Topics include the gathering and analysis of condition monitoring data, the technical and financial rations behind maintenance decisions, and the significance of the Data and Command Center where all such work is carried out. Also included are the structure of a Data and Command Center, the jobs and roles associated with it, and its importance in offshore wind turbine management and maintenance. Data privacy and security-related issues are also discussed. Laboratory work will include data monitoring and data analysis.

---

**Third Year (Advanced Studies) Course Descriptions:**

*Course work for 3+1 students only.*

**Applied Professional Communications**

*Prerequisite: Completion of the AA Arts and Sciences Communications Options Degree*

This course focuses on design, layout, and make-up of brochures, magazine and newspaper pages, newsletters, fliers, and advertisements. Students will learn how to coordinate art and typography with content. A workshop approach is used to show students how creativity in design can increase the effectiveness of communication. Students learn how to work with various computer applications to achieve effective layout.

*Prerequisite: Completion of the AA Arts and Sciences Communications Options Degree*

This course presents the rhetorical, social, and practical dimensions of writing and researching in networked contexts. Students analyze and compose with audio, video, image and text, using a variety of digital writing practices. Students blend research methods informed by current literacy theories and modalities, allowing them to explore meaning-making, circulation, and the ethical ramifications of writing within digital communities.

*Prerequisite: Completion of the AA Arts and Sciences Communications Options Degree*

This is a studio class that will balance the theory and practice of computer art and design. The primary digital tool for this course will be the Adobe Creative Suite, but this is not solely a "learn software" class. The concepts and methodologies learned in this class will enable the students to express themselves in digital media. Student collaboration will be mixed with hands-on instructor training and demonstrations. Course assignments will build upon recently learned skills and tie in with visual literacy and design principles. Through project completion students will explore brainstorming, design process, troubleshooting, presentation and critique. The intent of this course is to develop a basic foundation upon which all further design development of Graphic Design in all its forms, print, interactive, environmental, and motion, can be built. The introduction of an essential design vocabulary and its implementation in various exploratory processes, are a main focus.
### Business

**BUS 300**  
Applied Organizational Behavior  
Lecture Hours/Credits: 3/3

This course examines human relations in management. The course studies the concern for both task and process in the light of structure, goals and human relationships found in organized efforts. It also covers the application of new management theories in the areas of motivation, leadership and group problem-solving by a variety of means, including presentation, case studies, and role playing.

**BUS 304**  
Issues in Business: Directed Research  
Lecture Hours/Credits: 3/3  
Prerequisite: ENG 102 - English Composition II

This upper-division course focuses on the current issues and trends in business as found in the business media. The course is designed to allow students to explore areas of personal interest through the collection of research and the presentation of such material in written and spoken formats.

**BUS 308**  
Applied Human Resource Management II  
Lecture Hours/Credits: 3/3

Catalog Description

This course will provide an overview of human resource management (HRM). HRM is a fundamental component of the competitiveness, effectiveness, and sustainability of any organization, as it influences who is hired, how they are trained, evaluated, retained and compensated. Throughout the course, we will focus on the role of managers and how they can develop and implement effective and efficient human resource practices that support the strategic objectives of their firms. We will focus on the everyday human resource decisions made by all managers (e.g., selection, evaluation, compensation, termination).

**BUS 310**  
Business Logistics  
Lecture Hours/Credits: 3/3  
Prerequisite: BUS 221 - Principles of Marketing

This course focuses on the logistics of physical distribution and supply chains. Topics include traffic routing, inventory analysis and control, warehousing, location of production and storage facilities, and transportation.

### Data Analytics

**CIS 300**  
Advanced Database Technologies  
3 Lecture Hours. 3 Credits  
Prerequisite: Advanced Studies Degree requiring AS in Business Administration or Computer Information Systems or Computer Science

This course covers the practical aspects of relational database systems, including database modeling using ER and EER diagrams, physical database design, the relational database query language SQL, normal forms, database integrity and transaction management. Includes a project involving an RDBMS.

**SCI 301**  
Research Methods and Ethical Issues in Data Analysis  
3 Lecture Hours, 3 Credits  
Prerequisite: MAT 103

This course introduces students to scientific methods for conducting meaningful inquiry and data analysis. Students will gain an understanding of the scientific research process including developing research questions and designing analytical studies to answer research questions. The course includes an overview of the important concepts of data collection and data management as well as ethical considerations for data analysts in each aspect of the research process.

### Radio, Television and Film (Communications)

**COM 310**  
Television Production I  
3 lecture hours, 3 credits  
Prerequisites: COM 210, COM 212, COM 217 and COM 219

This course introduces students to the principles and techniques of television production. Students work in production teams within a professional television studio setting. Students gain experience in all phases of production, including conception of ideas, scripting, directing and operation of equipment to produce various types of programs. Programming includes newscasts and talk shows. Students also learn to edit 30-second commercials and PSAs.

**COM 312**  
Film Production I  
3 lecture hours, 3 credits  
Prerequisites: COM 210, COM 212, COM 217 and COM 219

Film Production I introduces students to the principles and techniques of film style production. Students work in production teams to make a series of short films designed to familiarize them with film production techniques including camera operation, shot composition and editing. In addition, students gain experience applying basic cinematic narrative concepts.

**COM 317**  
The Movie Industry I  
3 lecture hours, 3 credits  
Prerequisites: COM 210, COM 212, COM 217 and COM 219

This course introduces students to the language of the technical elements of the motion picture and to a method for analyzing the artwork created and the messages communicated by the motion picture. Students analyze the components of motion pictures including color, lighting, editing, scripting, directing and acting.

**COM 319**  
Screenwriting I  
3 lecture hours, 3 credits  
Prerequisites: COM 210, COM 212, COM 217 and COM 219

This course covers the basic technical requirements for writing movie scripts and the problems of adapting material to screen and script analysis. By viewing contemporary movies and studying plotting, point-of-view, character creation and dialogue, students learn how a film script is put together and write an original script.

### Criminal Justice

**CRJ 281**  
Criminal Justice Internship  
1 lecture hour, 3 credits  
Prerequisites: This course is for Criminal Justice majors with an overall GPA of 3.0 (or higher) who have passed a criminal history background check and have earned a minimum of 60 college credits (8 in Forensic Science and 21 in Criminal Justice and approved electives)

This internship is for Criminal Justice majors. It is designed to familiarize students with the philosophies and practices of criminal justice while serving as unpaid interns in host agencies. The internship will provide students the opportunity to interact with criminal justice professionals in a work environment. The purpose of the course is to facilitate student experience in the nexus between criminal justice theory and practice. Internships will be completed in one approved setting limited to federal and state criminal justice agencies.

**CRJ 301**  
Drugs and Crime in America  
3 lecture hours, 3 credits  
Prerequisites: ENG 102 or equivalent

This course explores and analyzes the relationship between illegal drugs and crime and the relevant issues and ramifications including, but not limited to, national and international trafficking, control of the problem, legalization and explanations for drug use.
CRJ 305 Counseling and Guidance of the Offender
3 lecture hours, 3 credits
Prerequisite: ENG 102 or equivalent

This course is a survey of the basic principles and techniques of counseling of offenders, including interviewing, case conferences, case histories, individual and group counseling, classification procedures and team treatment participation.

CRJ 308 Theories of Crime and Criminality
3 lecture hours, 3 credits
Prerequisite: ENG 102 or equivalent

This course explores the extent of crime and delinquency in the United States and the full range of relevant theories of causation. The synthesis and application of appropriate theories to such concepts as race, social class, gangs, drugs, family, schools and neighborhoods is covered.

Education

EDU 301 Literacy Pedagogy I
3 Lecture Hours, 3 credits
Prerequisite: AS Education Degree

This course explores the broadening nature of literacy and literacy instruction in the 21st century. The course addresses both the theory and pedagogy of literacy instruction. Topics range from emergent literacy to comprehension of narrative and expository discourse and address reading and writing instruction that engages students in the K-5 classroom. This course has a particular focus on designing literacy instruction for culturally and linguistically diverse students that positions the literacy teacher as a reflective practitioner with a focus on teaching for social justice.

EDU 302 Literacy Pedagogy II
2 lecture hours, 2 credits
Prerequisite: EDU 301

This course prepares teacher candidates to provide differentiated literacy instruction in diverse classrooms with a wide range of developmental levels, instructional needs, interests, and backgrounds. Teacher candidates will learn how to select, administer, and analyze various assessment tools to inform instruction. Field experience is required.

EDU 305 Current Policy & Practice in ESL and Bilingual Education
3 lecture hours, 3 credits
Prerequisite: AS Education degree

This course addresses foundational theories and areas of research related to the field of TESOL and bilingual education. Special emphasis is placed on the forces affecting students and policies related to second language schooling in state, national, and international contexts. Students will develop a reflective philosophy for educating English Language learners.

EDU 310 Differentiating Instruction in the Inclusive Classroom
2 lecture hours, 2 credits
Prerequisite: AS Education degree

This Junior Level (300) course will focus on how the diverse needs of individuals with educational disabilities/differences can be met within the general education classroom environment. Emphasis will be on developing communication/collaboration, instructional and assessment strategies that will assist the classroom teacher in diversifying instruction to meet individual needs.

EDU 315: Working with Families and Communities
3 lecture hours, 3 credits
Prerequisite: AS Education degree

This course is designed to heighten inclusive teacher candidates’ awareness of the roles that family and community have on a child’s success in school. The course situates students’ communities and families from an asset-based perspective, demonstrating that all children must be understood in the context of their community environment, including their families, schools, communities, and the wider society. Students will also develop skills in working effectively with diverse families in the learning community, in order to provide positive educational outcomes for children in inclusive settings.

EDU 318 Positive Behavior Support Systems
2 lecture hours, 2 credits
Prerequisite: AS Education degree

This course exposes teacher candidates to a variety of theoretical approaches in behavior support of students. Students will develop an individual support plan and explore multi-tiered class-wide and school-wide behavior support systems to support all students. Teacher candidates will also have the opportunity to develop and demonstrate competencies related to positive behavior intervention supports in conjunction with a required field experience component.

EDU 320 Clinical Experience I in Inclusive Education
1 clinical hour, 1 credit
Prerequisite: AS Education degree

This 1 credit Clinical Experience field-based course requires approximately 1 day a week in the field and focuses on inclusive pedagogy, including: differentiating instruction, implementing principles of Universal Design for Learning and adapting curriculum and classroom environments to support diverse learners in inclusive settings. The course is designed to align with the program goals of the BA in Inclusive Education and to accompany EDU 310: Differentiating Instruction in the Inclusive Classroom. Students develop the skills and have the opportunity to implement their skills in the field to support a wide range of learners, collaborate with cooperating teachers, as well as support school-based professionals and families. They learn to implement content-rich interdisciplinary learning experiences which address the learning needs of all students, utilizing a strengths-based perspective to differentiate and adapt instruction for individual learners. The program prepares students to create communities of learning based on social justice and culturally relevant pedagogical practice. The Inclusive Clinical Experience will be designed to present students with opportunities to focus on the practice they are developing in Differentiated Instruction. This course is a required course in the B.A. in Inclusive Education program, Elementary Education specialization (K-6).

EDU 323 Assessment in Special and Inclusive Education
3 lecture hours, 3 credits
Prerequisite: AS Education degree

This course emphasizes linking assessment with educational instruction in inclusive and special education. Prospective classroom teachers will learn how to routinely utilize formal and informal assessments to support all students in various inclusive settings. Teacher candidates will also have the opportunity to develop and demonstrate competencies related to assessment in conjunction with a required field experience component.
**EDU 327 Clinical Experience II in Inclusive Education**
1 clinical hour, 1 credit
Prerequisite: AS Education degree

This 1 credit Clinical Experience field-based course requires approximately 2 days a week in the field and focuses on inclusive pedagogy, including: differentiating instruction across content areas, with a particular focus on Social Studies and Science, implementing principles of Universal Design for Learning and adapting curriculum and classroom environments to support diverse learners in inclusive settings. The course is designed to align with the program goals of the BA in Inclusive Education and to accompany EDU 335: Social Studies Methods for the Inclusive Classroom and EDU 340: Science Inquiry and Methods for the Inclusive Classroom. Students build on the skills they have been developing in coursework and through EDU 320: Clinical Experience I in Inclusive Education and have the opportunity to implement their skills in the field to support a wide range of learners, collaborate with cooperating teachers, school-based professionals, and families. This course is a required course in the B.A. in Inclusive Education program, Elementary Education specialization (K-6).

**EDU 330 Trauma Informed Practices to Promote Social Emotional Development Educational Settings**
3 lecture hours, 3 credits
Prerequisite: AS Education degree

The purpose of this course is to provide future educators, professionals, and administrators in P-12 and higher educational settings with an overview of trauma-informed practices in educational settings, that support the social emotional development of all students. Students will explore the core tenets of trauma informed practices, that includes social emotional development, and how to address systemically through whole school initiatives, individual classrooms, and across content areas. Students will also learn how to implement and evaluate these practices.

**EDU 335 Social Studies Methods for the Inclusive Classroom**
3 lecture hours, 3 credits
Prerequisite: AS Education degree

The course focuses on engaging prospective teachers in inclusive social studies pedagogy in the K-6 inclusive elementary classroom. The course will equip students with instructional models that will prepare them to teach history and social sciences integrated with other subjects in the inclusive elementary classroom. This course will emphasize how prospective teachers might build inclusive social studies assessments using standards from the National Council for Social Studies and the Common Core State Standards. This course is a required course for students enrolled in the B.A. in Inclusive Education major.

**EDU 340 Science Inquiry & Methods for the Inclusive Classroom**
3 lecture hours, 3 credits
Prerequisite: AS Education degree

This course focuses on assessment practices in science education and developing instructional strategies for teaching science content as a means for achieving scientific literacy and understanding scientific inquiry. Candidates will explore strands of science including Nature of Science, Science as Inquiry, and Science Outreach and Resources, as well as Technology & Engineering for Elementary teaching. Candidates will be exposed to a variety of high leverage practices and science curricula with an emphasis on integrated instruction in a community context and meeting the unique needs of all learners.

**EDU 345 Mathematics Strategies in the Inclusive Classroom**
2 lecture hours, 2 credits
Prerequisite: AS Education degree

This course is designed to help teacher candidates prepare to teach mathematics in diverse, inclusive elementary classrooms. In order to do that, this course will focus on teaching through inquiry and problem solving, using appropriate interventions, and shaping the learning environment. The co-requisite STREAM practicum/clinical experience should be considered a laboratory for this course, where teacher candidates observe, reflect, question, and make connections to what is discussed in class in terms of both content and pedagogy.

**Emergency Management Option**

**EMG 300 Critical Infrastructure**
3 lecture hours, 3 credits
Prerequisite: 201

This course introduces student to the methods and approaches to protecting critical infrastructure a means of effectively protecting people, physical entities, and cyber systems and the establishment of an effective incident command operation. Moreover, students will examine vulnerability rise reduction strategies, contingency planning, and strategic partnership models as they are applied to the critical infrastructure sectors. Course topics include risk management team crisis communication, and public and private sector roles and relationships in emergency management.

**EMG 305 Natural and Technological Hazards: Migration and Response**
3 lecture hours, 3 credits
Prerequisite: EMG 201

Emergency management at its core, encompasses the recognition and management of natural disasters, technological disasters, and Na-Tech (hybrid) disasters. This course examines different types of natural disaster and integrates perspectives on risk, vulnerability, resilience, and migration planning through an examination of natural and technological hazards, including earthquakes, tsunamis, volcanoes, floods, landslides, hurricanes, tornadoes, wildfires, climate change, and a host of technological and human-induced hazards. Moreover, this class is needed to underscore the basic tenants of emergency management as a set of diverse response to various emergencies from the federal, state and local perspectives, the management of mass casualties, and ways to rebuild more resilient communities following a disaster.

**EMG 309 Emergency Operations and Business Continuity**
3 lecture hours, 3 credits

Catalog Description
Prerequisite: EMG 201

This course addresses the issues involved in continuing organizational operations when businesses, schools, governments, nonprofit organizations, etc. are faced with a catastrophic disaster. While it is estimated that nearly 43 percent of organizations impacted by disaster and crisis will never reopen and 51 percent will fall within two years, it is important to understand the underlying mechanisms that enhance a business’ opportunity to bounce back after a crisis. This course provides a step-by-step approach to the development of a comprehensive emergency management (disaster) plan for organizations. It applied to the manufacturing companies, corporate officers, retailers, utilities, government agencies, or any organizations where people work or gather. The course will provide the opportunity for students to gain exposure to empirical and authoritative data and research form specialist in the respected discipline areas. This course provides and analysis of the players involved; coordination with governmental emergency management; legal requirements, employee disaster awareness and preparedness; disaster mitigation, and response; business resumption considerations and public policy considerations and community outreach.

**Exercise Science**

**HPE 300 Kinesiology**
3 lecture hours, 3 credits
Prerequisite: C or Higher in BIO 105 and BIO 106

This course provides the student with an understanding of human movement from an anatomical, physiological, and mechanical perspective. Emphasis will be placed on application of these principles to fundamental movement and physical education activity.
This course is designed to explore the acute responses and chronic adaptations to exercise. Areas of discussion will include the cardiorespiratory, neuromuscular, and endocrine systems. Bioenergetics, metabolism, and the physiology of training is also explored. Students will learn how these systems function from rest to maximal exercise in fit, unfit, athletic, and diseased populations at the cellular level. Topics will be reinforced through hands-on laboratory activities.

### Nursing

**NUR 303** Comprehensive Health Assessment  
3 lecture hours, 3 credits  
**Prerequisites:** Graduation from an accredited school of nursing. Registered Nurse license in good standing.  
This course builds upon the Registered Nurse's fundamental knowledge and skills of health assessment

In utilizing a systematic approach, the student will develop a holistic approach in assessing the patient across the lifespan. Upon completion, the student will show competency in obtaining a thorough health history and becoming efficient in the physical skills of inspection, palpation, percussion and auscultation. Differences between normal and abnormal findings will be explored and appropriate documentation of findings will be stressed. Students will also be exposed to the cultural differences in health and will incorporate evidence-based approaches to assessment.

**NUR 305** Nursing Informatics  
3 lecture hours, 3 credits  
**Prerequisites:** Graduation from an accredited school of nursing. Registered Nurse license in good standing.  
This 300-level course reviews the information needs and information systems related to nursing practice. Students will experience the manner in which informatics supports all areas of practice, including education, clinical practice, administration and research.

**NUR 308** Topics in Healthcare Ethics  
3 lecture hours, 3 credits  
**Prerequisites:** Graduation from an accredited school of nursing. Registered Nurse license in good standing.  
This course examines moral dilemmas created or intensified by recent advances in medical technology and studies ways of analyzing those dilemmas. Discussion topics include: euthanasia and the right to die, abortion, behavior modification, allocation of scarce medical resources, in vitro fertilization, genetic screening and engineering and human experimentation. These moral dilemmas will be related to nursing.

### Psychology

**PSY 300** Introduction to Sport and Exercise Psychology  
3 lecture hours, 3 credits  
**Prerequisite:** PSY 101  
This course examines theories and models of psychology and how they relate to human performance. Topics include personality, exercise environments, motivation, and arousal. Stress and anxiety, group processes, leadership and psychological well-being and their impact on sport and exercise is also discussed.

**PSY 305** Psychology of Scientific Thinking  
3 lecture hours, 3 credits  
**Prerequisite:** PSY 101, Rowan 3+1 students ONLY  
Students will develop an understanding of the methods of science and its relationship to the outside world. Critical thinking and an empirical approach to evaluating scientific claims will be emphasized. Students will be introduced to the psychological processes underlying the scientific method and the persistence of belief in pseudoscientific and non-scientific claims.

**PSY 306** Statistics in Psychology  
3 Lecture Hours, 3 Credits  
**Pre or Corequisite** PSY 305  
This course focuses on the many statistical procedures used in psychological research. Students will learn to select and calculate appropriate procedures to analyze both quantitative and qualitative data. They will gain an understanding of how to select and perform descriptive, correlational, and inferential procedures. There will also be emphasis throughout the course on learning to use statistical software.

**PSY 308** Social Psychology of Sport  
3 lecture hours, 3 credits  
**Prerequisite:** PSY 101 and PSY 300  
This course examines issues related to athletic performance based on theoretical perspectives and current research addressing the impact of social concepts on sport and exercise. Topics include relationships in sport, team cohesion, group dynamics, effective communication, coach's impact on leadership, motivational climates and athletic transition.

**PSY 310** Psychology as a Profession and Practice  
3 lecture hours, 3 credits  
**Prerequisite:** PSY 101, Rowan 3+1 students ONLY  
Students will be introduced to applied areas in psychology, gaining knowledge about how psychological information is used to impact people's lives. The ways in which psychological knowledge are applied to understand individuals and the social world will be examined. Career paths in psychology and preparation for a career in psychology or other associated disciplines will be explored.

**PSY 315** Research Methods in Psychology  
3 Lecture Hours, 3 Credits  
**Prerequisite:** PSY 306  
This course addresses research design and methodologies for data collection in psychological research. Observation, correlational, and experimental techniques are studied. Ethical conduct in research and responsible interpretation of research results are also addressed.
Fairleigh Dickinson University

Rowan College of South Jersey has partnered with Fairleigh Dickinson University to make earning a bachelor’s or master’s degree faster and more convenient. Earn a degree from Fairleigh Dickinson — while attending convenient on-site classes at RCSJ.

**Earn a bachelor’s or master’s degree on the RCSJ campus:**

- Baccalaureate degrees
- Master’s degree studies
- Evening and weekend classes
- Competitively priced, special on-site tuition

**Choose from more than 12 undergraduate and graduate programs in career-oriented fields:**

- Business & Technology (BAIS)
- Communication Studies (BA)
- Education (BA/MAT or MAT only)
- Educational Leadership (MA)
- English Language and Literature (BA)
- History (BA)
- Humanities (BA)
- Psychology (BA)
- Public Service Administration (BAIS)
- Reading Specialist (MA)
- Teacher of Students with Disabilities (Graduate Certificate)

Wilmington University

Located in New Castle, Delaware, Wilmington University is a private, nonprofit institution that awards bachelor’s, master’s and doctoral degrees. The university prides itself on providing small, intimate learning environments and maintaining one of the lowest tuition rates in the region. RCSJ students have the option to remain on the Rowan College campus and complete their bachelor’s degree.

**Wilmington University offers the following on the RCSJ Gloucester campus:**

**Bachelor of Science programs in**

- Criminal Justice*
- Communication
- Human Resource Management
- Information Systems Management
- Marketing
- Media Design
- Nursing (RN to BSN)*
- Computer Science

**Master’s degree in:**

- Elementary & Secondary School Counseling

Students must graduate from RCSJ with an associate degree, meet the academic requirements necessary for each program and maintain a 2.0 grade point average.

Students are required to complete a minimum of 30 credit hours of upper-level coursework at Wilmington University.
